Onforu D100

Onforu 120W LED Flood Light Instruction Manual

Brand: Onforu

Model: D100

1. Introduction

The Onforu 120W LED Flood Light is a high-luminosity outdoor lighting solution designed for various applications such as yards, garages, stadiums, and other expansive outdoor settings. Featuring advanced LED technology, it provides bright, daylight white illumination while being energy-efficient. This manual provides essential information for the safe and effective setup, operation, and maintenance of your flood lights.

Overview of the Onforu 120W LED Flood Light, highlighting its anti-glare lens, IP66 waterproof rating, 6500K daylight white color, and efficient cooling.

2. What's in the Box

Upon opening the package, you will find the following components:

- 2 x Onforu 120W LED Flood Lights

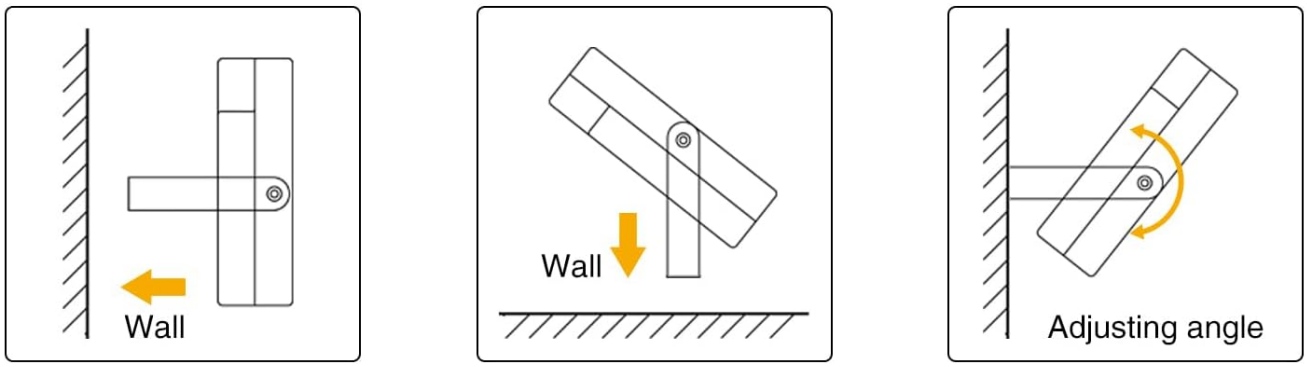

The package includes two Onforu 120W LED Flood Lights, each equipped with a power cord.

3. Product Specifications

Feature	Specification
Brand	Onforu
Model Number	D100
Wattage	120 Watts
Brightness	12000 Lumens
Color Temperature	6500 Kelvin (Daylight White)
Beam Angle	120°
Water Resistance Level	IP66 Waterproof
Material	Aluminum, Tempered glass

Product Dimensions	12.83"L x 8"W x 1.37"H
Item Weight	3.41 Pounds
Average Life	30000 Hours

4. Setup and Installation

The Onforu 120W LED Flood Light is designed for easy "Plug and Play" operation, requiring no complicated wiring. It comes with a standard US three-prong plug.

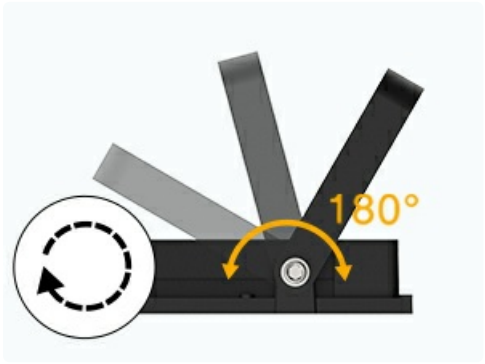

Installation Methods:

- **Wall-mounted installation:** Securely attach the flood light to an exterior wall of a house or building.

- **Mounted on a crossbeam:** The adjustable bracket allows for mounting on horizontal beams.
- **Installed on a work stand:** The flood light can be mounted on a compatible work stand (not included) for portable lighting needs.

5. Operating Instructions

Operating the Onforu 120W LED Flood Light is straightforward due to its plug-and-play design. Simply plug the light into a compatible power outlet (120 Volts) to activate it. The light provides 12000 lumens of pure daylight white light (6500K).

The flood light features a high-quality reflective film and a 120° beam angle, ensuring wide coverage up to 1150 sq ft and effective illumination without harsh shadows. The professional matte lens design helps reduce glare and protect your

eyes.

The flood light illuminates a wide area of up to 1150 sq ft with 12000 lumens and 6500K daylight white light.

6. Maintenance

The Onforu 120W LED Flood Light is built for durability and minimal maintenance. Its die-cast aluminum housing provides IP66 waterproof capabilities, ensuring stable performance in various weather conditions including rain, sleet, and snow.

The fin-type heat sink design on the back of the unit enhances heat dissipation, contributing to the longevity of the LEDs. To maintain optimal performance, periodically clean the lens surface with a soft, damp cloth to remove any accumulated dust or debris. Ensure the power is disconnected before cleaning.

IP66 waterproof design ensures durability in harsh weather.

Fin-type heatsink for efficient heat dissipation.

7. Troubleshooting

If you encounter any issues with your Onforu 120W LED Flood Light, please consider the following basic troubleshooting steps:

- **No Light:** Ensure the power plug is securely inserted into a working 120V outlet. Check the circuit breaker if necessary.
- **Dim Light:** Verify that the light is not obstructed by any objects. Ensure the lens is clean.
- **Flickering:** Check for stable power supply. If flickering persists, contact customer support.

For more complex issues or persistent problems, please refer to the support section.

8. Warranty and Support

Onforu is committed to providing high-quality products. While specific warranty details are not provided in this manual, please retain your proof of purchase for any warranty claims.

For technical support, troubleshooting assistance, or warranty inquiries, please contact Onforu customer service. You can find contact information on the official Onforu website or through your purchase platform.
