DICKIE TOYS Construction Playset Instruction Manual

Model: 203729010

IMPORTANT SAFETY INFORMATION

WARNING: CHOKING HAZARD – Small parts. Not suitable for children under 3 years.

Please read all instructions carefully before assembly and use. Keep this manual for future reference. Adult supervision is recommended during play.

WHAT'S IN THE BOX

Carefully unpack all components and ensure all items are present before beginning assembly. The package should contain:

- 1 play base with spiral ramp
- 1 crane
- 4 die-cast cars
- 1 wrecking ball
- 1 manual car lift
- 1 rotary platform
- 1 conveyor belt

Image: Overview of the playset components and packaging.

SETUP AND ASSEMBLY

Follow these steps to assemble your DICKIE TOYS Construction Playset:

1. **Prepare the Play Base:** Lay out the printed play base on a flat, stable surface. This forms the foundation of your construction site.
2. **Assemble Main Structures:** Connect the various structural pieces to form the multi-level construction site. Ensure all connections are secure. Refer to the diagrams in the included assembly guide for specific connection points.
3. **Install the Spiral Ramp:** Attach the spiral ramp sections to the designated areas, allowing vehicles to descend smoothly.
4. **Mount the Crane:** Secure the crane to its central tower. Ensure the crane arm can rotate freely and the string mechanism for the wrecking ball operates without obstruction.
5. **Attach the Manual Car Lift:** Position and attach the manual car lift mechanism. Test its operation to ensure it moves cars between levels.
6. **Place the Rotary Platform and Conveyor:** Integrate the rotary platform and conveyor belt into their respective positions on the playset.
7. **Battery Installation (for Light and Sound):** Locate the battery compartment, typically on the main tower or crane. Insert the required batteries (included) according to the polarity markings. Close the compartment securely.

OPERATING INSTRUCTIONS

This playset offers various interactive features for an engaging play experience:

1. Spiral Ramp

Place one of the die-cast cars at the top of the spiral ramp. Release the car to watch it descend rapidly to the lower levels of the construction site.

Image: A yellow die-cast bulldozer toy car moving down the yellow spiral ramp.

2. Crane and Wrecking Ball

Use the crane to lift and move objects around the playset. The crane arm can be rotated 360 degrees. Attach the wrecking ball to the crane hook for demolition tasks. Operate the winch to raise and lower the wrecking ball.

Image: A detailed view of the yellow crane with its arm extended, holding a black wrecking ball.

Image: The wrecking ball swinging towards a structure on the playset, demonstrating its action.

3. Manual Car Lift

Position a die-cast car onto the platform of the manual car lift. Use the crank or lever to raise or lower the car to different levels of the playset.

Image: A close-up of the manual car lift mechanism, showing a red platform being raised or lowered.

4. Rotary Platform

Place a vehicle on the rotary platform. Manually rotate the platform to change the direction of the vehicle or to position it for other activities on the playset.

5. Conveyor Belt

Utilize the conveyor belt to transport small items or vehicles across a section of the playset. Operate the mechanism to move the belt.

6. Light and Sound Effects

Press the designated buttons on the playset to activate realistic construction site light and sound effects, enhancing the play experience.

MAINTENANCE

Proper maintenance ensures the longevity of your playset:

- **Cleaning:** Wipe the playset surfaces with a soft, damp cloth. Do not immerse electronic components in water. Avoid harsh chemicals or abrasive cleaners.
- **Battery Replacement:** When light and sound effects diminish or stop working, replace the batteries.

Refer to the battery compartment for the correct battery type and polarity. Always use new batteries of the same type.

- **Storage:** Store the playset in a clean, dry place away from direct sunlight and extreme temperatures when not in use.

TROUBLESHOOTING

If you encounter issues with your playset, refer to the following common solutions:

- **Lights/Sound Not Working:**
 - Check if batteries are installed correctly with the correct polarity.
 - Replace old batteries with new ones.
 - Ensure the battery compartment is securely closed.
- **Moving Parts (Crane, Lift, Ramp) Not Functioning Smoothly:**
 - Inspect for any obstructions or debris caught in the mechanisms.
 - Verify that all parts are correctly assembled and securely connected.
 - Ensure no excessive force is being applied, which could cause damage.
- **Parts Breaking or Becoming Loose:**
 - This playset contains small parts and intricate connections. Handle with care during play and assembly.
 - If a part breaks, assess if it can be safely reattached or if a replacement is needed. Discontinue use if a broken part poses a safety hazard.

SPECIFICATIONS

Item Weight	7 pounds
ASIN	B07PJV2ZD5
Item Model Number	203729010
Manufacturer Recommended Age	36 months - 15 years
Release Date	July 27, 2020
Manufacturer	Dickie Toys
