TAKAGI TAKAGI-001

TAKAGI MFi Certified Lightning Cable User Manual

Model: TAKAGI-001 (3-Pack, 6FT Nylon Braided)

INTRODUCTION

Thank you for choosing the TAKAGI MFi Certified Lightning Cable. This 3-pack of 6-foot nylon braided cables is designed for reliable charging and high-speed data transfer for your compatible Apple devices. Featuring a durable construction with anti-resistant aluminum alloy connectors and a tangle-free braided jacket, these cables ensure stable performance and extended service life.

Image: A set of three TAKAGI MFi Certified Lightning cables, each featuring a silver-colored Lightning connector, a silver-colored USB-A connector, and a durable white and grey braided nylon cable.

SETUP

1. **Connect to Device:** Insert the Lightning connector end of the cable into the charging port of your compatible iPhone, iPad, or iPod.
2. **Connect to Power Source:** Insert the USB-A connector end of the cable into a compatible USB wall adapter, car charger, power bank, or computer USB port.
3. **Verify Connection:** Your device should indicate that it is charging or connected for data transfer.

Image: A smartphone screen displaying a charging icon, connected via a TAKAGI Lightning cable. Icons above indicate 2.1 Amp charging, 480 Mbps data transfer, and fast charge capability. The image also highlights compatibility with iPod, iPhone, iPad, and iOS 17/18.

OPERATING INSTRUCTIONS

Charging Your Device

Connect the Lightning cable to your Apple device and a USB power source. The cable supports up to 2.1 Amps of current, enabling efficient charging. Ensure your power adapter is also capable of delivering sufficient power for optimal charging speeds.

Data Transfer

When connected to a computer, the TAKAGI Lightning cable facilitates data synchronization at speeds up to 480 Mbps. This allows for quick transfer of photos, music, videos, and other files between your device and computer.

