MAINTENANCE

Proper care of your magic props will ensure their longevity and optimal performance.

- **Storage:** Always store your magic props back in the deluxe box after use. The box is designed to protect the items and keep them organized.
- **Cleaning:** Most items are made of plastic or fabric. Clean plastic items with a soft, dry cloth. For fabric items like the magician's silk, gentle spot cleaning may be applied if necessary. Avoid harsh chemicals or abrasive materials.

- **Handling:** Handle all props with care. Avoid bending cards unnecessarily or applying excessive force to mechanical gimmicks.
- **Environment:** Store the box in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.

TROUBLESHOOTING

Most "issues" in magic performance stem from lack of practice or improper presentation. Here are some common points and solutions:

- **Trick Not Working:**
 - Re-read the instructions carefully. Ensure you haven't missed any steps or subtle movements.
 - Watch the video instructions on the Marvin's Magic app if available for that specific trick.
 - Practice more. Smooth execution comes with repetition.
- **Audience Sees the Secret:**
 - Focus on misdirection. Where is your audience looking? Where do you want them to look?
 - Improve your patter and stage presence to draw attention away from the secret move.
 - Perform in appropriate lighting and distance from your audience.
- **Props Damaged:**
 - Refer to the Maintenance section for proper care.
 - If a prop is significantly damaged and affects performance, contact Marvin's Magic customer support for

potential replacement options.
