Intex 28271NP

Intex Rectangular Frame Swimming Pool User Manual

Model: 28271NP

1. PRODUCT OVERVIEW

This manual provides essential information for the safe and efficient use of your Intex Rectangular Frame Swimming Pool. Please read all instructions carefully before setup and operation.

Image 1.1: The Intex Rectangular Frame Swimming Pool, model 28271NP, shown filled with water. This image displays the blue liner and the white metal frame structure supporting the pool.

The Intex Rectangular Frame Pool is designed for outdoor recreational use, offering a sturdy and durable solution for cooling down during warm weather. Its robust construction ensures stability and longevity.

2. SAFETY INFORMATION

WARNING: Failure to follow these instructions can result in serious injury or death.

- Not suitable for children under 6 years of age. Adult supervision is required at all times when children are in or near the pool.
- Do not dive or jump into the pool. The water depth is not sufficient for diving.

- Ensure the pool is set up on a level, stable surface to prevent collapse.
- Keep all electrical devices away from the pool.
- Do not sit, stand, or climb on the pool frame.
- Empty the pool completely when not in use for extended periods or during cold weather to prevent damage.

3. PACKAGE CONTENTS

Verify that all components listed below are present in your package:

- Rectangular Frame Pool Liner (Puncture resistant 3-ply material)
- Steel Frame Components (Galvanised and powder-coated)
- Connectors and Pins
- Instruction Manual

4. SETUP INSTRUCTIONS

Follow these steps for quick and easy assembly:

1. **Site Preparation:** Choose a firm, level area in your garden, free from sharp objects, debris, or excessive slopes. A slight incline can cause the pool to deform or collapse.
2. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on the prepared site.
3. **Assemble Frame:** Connect the steel frame components according to the diagrams provided in the separate

assembly guide (if included) or by matching numbered parts. Ensure all pins and connectors are securely fastened.

4. **Attach Liner:** Once the frame is assembled, carefully spread the pool liner inside the frame, ensuring it is centered and smooth.
5. **Fill with Water:** Begin filling the pool with water. As the water level rises, gently smooth out any wrinkles in the liner from the center outwards. Fill to approximately 90% capacity (2,282 litres).

Image 4.1: The Intex Rectangular Frame Swimming Pool shown empty, highlighting its sturdy metal frame structure before or during the filling process. This view emphasizes the robust design.

5. OPERATING THE POOL

Once set up, your Intex pool is ready for use. Consider the following for optimal enjoyment:

- **Water Quality:** Regularly test and treat pool water to maintain proper chemical balance and hygiene. Consult a pool supply professional for recommended products and procedures.
- **Filtration (Optional):** While this model does not include a filter pump, installing an external filtration system is highly recommended to keep the water clean and clear.
- **Supervision:** Always ensure adult supervision, especially when children are using the pool.

Image 5.1: Two individuals, an adult and a child, enjoying the Intex Rectangular Frame Swimming Pool in a backyard setting. This illustrates the typical use of the pool for recreation.

6. MAINTENANCE AND STORAGE

Proper maintenance extends the life of your pool:

- **Cleaning:** Regularly remove debris from the water surface and bottom using a pool net or vacuum. Wipe down the pool liner and frame as needed.
- **Water Treatment:** Maintain appropriate chlorine levels and pH balance to prevent algae growth and ensure water safety.
- **Winterization/Storage:** Before cold weather, completely drain the pool. Clean and dry all components thoroughly. Disassemble the frame and fold the liner carefully to prevent creases and damage. Store all parts in a dry, protected area, away from extreme temperatures and pests.
- **Puncture Repair:** The 3-ply material is puncture-resistant, but in case of a small hole, use a vinyl repair kit (sold separately) to patch it.

