## Feiss EP1101AI

# Feiss Generation Lighting-ElLEN Collection-Atlas-One Light Pendant

Model: EP1101AI

## INTRODUCTION

---

Thank you for choosing the Feiss Generation Lighting Atlas One Light Pendant. This manual provides essential information for the safe installation, operation, and maintenance of your new lighting fixture. Please read these instructions thoroughly before beginning installation and retain them for future reference.

The Atlas pendant features a transitional design with an Aged Iron finish and a unique Clear Seeded Glass globe shade, designed to enhance your living space with inviting ambiance.

## SAFETY INFORMATION

---

**WARNING: RISK OF ELECTRIC SHOCK. Disconnect power at the fuse box or circuit breaker before installing or servicing.**

- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Contact a qualified electrician if you are unfamiliar with proper electrical wiring connections.
- Use only UL or ETL listed wire connectors.
- This fixture is designed for indoor use only.
- Ensure the fixture is securely mounted to a structural element of the ceiling.
- Do not exceed the maximum wattage specified for the bulb.

## PACKAGE CONTENTS

---

Carefully unpack your fixture and check that all parts are included. If any parts are missing or damaged, do not attempt to assemble or install the fixture. Contact customer service for assistance.

- Feiss Atlas One Light Pendant (Model: EP1101AI)
- Mounting Hardware (typically includes mounting plate, screws, wire nuts)
- Installation Instructions

*Note: One A19 bulb is required and not included with this package.*

## SETUP AND INSTALLATION

---

Follow these steps for safe and proper installation of your pendant light.

1. **Turn Off Power:** Before starting any electrical work, ensure the power supply to the junction box is turned off at the circuit breaker or fuse box.
2. **Prepare Mounting:** Attach the mounting plate to the junction box in the ceiling using the provided screws. Ensure it is securely fastened.
3. **Adjust Height (if applicable):** If your pendant has an adjustable rod or chain, determine the desired hanging height and adjust accordingly before wiring.
4. **Wire Connections:** Connect the fixture's wires to the corresponding wires from the junction box. Typically, black to black (live), white to white (neutral), and green/bare copper to green/bare copper (ground). Use UL/ETL listed wire connectors and secure them with electrical tape.
5. **Secure Fixture:** Carefully push the wired connections into the junction box and secure the fixture canopy to the mounting plate using the provided screws.
6. **Install Bulb:** Insert one A19 bulb (not included) into the fixture's socket. The fixture supports up to 60 watts.
7. **Attach Glass Shade:** Carefully attach the Clear Seeded Glass shade to the fixture according to the design.
8. **Restore Power:** Once installation is complete and all connections are secure, restore power at the circuit breaker or fuse box.

## OPERATING INSTRUCTIONS

---

The Feiss Atlas Pendant is designed for simple operation. Once properly installed and powered, the light can be controlled via a standard wall switch (push button type) connected to the circuit.

- **Turning On/Off:** Use the wall switch connected to the fixture's circuit to turn the light on or off.
- **Bulb Replacement:** Ensure power is off before replacing the bulb. Allow the bulb to cool completely before touching. Use only A19 bulbs, up to 60 watts.

## MAINTENANCE

---

Regular cleaning will help maintain the appearance and performance of your pendant light.

- **Cleaning the Fixture:** Disconnect power before cleaning. Use a soft, dry cloth to wipe down the Aged Iron finish. Avoid abrasive cleaners or solvents, as they may damage the finish. The Aged Iron finish is designed to develop a unique patina over time.
- **Cleaning the Glass Shade:** The Clear Seeded Glass shade can be cleaned with a soft, damp cloth. For stubborn marks, a mild glass cleaner can be used, applied to the cloth first, not directly to the glass. Ensure

the glass is completely dry before restoring power.

- **Bulb Replacement:** Always turn off power and allow the bulb to cool before attempting to replace it.

## TROUBLESHOOTING

---

If you experience issues with your pendant light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Loose wire connection. Defective bulb.	Check circuit breaker/fuse. Ensure all wire connections are secure (with power off). Replace bulb with a new one.
Light flickers.	Loose bulb. Loose wire connection. Incompatible dimmer switch (if applicable).	Tighten bulb. Check wire connections (with power off). Ensure dimmer switch is compatible with the bulb type.
Glass shade appears dirty or cloudy.	Dust or residue buildup.	Clean with a soft, damp cloth and mild glass cleaner if necessary.
