HIBAG 12-Travel

HIBAG Travel Compression Bags (12-Pack) Instruction Manual

Brand: HIBAG | **Model:** 12-Travel

Product Overview

The HIBAG Travel Compression Bags offer an efficient solution for organizing and maximizing space in your luggage or at home. This combo includes 12 bags (6 medium size and 6 large size), designed to save up to 80% of space without the need for a vacuum pump.

These bags are constructed from durable PA+PE material, ensuring long-term storage and protection for your items. The unique dual-zipper design features separated yellow and blue lines, providing a clear visual indicator for a complete and secure seal.

Package Contents

- 6 x Medium Size Compression Bags (15.7" x 19.7")
- 6 x Large Size Compression Bags (17.7" x 23.6")

How to Use (Step-by-Step)

Follow these simple steps to effectively compress your items using HIBAG Travel Compression Bags:

1. **Open:** Spread the compression storage bag out on a flat surface and fully open the dual zippers.
2. **Pack:** Fill the bag with your dry items. Ensure you do not overfill beyond the indicated maximum fill line.
3. **Seal:** Use the provided clip to slide the zipper back and forth several times, ensuring the dual zippers are completely closed and sealed. The yellow and blue lines should merge into a single green line.
4. **Roll:** Starting from the sealed zipper end, slowly roll the bag towards the opposite end. This action will push the air out through the one-way air vents at the bottom of the bag, compressing your items tightly.

Video: A short demonstration showing the manual rolling process to compress items within the HIBAG, effectively expelling air without a pump.

Key Features

- **No Vacuum Needed:** Achieve significant space reduction by simply rolling the bags.
- **Dual-Zipper Design:** Features distinct yellow and blue lines that merge to indicate a complete seal, preventing air re-entry.
- **Durable Material:** Made from PA+PE for robust and reusable storage.

Care and Maintenance

- Clean bags with a damp cloth and mild soap if necessary.
- Ensure bags are completely dry before storing or reusing.
- Avoid sharp objects that could puncture the bag and compromise the seal.
- Do not store food items or items with sharp edges that could damage the bag.

Troubleshooting

- **Air Re-entering the Bag:** Ensure the dual zipper is completely sealed. Slide the clip back and forth multiple times to confirm the seal. Check for any punctures or tears in the bag.
- **Difficulty Compressing:** Make sure the bag is not overfilled. Items should be dry and folded as flat as possible. Apply firm, even pressure when rolling from the zipper end.

- **Bag is Noisy During Compression:** This is normal for plastic compression bags as air is expelled.

Specifications

Feature	Detail
Brand	HIBAG
Material	Polyethylene (PA+PE)
Color	Clear
Product Dimensions	18"L x 3"W x 24"H (Overall package dimensions)
Special Feature	Lightweight, No Vacuum Needed
