SETUP

1. Connect the Micro USB end of the provided USB cable to the Micro USB port on the AIMOS USB Volume Control unit.
2. Plug the USB-A end of the cable into an available USB port on your computer, laptop, or compatible Android device (via OTG cable, not included).
3. The device is plug-and-play and does not require any driver installation. It will be automatically recognized by your operating system.

Ours

A USB cable can be connected, 360 degrees arbitrary rotation to adjust the volume, blue breathing lamp, easy to use, plug and play

Other

360 degree rotation is not supported, the connection line is not easy to arrange, many interface, and the plastic material is not durable

Speed Modes

The device supports two speed modes for volume adjustment:

- **Default Mode:** In this mode, Windows volume changes by 2% for each anchor point rotation of the knob. A full 0-100% adjustment requires 2 full laps of rotation. This mode offers finer control and is recommended for Android devices.
- **High Speed Mode:** In this mode, Windows volume changes by 4% for each anchor point rotation. A full 0-100% adjustment requires only 1 full lap of rotation. This mode provides faster adjustment and is suitable for headphones, laptop built-in speakers, or low-power speakers.

To switch between modes, press the knob and rotate it simultaneously. The LED breathing light will flash to indicate the current mode: two flashes for Default Mode, and ten flashes for High Speed Mode.

Night Mode

To activate Night Mode, press and hold the knob for more than 8 seconds. In Night Mode, the breathing light will remain steadily on, which is convenient for use in low-light environments.

COMPATIBILITY

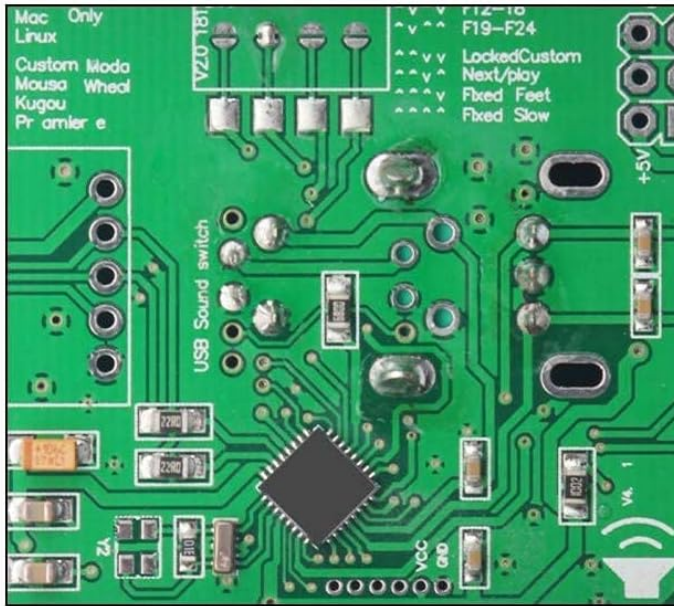

The AIMOS USB Volume Control is compatible with a wide range of devices and operating systems, including:

- **Operating Systems:** Windows (XP, 7, 8, 10), Mac OS, Linux, Vista, Android.
- **Devices:** Desktop computers, laptops, all-in-one PCs, mobile phones (with OTG cable), car navigation systems, set-top boxes, and other Android devices.

MAINTENANCE

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Store the volume control in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid exposing the device to water or excessive moisture.
- Do not attempt to disassemble or repair the device yourself, as this may void the warranty and cause damage.

TROUBLESHOOTING

- **Device Not Recognized:**

- Ensure the USB cable is securely connected to both the volume control and the computer's USB port.
- Try connecting the device to a different USB port on your computer.
- Restart your computer and try connecting the device again.

- **Volume Not Adjusting:**

- Verify that the device is properly recognized by your operating system.
- Check your system's audio settings to ensure the correct output device is selected.
- If using with an Android device, ensure the OTG cable is functioning correctly.

- **Breathing Light Not Functioning:**

- Ensure the device is powered on and connected.
- If in Night Mode, the light should be steadily on. If not, try pressing and holding the knob for 8 seconds again to toggle the mode.
