Ciglow Cloud-Shaped Digital Alarm Clock User Manual

Model: Ciglow0718pm9ik3-01

INTRODUCTION

Thank you for purchasing the Ciglow Cloud-Shaped Digital Alarm Clock. This manual provides detailed instructions for setting up, operating, and maintaining your new clock. Please read this manual thoroughly before use to ensure proper function and longevity of the product.

Figure 1: Front view of the Ciglow Cloud-Shaped Digital Alarm Clock displaying time and temperature.

PACKAGE CONTENTS

- 1 x Ciglow Cloud Clock Alarm
- 1 x USB Charging Cable
- 1 x User Manual (this document)

Figure 2: The included USB charging cable for the clock.

SETUP

1. Initial Charging

Before first use, fully charge the clock. Connect the provided USB charging cable to the DC5V input port on the back of the clock and the other end to a standard USB power adapter (not included) or a computer USB port. The charging indicator will blink when the battery is low (20% energy left) and will stop blinking when fully charged.

2. Power On/Off

Locate the ON/OFF switch on the back of the clock. Slide it to the "ON" position to power on the device.

Figure 3: Rear view of the clock, highlighting the power switch and charging port.

3. Setting Time and Date

Press the **SET** button (often represented by a gear or clock icon) on the back of the clock to enter time setting mode. Use the **+** and **-** buttons to adjust the hour, then press **SET** again to move to minutes, and so on for year, month, and day. The clock supports a 24-hour display format.

OPERATING INSTRUCTIONS

Display Activation

The clock display is designed to conserve power. It will show LED time, date, temperature, alarm, and snooze information by turn. To activate the display, you may need to make a sound (voice activation) or gently shake the clock. The display does not remain constantly on.

time memory function

No need to reset time when restart the clock

Figure 4: Icons representing the clock's multi-functional display capabilities.

Setting the Alarm

Press the **ALARM** button (often represented by a bell icon) to enter alarm setting mode. Use the + and - buttons to set the desired alarm time. Press **ALARM** again to confirm and activate the alarm. An alarm icon will appear on the display when the alarm is set.

Snooze Function

When the alarm sounds, you can activate the snooze function by gently shaking the clock. This will provide a 5-minute snooze period. If no action is taken, the alarm will ring for 3 minutes and then automatically shut off for the day.

Time Alarm & Snooze Function

Enables you to get up on time or take a short snooze

Figure 5: The clock on a bedside table, illustrating its alarm and snooze capabilities.

Temperature Display

The clock displays the real-time temperature, ranging from -30°C to 50°C . This feature is integrated into the rotating display cycle.

Magnetic Mounting

The clock features a strong magnet on its back, allowing it to be absorbed onto a refrigerator or other magnetic surfaces. This provides flexible placement options.

Figure 6: Demonstrating the strong magnet on the back of the clock for mounting on magnetic surfaces.

Time Memory Function

The built-in battery ensures that you do not need to reset the time when the power is off or when the clock is recharged, preserving your settings.

MAINTENANCE

Cleaning

To clean the clock, gently wipe the surface with a soft, dry cloth. Do not use abrasive cleaners, solvents, or immerse the clock in water. Keep the charging port free of dust and debris.

Battery Care

The clock is equipped with a built-in 900mAh polymer lithium battery. For optimal battery life, avoid fully discharging the battery frequently. Recharge the clock when the charging indicator blinks, signaling low battery.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Display is off or not visible.	Power saving mode is active.	Make a sound or gently shake the clock to activate the display.
Alarm does not sound.	Alarm not set or volume too low.	Ensure the alarm is set correctly and the alarm icon is visible. Check if there's a volume setting (if applicable, though not specified for this model).
Snooze function not working.	Clock not shaken correctly or too gently.	Ensure a clear, gentle shake is applied when the alarm is sounding.
Clock not charging.	Cable or power adapter issue; charging port obstructed.	Check the USB cable and power adapter. Ensure the charging port is clean and free of debris.
Incorrect temperature reading.	Environmental factors.	Ensure the clock is placed in a stable environment away from direct heat sources or drafts.

SPECIFICATIONS

Feature	Detail
Type	Cloud Alarm Clock
Brand	Ciglow
Model Number	Ciglow0718pm9ik3-01
Material	ABS, PC (Acrylonitrile Butadiene Styrene)
Input Voltage	DC5V / 1A
Power Source	Built-in 900mAh polymer lithium battery
Item Weight	173g (approx. 6 ounces)
