Master Lock 875D

Master Lock 875D Heavy Duty Outdoor Combination Lock

INSTRUCTION MANUAL

Introduction

This manual provides comprehensive instructions for the Master Lock 875D Heavy Duty Outdoor Combination Lock. Designed for strength and reliability, this padlock features a 2-inch (51mm) wide zinc body and a 5/16-inch (8mm) diameter hardened steel shackle, offering enhanced resistance against cutting and sawing. The roller pin mechanism provides maximum protection, and the shackle seal ensures superior weather protection for outdoor use. This lock offers the convenience of setting your own 4-digit combination without the need for a reset tool.

Key Features

- **Heavy Duty Construction:** 2-inch (51mm) wide zinc body for strength and reliability.
- **Hardened Steel Shackle:** 5/16-inch (8mm) diameter shackle, 1-inch (25mm) long, for better cut resistance.
- **Weather Resistance:** Sealed shackle provides superior protection against outdoor elements.
- **Set Your Own Combination:** 4-digit resettable combination for personalized security without a key.
- **Enhanced Security:** Roller pin mechanism offers maximum protection against attacks.
- **Versatile Use:** Ideal for gates, sheds, storage units, and other outdoor applications.

Setup: Setting and Resetting Your Combination

The Master Lock 875D comes preset to open at **0-0-0-0**. Follow these steps to set your personalized 4-digit combination:

1. **Open the Lock:** With the factory preset combination (0-0-0-0) or your current combination, pull up the shackle to open the lock.
2. **Rotate Shackle (First Turn):** Turn the shackle 90 degrees counter-clockwise to position I.
3. **Depress Shackle:** Push the shackle down into the lock body until it clicks.
4. **Rotate Shackle (Second Turn):** While the shackle is depressed, turn it another 90 degrees counter-clockwise to position II (180 degrees from the original open position).
5. **Set New Combination:** With the shackle in position II and depressed, rotate the dials to your desired 4-digit combination. Ensure the numbers are aligned with the indicator line.
6. **Return Shackle:** Pull the shackle up, then turn it back 180 degrees clockwise to its original open position.
7. **Lock the Shackle:** Push the shackle down to lock it. Your new combination is now set. Scramble the dials to secure the lock.

Operating the Lock

To open the Master Lock 875D, align the four dials to your set combination. Once the correct combination is entered, pull up on the shackle. To close and secure the lock, push the shackle down firmly until it clicks into place, then scramble the dials to prevent unauthorized access.

Set Your Own Combination

**4 digit dialing allows for thousands
of possible numeric combinations**

Maintenance

To ensure the longevity and smooth operation of your Master Lock 875D, especially in outdoor environments, consider the following maintenance tips:

- **Regular Cleaning:** Periodically wipe down the lock body and shackle with a damp cloth to remove dirt, dust, and debris.
- **Lubrication:** For optimal performance, particularly in harsh weather conditions, apply a small amount of silicone-based lubricant to the shackle and the combination dials once or twice a year. Avoid oil-based lubricants as they can attract dirt.
- **Inspect for Wear:** Regularly check the shackle and lock body for any signs of damage or excessive wear.

Troubleshooting

- **Dials are Stiff:** If the combination dials are difficult to turn, apply a silicone-based lubricant as described in the Maintenance section. Ensure no debris is lodged between the dials.
- **Shackle Not Opening/Closing:** Verify that the correct 4-digit combination is precisely aligned with the indicator line. If the combination is correct and the shackle still does not operate, ensure the shackle is fully pulled up or pushed down during the combination setting process.
- **Forgotten Combination:** The Master Lock 875D is a set-your-own combination lock. There is no master key or override code to retrieve a forgotten combination. It is crucial to record your combination in a secure, memorable location.

Specifications

Brand	Master Lock
Model Name	Heavy Duty Outdoor Combination Lock
