

Amazon Basics GF43050L

Amazon Basics Smudge Resistant Rectangular Trash Can

User Manual for Model GF43050L

1. INTRODUCTION

Thank you for choosing the Amazon Basics Smudge Resistant Rectangular Trash Can. This manual provides important information regarding the setup, operation, maintenance, and troubleshooting of your new trash can. Please read this manual thoroughly before use and retain it for future reference.

2. PRODUCT FEATURES

This trash can is designed for convenience and durability, offering several key features:

- **Convenient Size:** 50 liter / 13.2 gallon capacity, suitable for home or office use.
- **Everyday Use:** Features a stay-open lid, a removable inner bucket, and a carry handle for easy and convenient trash disposal.
- **Durable Construction:** Made with a smudge-resistant stainless steel exterior and a heavy-duty plastic inner bucket for reliable strength and longevity.
- **Quiet Operation:** Equipped with a manual foot lever and a soft-close lid mechanism, ensuring ultra-quiet opening and closing.

Removable heavy-duty plastic bucket with handle for waste disposal

Soft-close lid reduces noise from opening/closing

Works with a 1.3-gallon trash bag

Stainless Steel

50 liter / 13.2 gallon

3. SETUP

Setting up your Amazon Basics trash can is straightforward:

1. **Unpack:** Carefully remove the trash can and all packaging materials from the box.
2. **Position:** Place the trash can on a flat, stable surface in your desired location.
3. **Insert Liner:** Lift the removable inner bucket out of the main body. Place a 13.2-gallon (50 liter) trash bag into the inner bucket, ensuring the edges of the bag are folded over the rim of the bucket.
4. **Replace Bucket:** Carefully lower the inner bucket with the trash bag back into the main body of the trash can. Ensure it sits securely.

4. OPERATING INSTRUCTIONS

Using your trash can is simple and efficient:

- **Opening the Lid (Foot Pedal):** Gently press down on the foot pedal located at the base of the trash

can. The lid will open smoothly. Release the pedal to allow the lid to close softly and quietly.

- **Stay-Open Lid Feature:** For extended use or when changing trash bags, you can manually lift the lid to a 90-degree angle. The lid is designed to stay open at this position, providing easy access to the inner bucket. To close, gently push the lid down until the soft-close mechanism engages.
- **Removing Trash:** When the trash bag is full, use the stay-open lid feature. Lift the inner bucket using its integrated handle. Remove the full trash bag and dispose of it properly.
- **Replacing Trash Bag:** Follow step 3 and 4 from the "Setup" section to insert a new trash bag and replace the inner bucket.

