iLuv i222BTWH

iLuv AirFree Bluetooth Wireless Stereo Audio Transmitter Adapter

USER MANUAL

Model: i222BTWH

Introduction

The iLuv AirFree is a portable and compact Bluetooth wireless stereo audio transmitter adapter designed to enable wireless audio transmission from devices that lack built-in Bluetooth capabilities. It allows you to connect your favorite Bluetooth earbuds, earphones, headphones, or AirPods to devices such as airplane entertainment systems, gym treadmills, Nintendo Switch consoles, and TVs that only feature a 3.5mm audio jack. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your AirFree device.

What's in the Box

- AirFree Bluetooth Wireless Stereo Audio Transmitter Adapter
- Micro USB Cable
- User Guide

Product Overview

Front view of the iLuv AirFree Bluetooth Transmitter, showing the iLuv logo and the central control button with plus, minus, and power icons, along with the integrated 3.5mm audio jack cable.

Simple Button Controls

The controls are built onto the device so you can easily adjust the volume, power on/off or pair device.

Side view of the iLuv AirFree, highlighting the simple button controls for power, volume adjustment, and pairing, along with the micro USB charging port.

The AirFree features a compact design with an integrated 3.5mm audio jack cable for direct connection to audio sources. It includes simple button controls for power on/off, volume adjustment, and Bluetooth pairing. An LED indicator provides visual feedback on the device's status, including power, charging, and pairing mode.

Setup

1. Charging the AirFree

Before first use, fully charge your AirFree. Connect the included Micro USB cable to the AirFree's charging port and the other end to a USB power source (e.g., computer USB port, wall adapter). The LED indicator will show charging status. A full charge typically takes approximately 1 to 1.5 hours.

2. Pairing with Your Bluetooth Listening Device

The AirFree needs to be paired with your Bluetooth earbuds, earphones, headphones, or AirPods before use.

1. Ensure your Bluetooth listening device is in pairing mode. Refer to your listening device's manual for specific instructions on how to enter pairing mode.
2. Press and hold the power button on the AirFree until the LED indicator flashes, indicating it is in pairing mode.
3. Place the AirFree close to your Bluetooth listening device. They should automatically connect. The LED indicator on the AirFree will change to a steady light or turn off once successfully paired, depending on the model.

Wireless Audio Transmition

The AirFree connects your earphone, headphone, speaker with digital devices that can't wirelessly transmit audio.

Diagram illustrating the wireless audio transmission process, showing the iLuv AirFree connecting to AirPods, earphones, and headphones.

Operating Instructions

1. Connecting to an Audio Source

Once paired with your Bluetooth listening device, plug the 3.5mm audio jack of the AirFree into the audio output port of the device you wish to listen to (e.g., airplane seat audio jack, treadmill screen, TV headphone jack, Nintendo Switch).

2. Adjusting Volume

Use the '+' and '-' buttons on the AirFree to increase or decrease the audio volume. You may also need to adjust the volume on your Bluetooth listening device or the audio source itself for optimal sound levels.

3. Power On/Off

To power on the AirFree, press and hold the power button until the LED indicator illuminates. To power off, press and hold the power button again until the LED indicator turns off.

4. Battery Life

The AirFree provides an average playtime of 6 hours or a standby time of 8 hours on a single charge. When the battery is low, the LED indicator may change color or flash to alert you. Recharge the device as needed.

Long Lasting Battery

The average playtime of the AirFree is 6* hours or 8* hours of standby time from a single charge.

Visual representation of the iLuv AirFree's battery life, indicating 6 hours of playtime and 8 hours of standby time on a single charge.

Maintenance

To ensure the longevity and optimal performance of your iLuv AirFree:

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid dropping the device or subjecting it to strong impacts.
- Do not attempt to disassemble or repair the device yourself, as this will void the warranty.

Troubleshooting

Problem	Possible Cause	Solution
Device does not power on.	Battery is depleted.	Charge the AirFree using the provided Micro USB cable.
Cannot pair with Bluetooth listening device.	Listening device not in pairing mode; AirFree not in pairing mode; Too far apart.	Ensure both devices are in pairing mode. Bring them closer together (within 3 feet). Turn both devices off and on again.
No audio or low audio.	Volume too low; Not properly connected to audio source; Incorrect audio source selected.	Increase volume on AirFree, listening device, and audio source. Ensure 3.5mm jack is fully inserted. Verify the audio source is playing sound.
Audio crackling or distortion.	Interference; Low battery; Device too far from listening device.	Move away from other wireless devices. Recharge the AirFree. Reduce distance between AirFree and listening device.
Audio lag/delay.	Bluetooth codec limitations; Interference.	While the AirFree is designed for general audio, some lag may be noticeable with video content due to Bluetooth technology. Try reducing distance or minimizing interference.

Specifications

Feature	Detail
Model Number	i222BTWH
Product Dimensions	2.02 x 1.35 x 0.45 inches
Item Weight	0.006 ounces
Batteries	1 Lithium Ion battery (included)
Connectivity Technology	Bluetooth
Power Source	Battery Powered
Material	Plastic
Manufacturer	iLuv

Safety Information

General safety warnings about battery handling, extreme temperatures, and proper device shutdown before servicing.

Proposition 65 Warning: This product may contain chemicals known to the State of California to cause cancer and birth defects

or other reproductive harm.
