

EUGAD 0002WL

EUGAD Small Animal Playpen User Manual

Model: 0002WL

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your EUGAD Small Animal Playpen. Designed for guinea pigs, hamsters, dwarf rabbits, adult rabbits, chinchillas, mice, hedgehogs, and other small pets, this DIY enclosure offers a customizable and spacious living environment. Please read this manual thoroughly before assembly and use to ensure proper setup and safety for your pets.

2. SAFETY INFORMATION

- Ensure all connectors are securely fastened to prevent collapse.
- Place the playpen on a flat, stable surface.
- Do not use the playpen outdoors without proper supervision and protection from elements or predators.
- Keep small children away from the assembly area to avoid injury from small parts.
- Regularly inspect the playpen for any damaged parts and replace them if necessary.
- This product is intended for small animals only. Do not use for larger pets that may damage the enclosure or escape.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Metal grid panels (various sizes depending on configuration)
- Multi-angle connectors
- Cable ties (for added stability)
- Wooden mallet (for secure connector fitting)
- Anti-slip pads (for bottom connectors)

4. SETUP AND ASSEMBLY

The EUGAD Small Animal Playpen features a DIY modular design, allowing for various configurations. Follow these steps for basic assembly:

4.1 Preparing the Connectors

Before assembling, attach the anti-slip pads to the bottom of each connector that will be in contact with the floor. This provides stability and protects your flooring. The image illustrates the steps: 1. Peel off the adhesive backing from the anti-slip pad. 2. Align the pad with the circular base of the connector. 3. Press the pad firmly onto the connector. 4. The connector is now ready for use as a base.

4.2 Connecting Panels

Insert the corners of the metal grid panels into the slots of the multi-angle connectors. Ensure the panels are fully seated within the connectors. Use the provided wooden mallet to gently tap the panels into place, ensuring a secure and tight fit. This step is crucial for the stability of the entire structure.

4.3 Securing the Structure

For enhanced stability, especially for larger or multi-level configurations, use the included cable ties. Wrap the cable ties around the connected panels and connectors at various points to reinforce the structure. Tighten them firmly and trim any excess length. This prevents panels from shifting or separating during use.

4.4 Example Configurations

Basic rectangular enclosure.

Playpen in a living space, showing ample room for accessories.

Larger configuration for increased pet activity.

Dimensions and examples of suitable small animals.

The modular design allows you to expand the height, length, and width to integrate with your home space. You can create spacious, multi-story living areas for your pets, making their lives more fun and increasing their activity levels.

5. OPERATING INSTRUCTIONS

Once assembled, the EUGAD Small Animal Playpen provides a secure and customizable space for your pets. No specific "operating" steps are required beyond initial setup.

- **Placement:** Position the playpen in a suitable indoor area, such as a bedroom or living room, away from direct sunlight, drafts, or hazards.

- **Pet Introduction:** Gently introduce your pet to the new enclosure. Provide bedding, food, water, and toys to make them feel comfortable.
- **Customization:** Utilize the DIY nature of the playpen to add ramps, platforms, or separate sections as needed for your pet's enrichment and comfort.

6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and hygiene of your pet's playpen:

- **Daily Cleaning:** Remove any waste, soiled bedding, and uneaten food daily.
- **Weekly Cleaning:** Wipe down the metal grid panels and connectors with a pet-safe cleaner or mild soap and water. Ensure all parts are thoroughly dried before reassembling or allowing pets back in.
- **Inspection:** Periodically check all connectors and panels for signs of wear, damage, or loosening. Tighten connectors with the mallet if necessary, and replace any broken parts.
- **Storage:** If disassembling for storage, clean all components and store them in a dry place to prevent rust or damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Playpen feels unstable or wobbly.	Connectors not fully seated; insufficient cable ties; uneven surface.	Use the wooden mallet to tap all panels firmly into connectors. Add more cable ties for reinforcement. Ensure the playpen is on a flat, level surface.
Panels detach easily.	Connectors are loose or damaged.	Re-secure panels into connectors using the mallet. If connectors are damaged, replace them. Ensure cable ties are used.
Pet attempts to chew on panels/connectors.	Lack of alternative chew toys; pet boredom.	Provide appropriate chew toys for your pet. Ensure adequate enrichment and exercise. Monitor pet behavior.

8. SPECIFICATIONS

Model Number:	0002WL
Dimensions (L x W x H):	142 x 72 x 36 cm (55.9 x 28.3 x 14.2 inches)
Weight:	2.85 kg (6.28 lbs)
Material:	Metal and ABS plastic
Color:	Black
Assembly Required:	Yes
Recommended for:	Guinea pigs, rabbits, hamsters, chinchillas, hedgehogs, mice, kittens, puppies.
Usage:	Indoor use primarily. Can be used outdoors with supervision.
