WoldoClean Coffee Machine Cleaning Tablets - Instruction Manual

PRODUCT OVERVIEW

WoldoClean cleaning tablets are specifically designed to effectively remove coffee fats, oils, and residues from the brewing unit and conduits of your coffee machine. With each use, coffee oils and particles accumulate, which can affect the long-term operation and flavor of the coffee. The highly effective formula of these cleaning tablets ensures deep cleaning and protects the machine from contaminants.

The optimal 2g formula with a 15mm diameter ensures quick and residue-free dissolution, preventing any unpleasant changes in coffee taste. They are ideal for regular use and support automatic cleaning programs, allowing for hygienic cleaning and consistent coffee flavor.

KEY FEATURES

- **Highly Effective Cleaning:** Reliably dissolves coffee fats and oils for 100% pure coffee flavor without residues.
- **Long Machine Lifespan:** Removes solid deposits in the brewing group, contributing to the longevity of your machine.
- **Wide Compatibility:** Suitable for DeLonghi, Jura, Siemens, Bosch, Krups, Melitta, Philips, Miele, WMF, Nivona, Sage machines and all portafilter machines from all manufacturers.
- **Optimal Dosage:** 40 cleaning tablets of 2 grams each, sufficient for approximately 40 cleaning cycles (e.g., after 45 cups or every 12 days).
- **Residue-Free Dissolution:** All tablets dissolve without leaving residues in the water and ensure an absolutely taste-neutral coffee care with each application.

INGREDIENTS

The WoldoClean cleaning tablets contain:

- Alcohol alkoxylate
- Sodium phosphonate
- Auxiliary agent

USAGE INSTRUCTIONS

Always refer to your coffee machine's manufacturer instructions for specific cleaning procedures. The following general steps apply:

1. Preparation:

- Fill the water tank with clean water.
- Empty and rinse the system drip tray.
- Place a sufficiently large container under the coffee outlet nozzle.

2. Cleaning Cycle:

- Use **1 WoldoClean cleaning tablet** per cleaning process.
- Place the cleaning tablet into the designated powder compartment or cleaning compartment of your coffee machine.
- Start the automatic cleaning program on your coffee machine.

3. Post-Cleaning:

- Once the cleaning program is complete, empty the system drip tray and rinse it thoroughly.
- Refill the water tank with clean water and rinse the machine according to the manufacturer's instructions to ensure all cleaning solution is flushed out.

4. **Manual Cleaning (if applicable):** For manual cleaning of removable parts, tablets can be dissolved in hot water and used for deep cleaning. Ensure thorough rinsing afterwards.

WoldoClean®

FOLLOW THE INSTRUCTIONS OF
THE EQUIPMENT MANUFACTURER

INSTRUCTIONS

1 TABLET PER CLEANING CYCLE

- 1** Fill the tank with clean water. Empty and rinse out the system drip tray.
- 2** Place a sufficiently large container under the outlet nozzle.
- 3** Place the tablet in the slot provided and start the cleaning program.
- 4** Empty the system drip tray and rinse thoroughly. Fill the water tank with clean water and rinse the machine.

MAINTENANCE SCHEDULE

Regular use of WoldoClean cleaning tablets is recommended to prevent blockages and preserve the full flavor of your coffee. A general guideline is to perform a cleaning cycle approximately every 45 cups or

every 12 days, or as indicated by your coffee machine's maintenance alerts.
