

Sojag 500-9165210

Sojag Outdoor 10' x 14' Mykonos Double Roof Hardtop Gazebo User Manual

Model: 500-9165210

1. PRODUCT OVERVIEW

The Sojag Mykonos Double Roof Hardtop Gazebo is designed to enhance your outdoor living space, offering protection from the elements and a comfortable area for relaxation or entertaining. Crafted from durable dark grey powder-coated aluminum, this gazebo is built to withstand various weather conditions year-round. Its polycarbonate roof allows light to filter through while providing UV protection, safeguarding both you and your outdoor furniture.

Key features include:

- **All-Season Durability:** Constructed with powder-coated aluminum for year-round resilience.
- **Insect Protection:** Includes PVC-coated polyester mosquito netting to keep pests away.
- **Flame-Resistant:** Meets CPAI-84 international safety standards for flame resistance.
- **Double-Roof Design:** Promotes increased air circulation.
- **Double-Track System:** Allows simultaneous use of mosquito netting and curtains (curtains sold separately).

2. SAFETY GUIDELINES

For safe use and installation of this freestanding shelter, please adhere to the following guidelines:

- **Anchoring:** Ensure the shelter is securely anchored to a stable and level foundation.
- **Weight Limits:** Do not exceed the recommended weight limit for the structure.
- **Assembly Precautions:** Take precautions during assembly and disassembly to prevent injuries. Handle all components with care.
- **Tool Usage:** Use only appropriate tools for assembly. When using power tools, wear safety glasses and gloves.
- **Weather Conditions:** Assemble the gazebo only in dry weather. Avoid assembly during strong winds or rain, as this can destabilize the structure.
- **Component Integrity:** Verify all parts are present and undamaged before beginning assembly. Missing or damaged parts should be replaced.
- **Secure Fasteners:** Use all provided screws, nuts, and bolts. Tighten all connections firmly, but do not overtighten to avoid damaging threads.
- **Sharp Edges:** Protect yourself from sharp edges and points, especially on metal parts, by wearing protective gloves.
- **Post-Assembly Check:** Thoroughly check all connections and anchor points after assembly to ensure stability. Regularly inspect the structure for loose screws or damaged parts, especially after strong winds or extreme weather.

- **Fire Safety:** Keep flames or hot objects (e.g., grills, fire pits) at a safe distance from the structure to prevent fire hazards. Do not use open flames inside or near the structure if it is not fire-resistant.
- **Overloading:** Do not place excessively heavy objects on the structure or add decorative material that could overload the roof. Adhere to the maximum permissible weight for the structure, especially for hanging items.
- **Child and Pet Safety:** Do not allow children to play unsupervised in or on the structure to prevent injury risks from unstable or heavy parts. Keep small parts out of reach of children. Mosquito netting and curtains can pose a strangulation hazard for small children; ensure they do not get entangled. Pets can easily damage the netting or fabric; keep textiles out of their reach.

3. PACKAGE CONTENTS

Your Sojag Mykonos Gazebo package includes the following components:

- 1 x Gazebo structure
- 1 x Gazebo roof kit
- 1 x Mosquito netting kit
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly of the Sojag Mykonos Gazebo typically takes approximately 6 hours with two people. While the instructions are designed to be clear, some steps may require careful attention. It is highly recommended to have a helper for efficient and safe assembly.

- **Preparation:** Choose a level and stable surface for assembly. Ensure all parts are accounted for and undamaged before starting.
- **Initial Fastening:** A helpful tip from experienced users is to leave all screws finger-tight until the very end of the assembly process. This allows for minor adjustments and alignment before final tightening.
- **Structural Assembly:** Follow the step-by-step illustrations in the provided instruction manual for assembling the frame and roof components.
- **Roof Installation:** Carefully install the polycarbonate roof panels according to the manual.
- **Netting Attachment:** Attach the mosquito netting using the integrated double-track system.
- **Final Tightening:** Once the entire structure is assembled and aligned, go back and securely tighten all screws and bolts.
- **Anchoring:** Properly anchor the gazebo to your chosen foundation to ensure stability against wind and other outdoor elements.

5. OPERATING INSTRUCTIONS

The Sojag Mykonos Gazebo is designed for straightforward operation, providing a versatile outdoor shelter.

- **Mosquito Netting:** Utilize the included PVC-coated polyester mosquito netting to create an enclosed, bug-free environment. The netting slides smoothly along the integrated double-track system.
- **Sun Protection:** The polycarbonate roof is designed to allow light while protecting from the sun's harmful UV rays. This also helps to protect your outdoor furniture from sun exposure.
- **Air Circulation:** The double-roof design facilitates improved air circulation, helping to keep the interior comfortable.

Figure 4: The gazebo provides a spacious and protected area for outdoor dining or lounging.

6. CARE AND MAINTENANCE

Proper care and maintenance will extend the lifespan of your Sojag Mykonos Gazebo.

- **Cleaning:** Regularly clean the fabric components (netting) according to the manufacturer's care instructions to prevent mold growth and material degradation. Use only mild cleaning agents and avoid aggressive chemicals that could damage the materials.
- **Snow Accumulation:** Sojag recommends removing any accumulation of snow from the gazebo roof to preserve its durability and stability. Winter covers are available and sold separately for additional protection.
- **Sun Exposure:** Prolonged sun exposure can cause the material to fade or reduce its strength. If possible, store fabric components in a shaded area when not in use for extended periods.
- **Inspection:** Periodically inspect the frame and roof for any signs of wear, damage, or loose connections. Address any issues promptly.

7. TROUBLESHOOTING

This section addresses common concerns and issues that may arise during the ownership of your gazebo.

- **Assembly Time:** While the estimated assembly time is 6 hours with two people, some users report it taking longer due to the number of parts and the need for precise alignment. Patience and careful adherence to the instructions are key.
- **Missing Parts:** In rare cases, components may be missing from the package. If you encounter this, contact customer support immediately with your product model number and a description of the missing parts.
- **Water Leakage:** Some users have reported minor leakage issues. Ensure all roof panels are correctly seated and all fasteners are tightened. Check for any gaps or misalignments in the roof structure.
- **Stability Concerns:** If the gazebo feels unstable after assembly, re-check all anchor points and ensure they are securely fastened to a solid, level foundation. Verify all frame connections are tight.

8. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	Sojag
Model Number	500-9165210
Product Dimensions	168"L x 120"W x 108"H (14'L x 10'W x 9'H)
Material	Aluminum (Frame)
Color	Dark Grey
Item Weight	6 ounces (shipping weight may vary)
Water Resistance Level	Water Resistant
Assembly Required	Yes
Occupancy	8-10 people
Manufacturer	ShelterLogic
UPC	772830165210

9. WARRANTY AND CUSTOMER SUPPORT

Your Sojag Mykonos Gazebo comes with a **1-year warranty**, covering manufacturing defects and material flaws under normal use.

For any questions, concerns, or warranty claims, please contact Sojag customer support:
