GLACIER FRESH GF-XWF

GLACIER FRESH XWF Refrigerator Water Filter Instruction Manual

Model: GF-XWF

INTRODUCTION

The GLACIER FRESH GF-XWF water filter is designed to provide clean, fresh-tasting water and ice from your refrigerator. This filter utilizes advanced filtration technology to reduce impurities, ensuring a healthier drinking experience.

IMPORTANT COMPATIBILITY NOTE

This filter is compatible with GE XWF models ONLY. It is NOT compatible with GE XWFE models. Please verify your refrigerator's filter model number before installation.

GLACIER FRESH was established in 2015, the main business is replacement water filters for use in household refrigerators to filter water for drinking and making ice. We have built leading market positions through new product innovation, product quality, and competition.

PRODUCT FEATURES AND BENEFITS

- **Advanced Filtration:** Produced by high-precision activated carbon and advanced three-layer filtering technology.
- **Chlorine Reduction:** Removes 97.9% chlorine, improving water's smell and taste.
- **Odor Removal:** Effectively removes unwanted odors.
- **Food-Grade Materials:** Constructed with safe, food-grade materials.
- **Leak-Proof Fit:** Designed for a precise, leak-proof fit in compatible GE refrigerators.
- **Easy Installation:** Tool-free installation for convenience.

INSTALLATION INSTRUCTIONS

1. **Open Filter Housing:** Open the filter cartridge housing by squeezing the 2 front tabs and gently pulling down.
2. **Insert New Filter:** Line up the ports on the filter with the ports on the filter cartridge holder, and gently insert the filter.
3. **Secure Filter:** Slowly turn the filter to the right until it stops. **DO NOT OVERTIGHTEN.** As you turn the filter, it will automatically adjust itself into position. The filter will move about a $\frac{1}{4}$ turn or 90 degrees until the arrow on the filter aligns with the arrow on the filter cartridge holder.
4. **Close Housing:** Slowly push the filter up into the clips and close the cover.
5. **Flush System:** After installation, flush approximately 4 gallons of water through the dispenser to remove air and any carbon fines.

More options, choose the filter that you need

MAINTENANCE

For optimal filtration performance and water quality, the GLACIER FRESH XWF water filter cartridge should be replaced regularly.

- **Replacement Frequency:** Replace the filter every six months or after filtering 200 gallons of water, whichever comes first.
- **Indicators for Replacement:** Consider replacing the filter if you notice a decrease in water dispenser output or if your refrigerator's filter replacement light is flashing.
