## WHAT'S INCLUDED

---

Your Logitech G PRO Gaming Headset package contains the following components:

- PRO Gaming Wired Headset
- Memory foam synthetic leather ear pads
- USB External sound card (DAC)
- Detachable mic
- 2m cable with inline volume and mute
- Y splitter for separate mic/headphone ports
- User documentation

## SETUP

### Connecting to PC

1. Connect the USB External Sound Card (DAC) to an available USB port on your PC.
2. Plug the 3.5mm cable from the headset into the USB DAC.
3. Attach the detachable microphone to the headset.
4. For optimal performance and customization, download and install the Logitech G HUB software from the official Logitech website. This software allows you to save EQ settings to the onboard memory of the USB DAC.

### Connecting to PS5/PS4

1. Connect the 3.5mm cable from the headset directly to the controller's 3.5mm audio jack.
2. Attach the detachable microphone to the headset.
3. Alternatively, you may use the USB DAC by connecting it to a USB port on the console and then connecting the

headset to the DAC.

## OPERATING THE HEADSET

---

### Audio Performance

The headset features advanced PRO-G 50mm drivers designed to deliver clear, precise sound imaging with improved bass response. This allows for accurate positional audio in games, giving you a competitive advantage.

## Microphone Usage

The 6mm boom mic element provides a wider frequency response, lower signal-to-noise ratio, and higher sensitivity for crystal-clear communication. It includes an integrated pop and wind screen to reduce unwanted background noise. The microphone is detachable for convenience when not needed.

# MICROFONE PROFISSIONAL

A close-up, high-contrast photograph of a black Logitech G PRO Gaming Headset. The focus is on the professional-grade detachable microphone, which has a flexible boom and a foam-covered capsule. The headset's ear cup and the textured surface of the microphone boom are visible. The background is dark, making the metallic and fabric textures of the headset stand out.

## **Inline Controls**

The 2-meter cable includes inline controls for convenient volume adjustment and microphone muting, allowing for quick audio management during gameplay.

## **Customization with G HUB Software**

Utilize the Logitech G HUB software (PC only) to access pro-designed EQ profiles or create your own 5-band EQ settings. These settings can be saved to the USB DAC's onboard memory for use on different systems, including tournament setups, ensuring consistent audio performance.

Image: A visual representation of the professional EQ adjustment interface, demonstrating how audio profiles can be tuned by esports athletes.

## Comfort and Durability

The headset is built with a durable aluminum fork and steel headband, designed to withstand rigorous use. Soft memory foam earpads with passive noise-canceling leatherette provide supreme comfort for extended gaming sessions.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid abrasive cleaners or solvents, which can damage the materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures to prolong its lifespan.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent internal wire damage.
- **Earpads:** The memory foam earpads are designed for durability, but can be replaced if necessary for continued comfort and hygiene.

## TROUBLESHOOTING

---

### No Audio or Low Volume

- Ensure the headset's 3.5mm cable is fully inserted into the USB DAC or controller.
- Check the inline volume control on the cable and ensure it is not at minimum or muted.
- Verify that the correct audio output device is selected in your computer's sound settings (e.g., "Logitech G PRO Gaming Headset" or "USB Audio Device").
- If using G HUB, check the volume and EQ settings within the software.

Microphone Not Working

- Ensure the detachable microphone is securely attached to the headset.
- Check the inline mute switch on the cable to ensure the microphone is not muted.
- Verify that the correct microphone input device is selected in your computer's sound settings or communication application.
- If using G HUB, check microphone settings and ensure the microphone is enabled.

Discomfort During Use

- Adjust the headband for a comfortable fit that does not exert excessive pressure.
- Allow for a break-in period for the memory foam earpads to conform to your head shape.
- Ensure the headset is positioned correctly over your ears, covering them fully.
