WaterWarden SCMB18X36RS

WaterWarden Premium Mesh Pool Safety Cover Instruction Manual

Model: SCMB18X36RS for 18' x 36' In-Ground Pool with Right Step

PRODUCT OVERVIEW

The WaterWarden Premium Mesh Safety Pool Cover is designed to safeguard your in-ground pool and protect it from winter elements. This cover is manufactured to strict quality standards, ensuring durability and effective debris screening.

Important Safety Note: Do not open packaging with a knife to avoid damaging the cover.

Key Features:

- **Material Strength:** Constructed from thick polypropylene with a break-strength exceeding 4,000 lbs. Features 2-ply, triple-stitched strapping for enhanced durability.
- **Enhanced Durability:** Abrasion-resistant pads are integrated to protect the cover from wear at contact points with the pool deck. All straps include non-corrosive aluminum tips and manually sewn X-tacking.
- **Safety Standards:** UL classified in accordance with ASTM Standard F1346, ensuring compliance with safety regulations for pool covers.
- **Included Hardware:** Comes with a tamping tool, installation rod, hex key, solid brass anchors, and hooks for complete installation.
- **Sizing:** This specific cover is designed for an 18' x 36' in-ground pool with a right step. It includes a 1' overlap on all sides, resulting in an overall cover measurement of 20' x 38' plus a 4' x 8' right step.

INSTALLATION GUIDE

Proper installation is crucial for the safety and effectiveness of your pool cover. Follow these steps carefully.

Required Tools (Included):

- Tamping Tool
- Installation Rod
- Hex Key
- Solid Brass Anchors
- Hooks

Image: The complete set of installation tools provided with the WaterWarden pool safety cover, including the tamping tool, installation rod, hex key, brass anchors, and springs.

Installation Steps:

1. **Prepare the Pool Area:** Ensure the pool deck is clean and free of debris.
2. **Position the Cover:** Carefully unroll the cover over the pool, ensuring the right step section aligns correctly with your pool's step area. The cover should have a 1-foot overlap on all sides of the pool.
3. **Mark Anchor Points:** With the cover properly positioned, identify the locations on the deck where the springs and straps will connect. Mark these points accurately.
4. **Install Brass Anchors:** Drill holes at the marked points according to the manufacturer's instructions for your specific deck material. Insert the solid brass anchors into these holes. Use the tamping tool to ensure they are flush with the deck surface when not in use, preventing tripping hazards.
5. **Attach Springs and Straps:** Connect the springs to the cover's straps. Use the installation rod to hook the springs onto the brass anchors. Work systematically around the pool, ensuring even tension.
6. **Adjust Tension:** Use the hex key to adjust the tension of the straps as needed, ensuring the cover is taut across the pool surface.

OPERATING INSTRUCTIONS

The WaterWarden mesh safety cover is designed for ease of use during deployment and removal.

Deploying the Cover:

To deploy the cover, carefully unroll it over the pool, aligning the step section. Attach the springs to the brass anchors using the installation rod, ensuring all straps are securely fastened and the cover is taut. The mesh material allows rain to pass through into the pool while screening out leaves, twigs, and other debris.

Removing the Cover:

To remove the cover, use the installation rod to unhook the springs from the brass anchors. Carefully fold or roll the cover, starting from one end, to prevent damage and facilitate storage. Ensure the cover is clean and dry before storing.

CARE AND MAINTENANCE

Proper care and maintenance will extend the life of your WaterWarden pool safety cover.

- **Cleaning:** Periodically remove any accumulated debris from the top of the cover. For deeper cleaning, gently rinse the cover with a hose and mild soap solution. Avoid harsh chemicals or abrasive brushes that could damage the mesh material.
- **Drying:** Ensure the cover is completely dry before folding and storing it to prevent mold and mildew growth.
- **Storage:** Store the cover in a cool, dry place away from direct sunlight and pests during the swimming season. It is recommended to store it in a protective bag if available.
- **Anchor Maintenance:** Regularly check the brass anchors for any signs of wear or damage. Ensure they recess flush into the deck when the cover is not in use.

PRODUCT SPECIFICATIONS

Attribute	Detail
Brand	WaterWarden
Model Name	Premium Pool Safety Cover For 18' x 36' In-Ground Pool With Right Step, 20-Year Warranty
Item Model Number	SCMB18X36RS