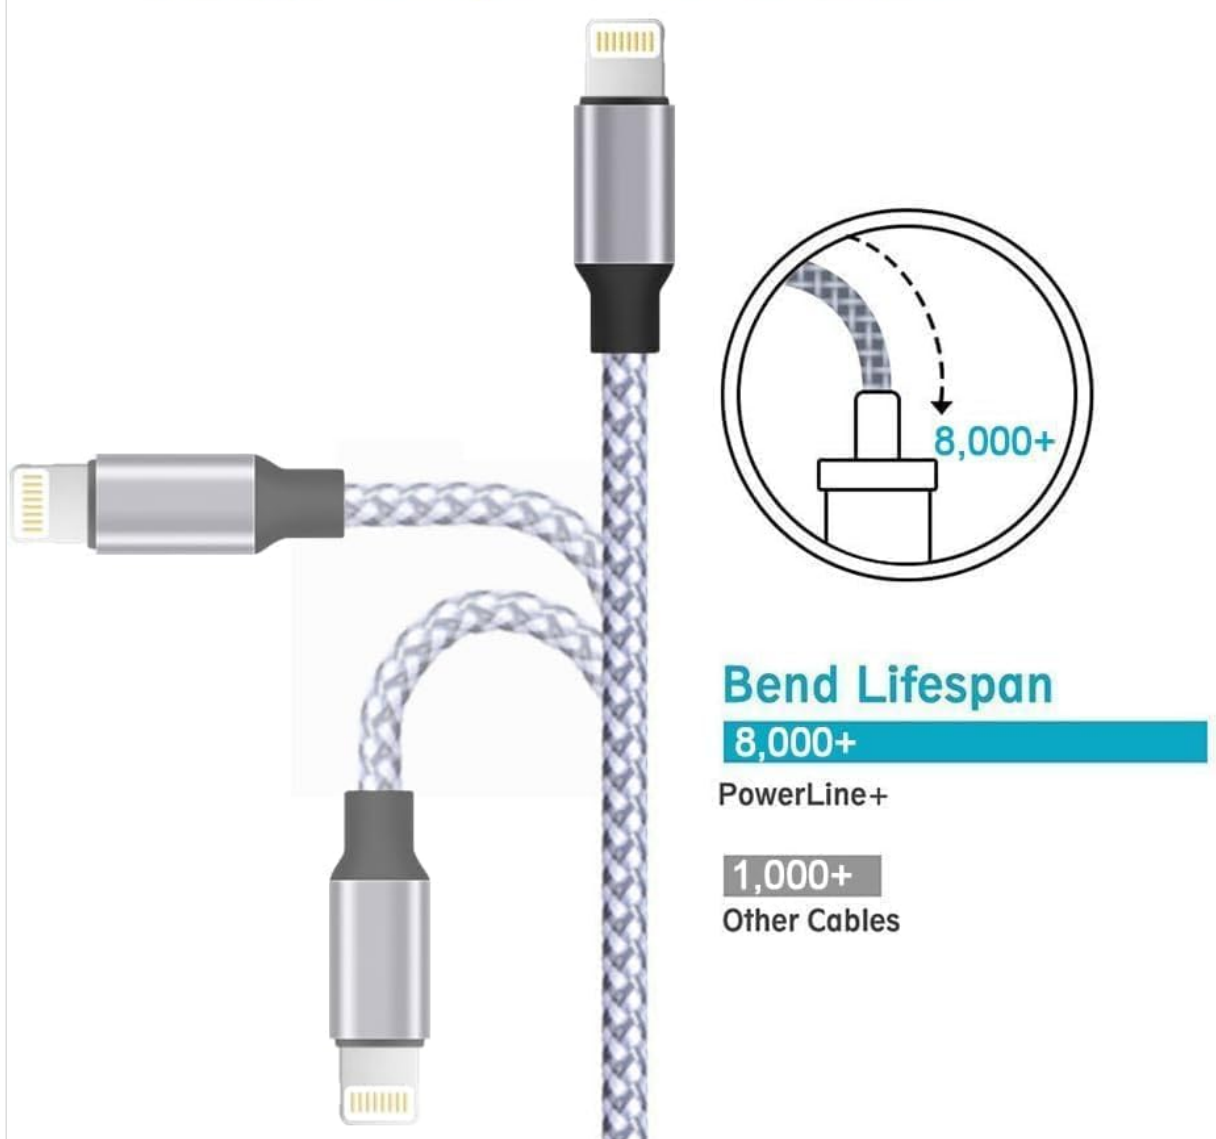

MAINTENANCE

- **Storage:** Store cables neatly to prevent tangling. Avoid tightly coiling or bending the cable at sharp angles, especially near the connectors.
- **Cleaning:** Use a soft, dry cloth to gently wipe the cable and connectors. Do not use liquid cleaners or abrasive materials.

- **Handling:** Always grasp the connector head when plugging or unplugging the cable, rather than pulling on the cable itself, to prevent internal damage.

RELIABLE QUALITY

Capability of Passing 8000+ Times Bending Test

Bend Lifespan

8,000+	PowerLine+
1,000+	Other Cables

Image: A graphic demonstrating the durability of the TAKAGI cable, highlighting its bend lifespan of over 8,000 bends, significantly higher than typical cables.

