DreamLine DL-533442-22-01

DreamLine Lumen Hinged Shower Door and SlimLine Base Kit Instruction Manual

MODEL: DL-533442-22-01

Brand: DreamLine

1. Product Overview

This manual provides instructions for the DreamLine Lumen semi-framed hinged shower door and SlimLine shower base kit, Model DL-533442-22-01. This kit offers a functional and stylish solution for your shower space, featuring a modern design with integrated hinges and a durable acrylic base.

2. Setup and Installation

The DreamLine Lumen shower door is constructed from 1/4 inch (6mm) thick certified clear tempered glass with anodized aluminum wall profiles. The unique wall profiles with integrated hinges allow for 1 inch of total adjustment for width or out-of-plumb (uneven walls). The door is reversible for either a left or right door opening to fit your specific layout.

Important: It is crucial to measure your shower space only after your walls are finished with tile or any other materials. Use only finished opening measurements when selecting and installing your shower door. Professional installation is recommended for optimal results.

The SlimLine shower base features a glossy acrylic finish that is scratch, slip, and stain resistant. It is reinforced with fiberglass for enhanced durability. The drain opening fits any standard 2-inch compression fitted drain (drain not included). Direct-to-stud installation is required.

Base Structural Support

Structural support is consistent for all DreamLine shower bases. Installation into a bed of mortar is required.

3. Operation

The Lumen shower door features an ergonomically designed double-sided handle for easy opening and closing. A full-length magnetic door latch is built into each door, ensuring a watertight seal when the door is closed.

4. Maintenance and Care

To maintain the appearance and functionality of your DreamLine Lumen shower door and SlimLine base, follow these guidelines:

- **Glass Cleaning:** Use a soft cloth or sponge with a non-abrasive glass cleaner. Avoid harsh chemicals, abrasive pads, or scouring powders, as these can damage the glass surface or protective coatings.
- **Hardware Cleaning:** Clean chrome or other finish hardware with a soft, damp cloth. Do not use abrasive cleaners or solvents, which can strip the finish.
- **Shower Base Cleaning:** The acrylic surface of the SlimLine base is designed to be scratch, slip, and stain resistant. Clean regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could dull the finish.
- **Seals:** Periodically inspect the magnetic door latch and other seals for wear and tear. Replace if necessary to maintain a watertight enclosure.

5. Troubleshooting

If you encounter issues with your DreamLine Lumen shower door and SlimLine base, consider the following common solutions:

- **Water Leakage:**
 - Check that all seals (magnetic strip, bottom sweep) are properly installed and free of debris.
 - Ensure the shower door is closing completely and the magnetic latch is engaging.
 - Verify that the wall profiles are securely fastened and sealed with silicone as per installation

instructions.

- **Door Not Closing Properly:**

- Inspect the hinges for any obstructions or damage.
- Check the alignment of the door. The 1-inch adjustment feature can help correct minor out-of-plumb issues.
- Ensure the magnetic strip on the door and wall profile are clean and free from residue.

- **Squeaking Hinges:**

- Apply a small amount of silicone-based lubricant to the hinge pins. Avoid oil-based lubricants.

For persistent issues or concerns not addressed here, please contact DreamLine customer support.

6. Specifications

Feature	Detail
