## Airfree P3000 Plus

# Airfree P3000 Plus Air Purifier User Manual

Model: P3000 Plus | Brand: Airfree

## INTRODUCTION

The Airfree P3000 Plus is an advanced, filterless air purifier designed to improve indoor air quality by eliminating airborne microorganisms and reducing harmful ozone levels. Utilizing patented Thermodynamic TSS Technology, it silently destroys viruses, bacteria, mold, allergens, and other organic pollutants without the need for filters or maintenance.

This manual provides essential information for the proper setup, operation, and care of your Airfree P3000 Plus air purifier.

## PRODUCT FEATURES

- **New TSS Technology:** Uses heat within the auto-cleaning ceramic core mini ducts to destroy 100% of mold spores, bacteria, viruses, pet & dust mite allergens, without changing the room's temperature.
- **Filterless Operation:** No filters to replace, saving on maintenance costs and effort. The patented TSS air sterilizing ceramic core lasts up to 20 years.
- **Silent Operation:** The TSS perpetually silent operation ensures undisturbed sleep, work, or relaxation, making it ideal for bedrooms or workplaces.
- **Mold Prevention:** Continuously and silently destroys mold and mold spores, preventing new mold colonies.
- **Pet Allergen Reduction:** Destroys mold spores and pet allergens that affect owners and can cause diseases in pets.
- **Ozone Reduction:** Reduces 26% of harmful and corrosive Ozone without using or generating ions.
- **Consistent Efficiency:** The TSS ceramic core maintains 100% air sterilizing efficiency regardless of usage duration due to its self-cleaning heated mini ducts.
- **Optional Capsule System:** An add-on for holding particles and activated carbon capsules to absorb odors, VOCs, and chemicals.
- **Wide Coverage:** Effectively covers areas up to 650 square feet.

## WHAT'S IN THE BOX

Your Airfree P3000 Plus package includes:

- One (1) Airfree P3000 Plus Air Purifier Unit

- Power Cable
- Remote Control (for models with remote functionality)
- User Manual (this document)

## SETUP

---

1. **Unpacking:** Carefully remove the Airfree P3000 Plus from its packaging. Retain all packaging materials for future transport or storage.
2. **Placement:** Place the unit on a flat, stable surface in the desired room. Ensure there is adequate space around the unit for proper air circulation. Avoid placing it directly against walls or in enclosed spaces. The unit is designed to cover up to 650 square feet.
3. **Power Connection:** Plug the power cable into the unit and then into a standard electrical outlet.
4. **Initial Operation:** The unit will begin operation automatically once plugged in. Allow a few hours for the unit to reach optimal operating temperature and begin its full sterilization process.

## OPERATING INSTRUCTIONS

The Airfree P3000 Plus can be operated via its touch sensor controls or through a smartphone app for convenience.

## Touch Sensor Controls

The unit features intuitive touch sensors on its surface for basic functions:

- **Power On/Off:** The unit typically powers on automatically when plugged in. To turn off, unplug the unit.
- **Fan Speed/Boost Mode:** Touch the fan icon to cycle through fan speeds or activate the Boost mode for increased sterilization speed.
- **Light Control:** Touch the light bulb icon to adjust or turn off the ambient light.

### User-friendly Design

Our electronic purifying machine is portable, compact, and easy to use. It also blends well with any decor or space.

Figure 2: User-friendly design of the Airfree P3000 Plus, showing a hand interacting with the touch controls on the unit's top surface.

## Smartphone App Control

For enhanced control and monitoring, download the official Airfree app from your device's app store. Follow the in-app instructions to pair your device. The app allows you to:

- Control fan speed and Boost mode.

- Manage ambient light settings.
- Monitor air quality (if applicable to model).
- Set schedules (if applicable to model).

## MAINTENANCE

One of the key advantages of the Airfree P3000 Plus is its maintenance-free design. Thanks to its patented Thermodynamic TSS Technology, there are no filters to replace or clean.

- **No Filter Replacement:** The ceramic core lasts up to 20 years, eliminating the need for costly and frequent filter changes.
- **Cleaning:** Occasionally, you may wipe the exterior of the unit with a dry, soft cloth to remove dust. Do not use abrasive cleaners or immerse the unit in water.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	Not properly plugged in; power outage.	Ensure the power cable is securely plugged into both the unit and a working electrical outlet. Check the power supply.
Unit is making unusual noise.	Obstruction in air intake/outlet; unit not on a stable surface.	Check for any obstructions around the air intake and outlet. Ensure the unit is placed on a flat, stable surface. If noise persists, contact customer support.
App connection issues.	Bluetooth/Wi-Fi interference; incorrect pairing process.	Ensure your device's Bluetooth/Wi-Fi is enabled. Restart the app and the Airfree unit. Follow the app's pairing instructions carefully.
Red light instead of blue.	Indicates a potential malfunction or error.	Unplug the unit for 5 minutes, then plug it back in. If the red light persists, contact customer support.

## SPECIFICATIONS

Feature	Detail
Model Number	P3000 Plus
Brand	Airfree
Dimensions (W x H)	8.4"W x 10.4"H
Weight	3.8 Pounds
Coverage Area	Up to 650 Square Feet
Noise Level	20 dB (Silent operation when Boost mode is off)
Technology	Thermodynamic TSS Technology
Filter Type	Filterless (Ceramic Core)
Color	Black
