product.

MAINTENANCE

To ensure the longevity and maintain the quality of your Jafar Plush Doll, please follow these care instructions:

- **Spot Cleaning:** For minor stains, use a soft, damp cloth with a small amount of mild soap. Gently blot the soiled area. Avoid rubbing vigorously to prevent damage to the fabric.
- **Air Drying:** After spot cleaning, allow the doll to air dry completely. Do not use a machine dryer, as high heat can damage the plush material, satin elements, and embroidered features.
- **Avoid Harsh Chemicals:** Do not use bleach, abrasive cleaners, or strong detergents, as these can cause discoloration or damage to the doll's materials.
- **Storage:** Store the plush doll in a clean, dry environment away from direct sunlight to prevent fading and material degradation.

TROUBLESHOOTING

As a non-electronic plush item, extensive troubleshooting is generally not required. However, here are solutions for common minor issues:

- **Loose Stitching:** If you notice any minor loose threads, carefully trim them with scissors. Do not pull on loose threads, as this may unravel stitching and cause further damage.
- **Flattened Plush:** Over time, the plush material may become compressed. Gently fluff the doll by hand to help restore its original shape and softness.