QUALITY MATERIALS ANTI-STRETCHING

More Durable With Premium Nylon Fabric

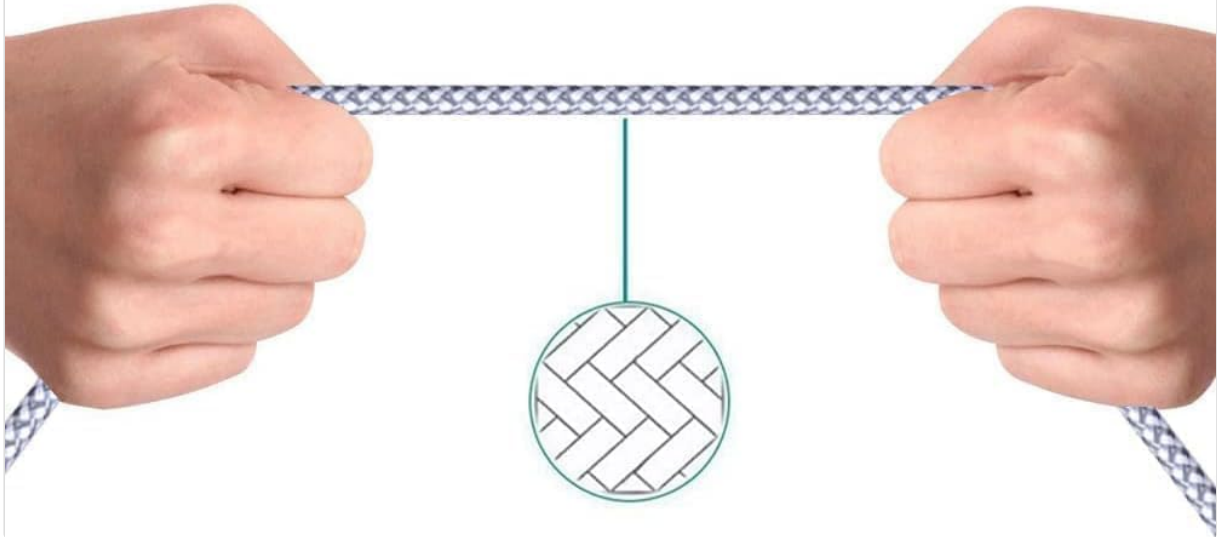

Image: Two hands gently pulling on a TAKAGI nylon braided cable, demonstrating its anti-stretching properties and durable construction.