Stay-Open & Soft-Close Lid

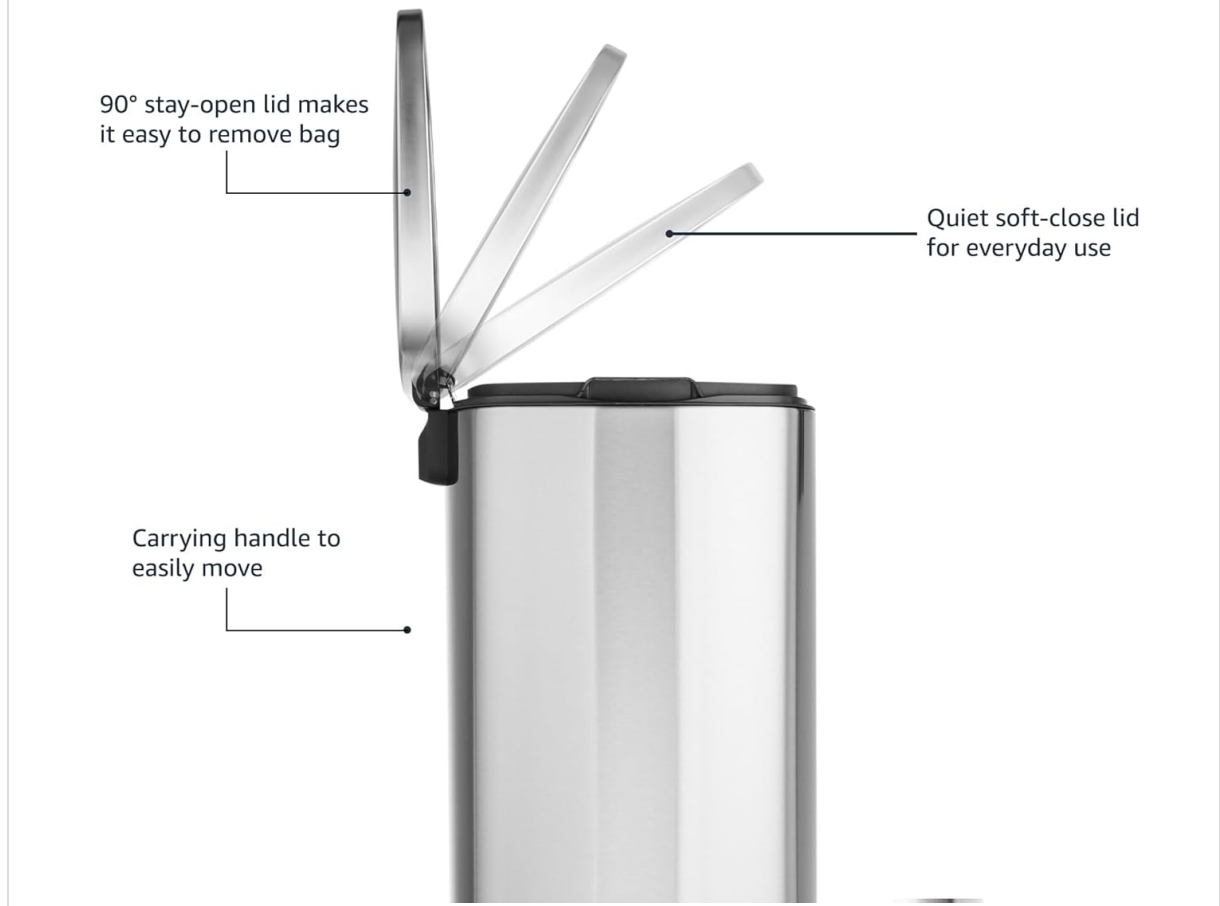

Image: A diagram illustrating the lid's functionality, highlighting the 90-degree stay-open position for easy bag removal and the quiet soft-close mechanism. A carrying handle on the side of the trash can is also indicated.

5. CARE AND MAINTENANCE

To keep your trash can in optimal condition, follow these cleaning guidelines:

- **Exterior Cleaning:** Wipe the stainless steel exterior with a soft, damp cloth and a mild detergent. For best results and to maintain the smudge-resistant finish, dry immediately with a clean, soft cloth. Avoid abrasive cleaners or scouring pads, as these can damage the finish.
- **Inner Bucket Cleaning:** The removable inner bucket can be washed with soap and water. Rinse thoroughly and allow it to dry completely before placing it back into the trash can.
- **Odor Control:** To prevent odors, regularly clean the inner bucket and consider using odor-absorbing products inside the trash can.

6. TROUBLESHOOTING

If you encounter any issues with your trash can, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lid does not close softly.	Mechanism obstructed or dirty.	Check for any debris or objects obstructing the soft-close mechanism. Clean the hinge area if necessary.
Foot pedal is stiff or unresponsive.	Mechanism dirty or misaligned.	Inspect the pedal mechanism for any foreign objects. Ensure the trash can is on a level surface.
Inner bucket is difficult to remove or insert.	Trash bag is overfilled or misaligned.	Do not overfill the trash bag. Ensure the trash bag is properly seated within the inner bucket and not catching on the sides of the main body.

If the problem persists after attempting these solutions, please contact Amazon Basics customer support for further assistance.

7. SPECIFICATIONS

Attribute	Detail
Product Dimensions (L x W x H)	16.73 x 14.65 x 25.87 inches (42.49 x 37.21 x 65.71 cm)
