Setup and Assembly

Assembly of the Nanoblock Kaminarimon Deluxe Edition requires patience and attention to detail. Follow the step-by-step instructions provided in the included instruction booklet. The general assembly process involves:

1. **Preparation:** Clear a well-lit, flat workspace. Organize your blocks by color and size to facilitate easier assembly.
2. **Base Construction:** Begin by building the foundation of the Kaminarimon gate as indicated in the manual.
3. **Main Structure:** Construct the main pillars and walls, paying close attention to the placement of the Fujin (Wind God) and Raijin (Thunder God) statues within their respective niches.

- **Environmental Conditions:** Store and display the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.

Troubleshooting

- **Missing Pieces:** If you discover missing pieces during assembly, first double-check the packaging and your

workspace. If still missing, contact KAWADA customer support with details of the missing parts.

- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply gentle, even pressure. Avoid excessive force, which can damage blocks.
- **Model Instability:** Re-examine the connections in the unstable section. Ensure all blocks are fully pressed together according to the instructions.