TANGLE FREE

Flexible Braided Nylon Shielding Jacket Prevents Knotting

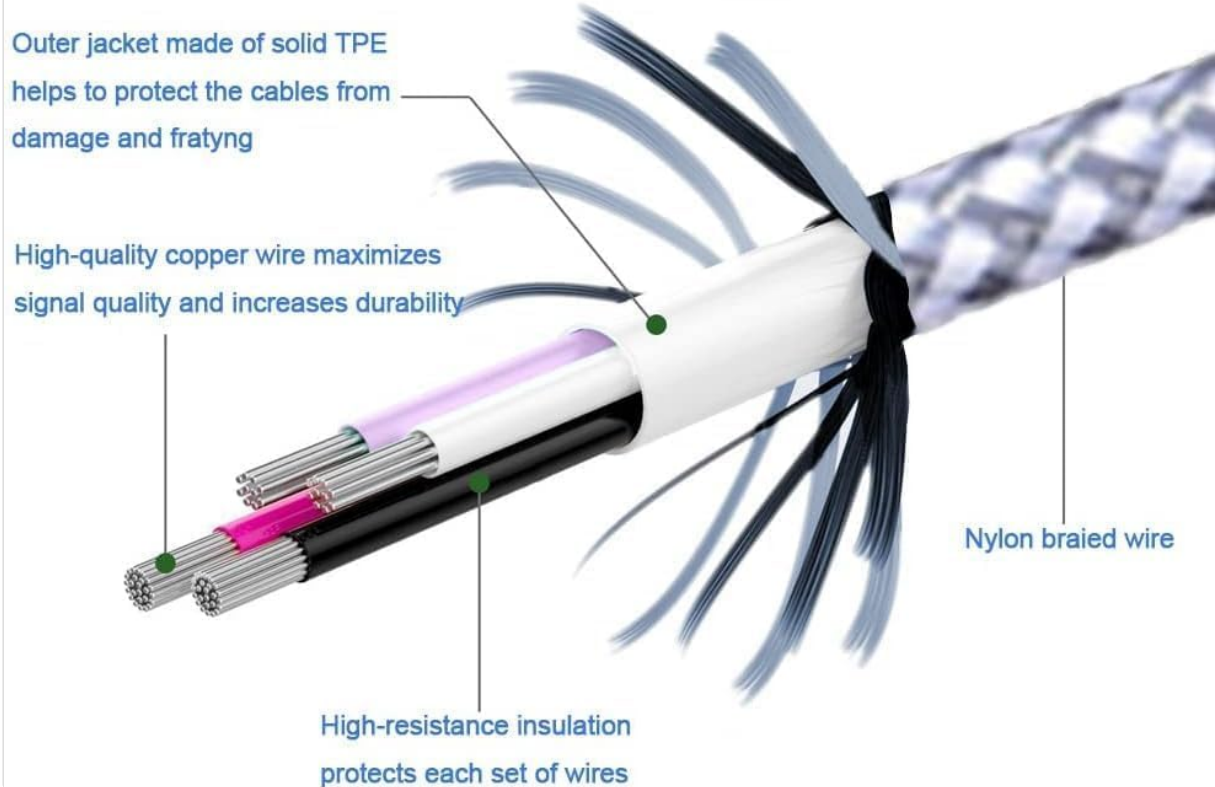

Image: A detailed cross-section diagram of the cable, illustrating its multi-layered construction including the outer nylon braided wire, solid TPE jacket, high-quality copper wire, and high-resistance insulation, all contributing to its tangle-free and durable design.

TROUBLESHOOTING

• Device Not Charging/Syncing:

- Ensure both the Lightning and USB-A connectors are fully inserted into their respective ports.
- Try connecting the cable to a different USB port or power adapter.
- Verify that your device is compatible with Lightning cables.

• Slow Charging:

- Confirm that your USB power adapter provides adequate output (e.g., 2.1A or higher for faster charging).
- Check if the cable or connectors show any signs of damage.

• "Accessory Not Supported" Message:

- This cable is MFi certified. If you encounter this message, try unplugging and re-plugging the cable.
- Ensure your device's software is up to date.
- Inspect the Lightning connector for any debris or damage.

Image: A visual comparison. On the left, an iPhone is shown successfully charging with a TAKAGI Lightning cable. On the right, an iPhone displays an 'accessory not supported' error message, indicating an issue with an uncertified or faulty cable.

SPECIFICATIONS

Brand	TAKAGI
Model Name	Braided cable (TAKAGI-001)
Connector Type	Lightning, USB Type A
Cable Type	Lightning, Nylon Braided
Cable Length	6 Feet (approx. 1.8 meters)

Outer Material	Nylon
Data Transfer Rate	Up to 480 Mbps
AC Adapter Current	Up to 2.1 Amps
Number of Pins	8 (Lightning)
Unit Count	3.0 Count
Special Feature	MFi Certified, Fast Charging, High Speed, Braided, Tangle-Free
Compatible Devices	iPhone 14, 14 Plus, 14 Pro, 14 Pro Max, 13, 13 Mini, 13 Pro, 13 Pro Max, 12, 12 Mini, 12 Pro, 12 Pro Max, SE 2020, 11, 11 Pro, 11 Pro Max, X, XR, XS, XS Max, 8, 8 Plus, 7, 7 Plus, 6, 6 Plus, 6s, 6s Plus, 5S, 5C, 5; iPad Pro, iPad Air, Air 2, iPad mini, mini 2, mini 4, iPad 4th gen; iPod Touch 5th gen, iPod nano 7th gen, Beats Pill+

COMPATIBILITY

iPhone 14 Pro Max / iPhone 14 Pro / iPhone 14 Plus / iPhone 14
iPhone 13 Pro Max / iPhone 13 Pro / iPhone 13 / iPhone 13 Mini
iPhone 12 Pro Max / iPhone 12 Pro / iPhone 12 / iPhone 12 Mini
iPhone 11 Pro Max / iPhone 11 Pro / iPhone 11 / iPhone SE
iPhone XS Max / iPhone XS / iPhone XR / iPhone X
iPhone 7 Plus / iPhone 7 / iPhone 6S Plus / iPhone 6S
iPhone 6 Plus / iPhone 6 / iPhone 5S
iPad 5 / iPad 6 / iPad 7 / iPad 8 / iPad 9
iPad Pro / Pro 2 / Pro 3 / Pro 4 / Pro 5
iPad Mini / Mini 2 / Mini 3 / Mini 4 / Mini 5
iPad Air / Pro 2 / Pro 3 / Pro 4
