2. SAFETY INFORMATION

Please read and understand all instructions before installing, operating, or servicing this fireplace. Failure to follow these instructions may result in electric shock, fire, property damage, or personal injury.

- **Electrical Safety:** Ensure the power supply matches the fireplace's requirements. Do not overload circuits. Always disconnect power before performing any maintenance or cleaning.
- **Placement:** Do not install the fireplace directly below a fixed electrical outlet. Maintain proper clearances from combustible materials as specified in the installation section.
- **Ventilation:** This is a vent-free unit. Do not block the heat outlet or air intake vents.
- **Heat Output:** The heater can become hot. Do not touch hot surfaces. Keep children and pets away from the heater area.
- **Water Exposure:** While approved for outdoor installation, ensure the unit is protected from direct water exposure and extreme weather conditions.
- **Maintenance:** Only qualified service personnel should service this fireplace.

4.2 Electrical Connection

This fireplace is both thermostat and electrical hard-wire ready. Consult a qualified electrician for hard-wiring installations to ensure compliance with local electrical codes.

- **Power Source:** Corded Electric
- Ensure the power supply is adequate for the unit's requirements (typically 120V AC).

5. OPERATING INSTRUCTIONS

Your Amantii electric fireplace offers various features controllable via the included remote control or a smartphone app (Wi-Fi enabled models).

5.1 Remote Control Operation

The remote control allows independent operation of the flame effects and the heating function.

- **Power On/Off:** Press the power button to turn the unit on or off.
- **Flame Color Selection:** Cycle through available flame colors (yellow, orange, red) using the dedicated flame button.
- **Flame Brightness:** Adjust the brightness of the flame effects.
- **Heater Control:** Activate or deactivate the heater. Adjust temperature settings if a thermostat is connected.
- **Canopy Lighting:** Control the integrated canopy lighting, which offers customizable colors.

AMBIENT CANOPY LIGHTING

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your electric fireplace. Always disconnect power before performing any maintenance.

- **Cleaning the Exterior:** Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Cleaning the Glass:** Use a soft cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the glass.
- **Air Intake/Outlet:** Periodically check and clean the air intake and outlet vents to ensure unobstructed airflow. Use a vacuum cleaner with a brush attachment to remove dust.
- **Media Kit:** The birch logs, stones, and pebbles can be gently cleaned with a soft brush or damp cloth if they accumulate dust.

7. TROUBLESHOOTING

If you experience issues with your fireplace, refer to the following common troubleshooting steps. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
No power to the unit.	Power cord unplugged, circuit breaker tripped, or wall switch off.	Ensure power cord is securely plugged in. Check and reset circuit breaker. Verify wall switch is on.
Flames not visible.	Flame effect turned off, or LED lights malfunction.	Ensure flame effect is activated via remote or control panel. If problem persists, contact support.
Heater not producing heat.	Heater off, thermostat set too low, or thermal cut-off activated.	Turn heater on. Increase thermostat setting. Allow unit to cool down if thermal cut-off activated.
Remote control not working.	Dead batteries, obstruction, or remote out of range.	Replace batteries. Remove obstructions. Ensure remote is within operating range.