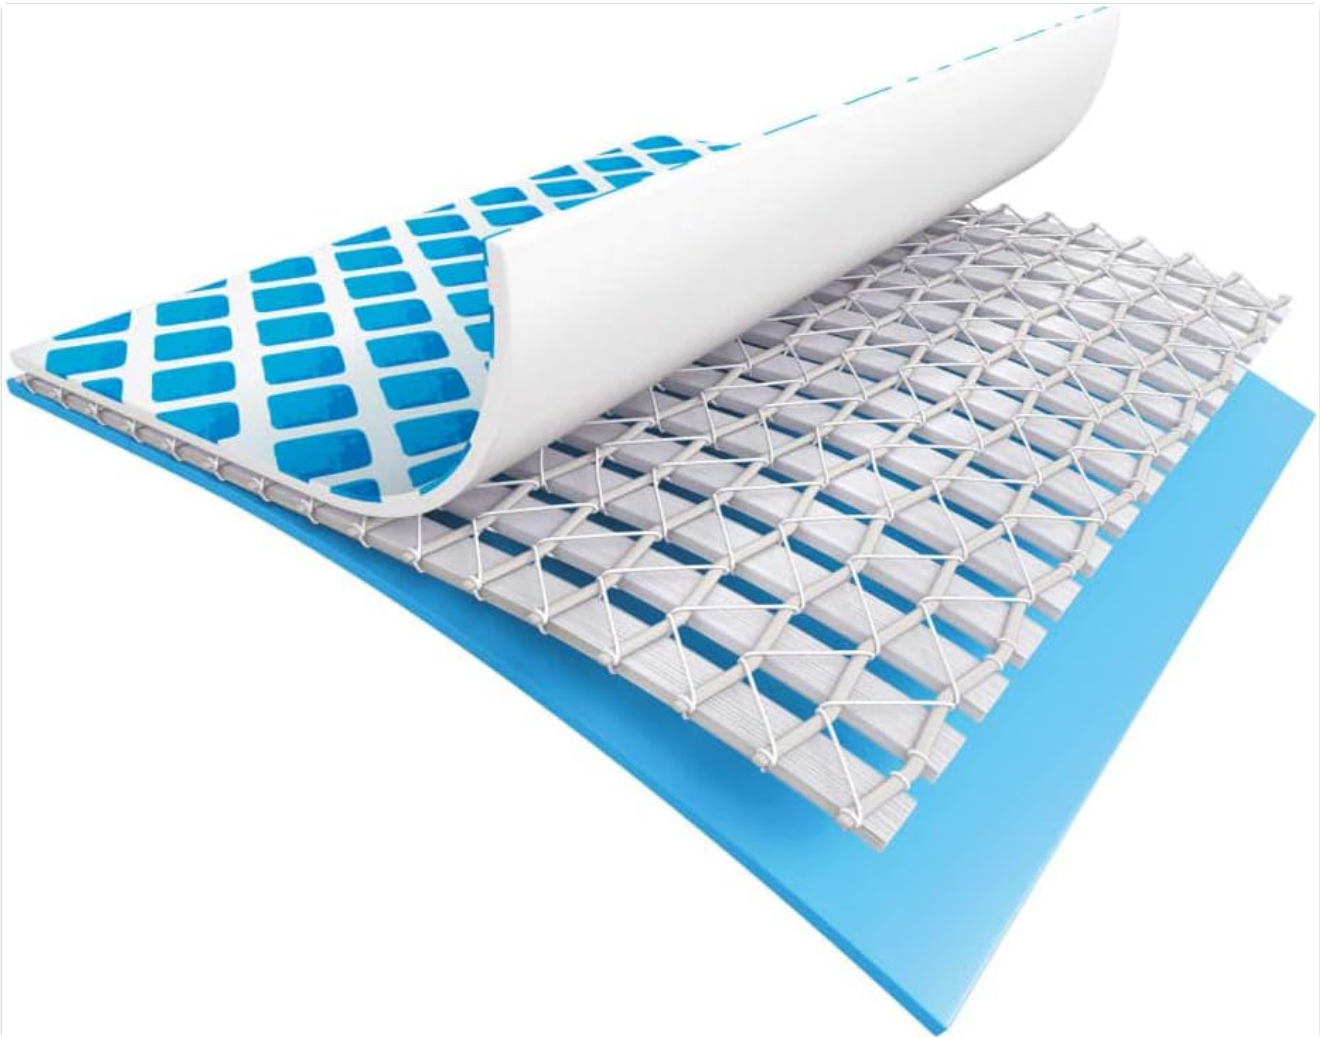

Image 6.1: A cross-section diagram illustrating the robust 3-ply material used for the pool liner. This image shows the layered construction designed for extra strength and durability.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Pool leaning or unstable	Uneven ground; improper frame assembly	Drain pool, relocate to a level surface, reassemble frame ensuring all connections are secure.
Water cloudy or green	Poor water chemistry; lack of filtration; algae growth	Test water and adjust chemicals (chlorine, pH). Consider adding a filtration system. Shock treat the water if algae is present.
Small leak in liner	Puncture or tear	Locate the leak and use a vinyl repair kit to patch it.

8. SPECIFICATIONS

- **Model:** 28271NP (Manufacturer Model: 91482)
- **Dimensions (L x W x H):** 260 x 160 x 65 cm
- **Capacity (90% fill level):** 2,282 litres
- **Material:** Puncture resistant 3-ply PVC liner, Galvanised and powder-coated steel frame
- **Color:** Blue
- **Assembly Time:** Approximately 30 minutes (for filling)

9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your purchase or contact the retailer where the product was acquired. Keep your proof of purchase for any warranty claims.
