## Intex 26363EH

# Intex Ultra XTR Frame Rectangular Swimming Pool Set

Model: 26363EH

Brand: Intex

## PRODUCT OVERVIEW

---

The Intex Rectangular Ultra Frame Pool Set is designed for family and friends to enjoy. It features strong, durable steel frames that are powder coated for rust resistance. This set includes a Krystal Clear Sand Filter pump, a ladder, ground cloth, debris cover, and a chemical maintenance kit, providing a comprehensive solution for your backyard pool needs.

The pool has a water capacity of 8,403 gallons (at 90% fill) and is equipped with SUPER-TOUGH laminated PVC sidewalls for enhanced durability. A convenient drain plug allows for easy water drainage away from the pool or house area.

## SETUP AND ASSEMBLY

Assembly of the Intex Ultra XTR Frame Pool is designed to be straightforward, with the pool ready for water in approximately 60 minutes. It is highly recommended to follow the instructional DVD provided with the set for detailed step-by-step guidance.

- Choose a level, stable surface for pool installation.
- Lay out the ground cloth to protect the pool liner.
- Assemble the steel frame components according to the instructions, ensuring all connections are secure.
- Install the pool liner within the assembled frame.
- Connect the Krystal Clear Sand Filter pump system.
- Assemble and place the ladder securely.

## OPERATING THE POOL SYSTEM

---

### Krystal Clear Sand Filter Pump

The included Krystal Clear Sand Filter pump (2,100 gph, 110-120V) is essential for maintaining clear and sparkling pool water. Ensure the pump is properly connected to the pool's inlet and outlet fittings as per the pump's specific instructions.

- Before operating, ensure the pump is filled with the correct amount of filter sand (not included).
- Always check that all hoses are securely attached and free of leaks.
- The pump is equipped with a Ground Fault Circuit Interrupter (GFCI), which is a safety feature designed to shut off the pump if electrical current is exposed to water. Regularly test the GFCI as instructed in the pump manual.
- Operate the pump for several hours daily to ensure adequate water circulation and filtration.

## Pool Ladder

The pool ladder provides safe entry and exit from the pool. Ensure it is assembled correctly and placed firmly on the ground and against the pool wall. Always supervise children when using the ladder and pool.

## MAINTENANCE

---

### Water Chemistry and Cleaning

Regular maintenance is crucial for a clean and safe swimming environment. The included chemical maintenance kit

provides basic supplies for water treatment. Always follow the instructions on the chemical products for proper dosage and handling.

- Test pool water regularly for pH, chlorine, and alkalinity levels. Adjust as needed using appropriate pool chemicals.
- Skim debris from the water surface daily using a pool skimmer.
- Brush pool walls and floor to prevent algae growth.
- Vacuum the pool floor as needed to remove settled debris.
- Utilize the debris cover when the pool is not in use to minimize contamination.

## Draining the Pool

The pool features a convenient drain plug that connects to a standard garden hose. This allows for controlled drainage of water away from the pool area or house, preventing water accumulation in undesirable locations.

## SAFETY INFORMATION

---

Always prioritize safety when using the swimming pool. Adult supervision is required at all times, especially for children. Ensure all safety barriers and equipment are in place and functioning correctly.

- Never leave children unattended in or near the pool.
- Do not dive or jump into the pool.
- Keep electrical equipment away from the pool area.
- Familiarize yourself with local pool safety regulations and ensure compliance.

## TROUBLESHOOTING

This section provides general guidance for common issues. For specific problems, refer to the detailed troubleshooting guide in your product's instructional DVD or contact Intex customer support.

### Common Issues:

- **Cloudy Water:** Check filter pump operation, backwash sand filter, test and adjust water chemistry (chlorine, pH).
- **Pump Not Running:** Ensure power connection, check GFCI for trips, verify pump settings.
- **Water Leaks:** Inspect all hose connections, drain plug, and pool liner for punctures. Use repair patches for small liner holes.
- **Algae Growth:** Shock the pool with appropriate chemicals, brush pool surfaces, and ensure proper filtration.

## WARRANTY AND SUPPORT

For information regarding product warranty, parts replacement, or technical support, please refer to the documentation included with your Intex pool set or visit the official Intex website. It is recommended to register your product upon purchase to facilitate any future support needs.

You can also visit the [Intex Store on Amazon](#) for additional product information and resources.
