K&H Pet Products Self-Warming Cat Bed Pad Instruction Manual

Model: 100539729

INTRODUCTION

The K&H Pet Products Self-Warming Cat Bed Pad is designed to provide warmth and comfort for your pet without the need for electricity. This pad utilizes your pet's own body heat, reflecting it back to create a cozy resting spot. It is suitable for cats and small dogs and can be used in various indoor settings or within outdoor pet shelters.

SETUP AND PLACEMENT

The K&H Self-Warming Cat Bed Pad requires no assembly. Simply place the pad in your desired location. Its versatile

design allows for placement on furniture, inside pet beds, in crates, or within outdoor cat houses. Ensure the pad is placed on a flat, stable surface.

PERFECT WARMING PLACES

- ON A CAT PERCH
- ON THE COUCH
- ON A BED
- ON A PLANE
- IN THE CAR
- IN A HOTEL
- IN THE GARAGE
- IN A CAT HOUSE
- IN THE BARN

OPERATING PRINCIPLES

This self-warming pad functions by capturing and reflecting your pet's natural body heat. It contains unique materials that act as insulation to trap heat and then radiate it back to your pet, providing a warm and comfortable surface. No external power source or electricity is required for its operation.

SELF-WARMING

1

Works as insulation
to capture heat

2

Reflects the heat
back to your pet

NO electricity required

Image: Diagram explaining the self-warming technology.

The pad features soft microfleece on one side and a reversible design, allowing you to choose between oatmeal and chocolate colors. Some pets may notice a slight crinkle sound when using the pad, which is a characteristic of the internal warming material. While many cats find this appealing, it may not be suitable for noise-sensitive pets.

UNIQUE MATERIALS

To help trap heat and ensure a nice warm, cozy place for napping.

MAINTENANCE AND CARE

The K&H Self-Warming Cat Bed Pad is machine washable for easy cleaning. Follow these instructions:

- Machine wash separately.
 - Use mild detergents; do not use bleach.
 - Wash in cold water on a gentle cycle.
 - Air or line dry, or tumble dry on the lowest heat setting.
-

EASY CLEAN

Machine Wash for Easy Care!

- MACHINE WASH SEPARATELY
- MILD DETERGENT, NO BLEACH
- COLD WATER, GENTLE CYCLE
- AIR DRY OR DRY ON LOW HEAT

TROUBLESHOOTING

Crinkle Sound

The self-warming material within the pad may produce a slight crinkle sound when compressed. This is normal and indicates the internal reflective layer is functioning. If your pet is sensitive to noise, consider placing the pad in a quieter area or introducing it gradually.
