Piscifun Piscifun-P-WD001

Piscifun Chest Waders Instruction Manual

Model: Piscifun-P-WD001

INTRODUCTION

Thank you for choosing Piscifun Chest Waders. These waders are designed to provide a waterproof and breathable experience for various aquatic activities, particularly fly fishing. This manual provides essential information for the proper setup, operation, maintenance, and care of your waders to ensure optimal performance and longevity.

Note: Fishing boots are not included with these stockingfoot waders.

PRODUCT FEATURES

The Piscifun Chest Waders incorporate several design elements for comfort and durability:

- **100% Waterproof and Breathable:** Constructed with a three-layer fabric and full seam tape design to ensure complete waterproofing. The unique tech-fabric facilitates moisture-wicking, keeping you comfortable. The innermost layer is skin-friendly for enhanced comfort.
- **Lightweight Design:** Weighing less than 2.53 lbs, these waders are approximately 35% lighter than traditional rubber waders, offering increased flexibility and reduced energy expenditure in water.
- **Long-Lasting Durability:** Features reinforced thicker nylon suspenders with excellent elasticity. The three-layer polyester construction provides wear resistance. The 4mm neoprene booties are designed for a snug fit and to prevent bunching.
- **Ergonomic Design:** Includes a waterproof zippered pocket in the center and a reversible pocket for secure storage of essentials. An adjustable elastic 1.5-inch belt ensures a proper fit at the waist. A removable hook keeper pad offers a convenient location for holding and changing fly lures.

Ultimate Breathable & Waterproof

3-layer polyester construction provides incredible wear resistance

This image shows a cross-section diagram of the wader's material, detailing the outer layer, breathable layer, and inside lining, emphasizing its waterproof and breathable properties.

Water-resistant Zippered Pocket

Adjustable Belt & Durable Buckle

0.15inch/4mm Neoprene Booties

Built-in Phone Pocket

Removable Hook Keeper

100% Waterproof Material

An image of the bonus waterproof phone bag, designed to keep mobile phones dry and safe during outdoor activities.

SETUP

1. **Unpack:** Carefully remove the waders from their mesh storage bag.
2. **Inspect:** Before first use, inspect the waders for any visible damage or manufacturing defects.
3. **Adjust Suspenders:** Put on the waders. Adjust the elastic suspenders using the quick-release buckles to achieve a comfortable and secure fit over your shoulders. Ensure the waders sit at an appropriate height on your chest without restricting movement.
4. **Secure Waist Belt:** Fasten the adjustable elastic waist belt around your waist. Tighten it to a snug fit. This belt helps prevent water from entering the waders in case of an accidental fall.
5. **Wear Wading Boots:** These are stockingfoot waders, meaning they do not have integrated boots. Wear appropriate wading boots over the 4mm neoprene booties. Ensure the booties fit comfortably inside your boots without excessive bunching.
6. **Attach Fly Keeper (Optional):** If desired, attach the removable hook keeper pad to the Velcro area on the front of the waders for easy access to your flies.

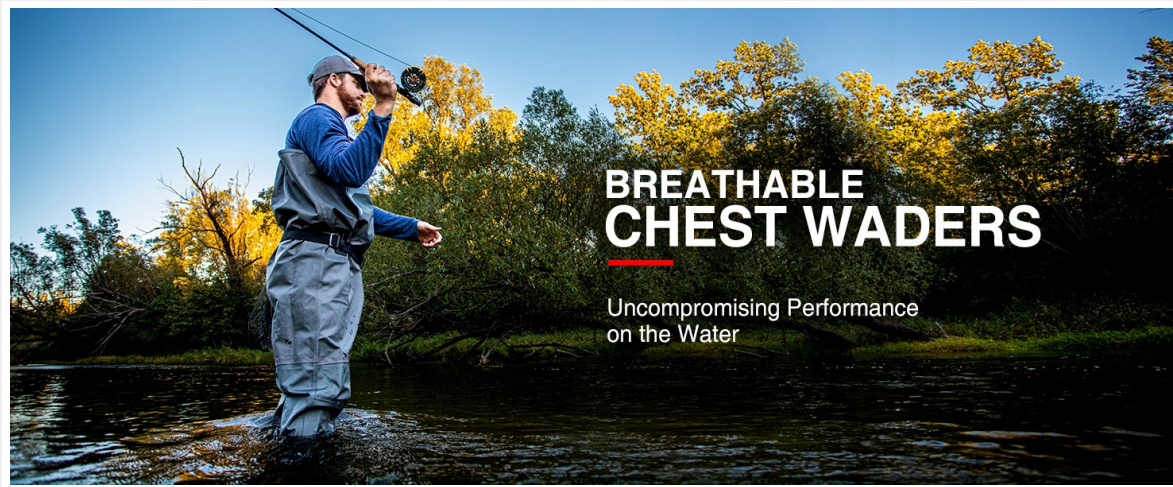

OPERATING INSTRUCTIONS

Once properly set up, your Piscifun Chest Waders are ready for use in various fishing and aquatic environments.

- **Movement in Water:** The lightweight and flexible design allows for natural movement. Be mindful of your surroundings and water depth.
- **Using Pockets:** Utilize the waterproof zippered chest pocket for items that must remain dry, such as keys or a wallet. The reversible pocket can hold other small essentials.
- **Fly Organization:** The removable hook keeper provides a convenient spot to temporarily hold flies while changing lures or during active fishing.

MAINTENANCE

Proper care and maintenance will extend the life of your waders.

- **Cleaning:** The waders are machine washable. Follow care instructions on the label. It is recommended to wash with cold water on a gentle cycle and use a mild detergent. Avoid harsh chemicals or bleach.
- **Drying:** Hang the waders to air dry completely, both inside and out, away from direct sunlight or heat sources. Ensure they are thoroughly dry before storage to prevent mildew.
- **Storage:** Store the waders in a cool, dry place. The included mesh storage bag is ideal for this purpose, allowing air circulation. Avoid folding them tightly for long periods to prevent creasing and material stress.
- **Repair Kit:** A basic repair patch is included for minor punctures or small rips. Refer to the repair kit instructions for proper application.

A small kit containing materials for repairing minor punctures or tears in the waders, ensuring long-term durability.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Leaking:** If you suspect a leak, first ensure all seams and pockets are properly sealed. Check for small punctures or tears. Use the provided repair kit for minor damage. For larger leaks, professional repair may be necessary.
- **Uncomfortable Fit:** Adjust the suspenders and waist belt. If the neoprene booties feel too snug, ensure you are wearing thin socks or no socks, depending on your preference and boot size. Consider the size chart carefully when purchasing.
- **Odor:** Thoroughly clean and dry the waders after each use. If an odor persists, a specialized wader cleaner or a solution of mild soap and water followed by complete drying can help.

SPECIFICATIONS

Feature	Detail
Model Number	Piscifun-P-WD001
Material	Polyester
Fabric Type	3-Layer Breathable Polyester
Booties	4mm Neoprene Stockingfoot
Care Instructions	Machine Wash
Weight	Approximately 2.78 Pounds (Package Weight)
