3. ASSEMBLY INSTRUCTIONS

The Yamazaki Home Rolling Slim Bathroom Utility Cart requires minimal assembly. Follow these steps to set up your cart:

1. **Attach the Wheels:** The product comes with four wheels: two standard swivel casters and two standard rigid casters. We recommend installing the two rigid casters on the opposite side of where you intend to attach the handle. The rigid casters only move forward and backward, providing stability when pulling.
2. **Attach the Handle:** The convenient handle can be attached to either end of the cart, depending on your preference and the cart's intended orientation.

4. OPERATING INSTRUCTIONS

The Yamazaki Home Rolling Slim Bathroom Utility Cart is designed for ease of use and versatile storage.

- **Storage:** Utilize the multiple shelves to store various items. The shelves are designed with varying widths to accommodate items of different sizes, including taller items like bathroom cleaning tools with long handles.
- **Mobility:** The integrated wheels make it simple to move the cart around the room. For best results and to prevent wobbling, lift the handle slightly when dragging the cart.
- **Discreet Placement:** For a minimalist aesthetic and discreet storage, face the solid metal side of the cart outwards. Roll it around only when you need access to the stored items.

5. MAINTENANCE

To keep your Yamazaki Home Rolling Slim Bathroom Utility Cart in optimal condition:

- **Cleaning:** Wipe clean with a soft, damp cloth, and then wipe dry immediately to prevent water spots or damage to the finish.
- **Inspection:** Periodically check all connections and components to ensure they are secure.

6. TROUBLESHOOTING

If you encounter any issues with your utility cart, consider the following:

- **Wobbling:** Ensure all wheels are securely attached and that the cart is placed on a flat, stable surface. If the cart feels wobbly during movement, try lifting the handle slightly to reduce friction on the rigid casters.
- **Limited Mobility:** Verify that the wheels are free of debris and can rotate smoothly. Ensure the rigid casters are

positioned on the side opposite the handle for optimal maneuverability.

- **Toppling Risk:** Due to its slim profile, it is recommended to prop the cart against walls or between other items in narrow spaces to prevent accidental toppling, especially when loaded with heavier items.
