BaBylissPRO FXRF1

BaBylissPRO FXRF1 Replacement Foil Head for FXFS1 Shaver

Model: FXRF1 | Brand: BaBylissPRO

INTRODUCTION

This instruction manual provides essential information for the proper installation, maintenance, and care of your BaBylissPRO FXRF1 Replacement Foil Head and Cutter. This replacement part is specifically designed for use with the BaBylissPRO FXFS1 Shaver to ensure continued optimal performance and a close, comfortable shave. Please read these instructions carefully before use.

IMPORTANT SAFETY INFORMATION

- Always ensure the shaver is turned OFF and unplugged from any power source before attempting to replace the foil head or cutter.
- Handle the foil head and cutter with care to avoid damage or injury. The blades are sharp.
- Keep replacement parts out of reach of children.
- Use only genuine BaBylissPRO replacement parts to maintain product integrity and performance.
- Do not use damaged or bent foil heads or cutters, as this may cause skin irritation or injury.

PACKAGE CONTENTS

- 1 x BaBylissPRO FXRF1 Replacement Foil Head
- 1 x Internal Cutter

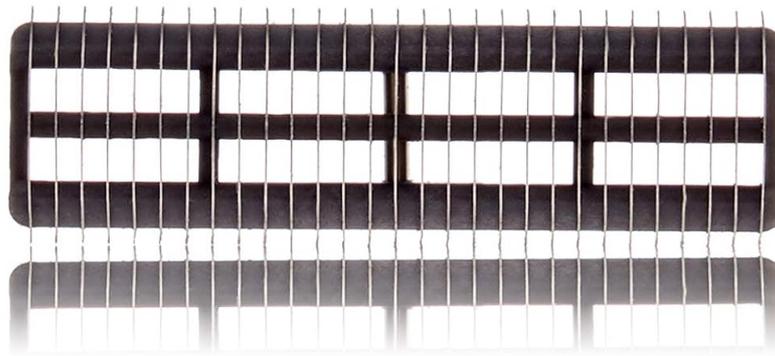

Image: The BaBylissPRO FXRF1 Replacement Foil Head and Internal Cutter, shown in its retail packaging.

INSTALLATION INSTRUCTIONS

Follow these steps to replace the foil head and cutter on your BaBylissPRO FXFS1 Shaver:

1. **Turn Off Shaver:** Ensure the shaver is in the OFF position. Press the foil head release button, typically located on the side of the shaver. The old foil head should then easily pull away from the shaver body.
2. **Remove Old Cutter:** Carefully remove the old cutter from the shaver. Hold the old cutter by its two ends and gently pull it away from the foil body. The cutter should be easily removable.
3. **Install New Cutter:** Remove the new foil cutter from its packaging. Align the cutter guide with the drive shaft of the shaver and press down lightly until it is firmly seated.
4. **Install New Foil Head:** Remove the new foil head from its packaging. Place the new replacement foil head assembly directly onto the shaver body. Lightly press down until you hear the new replacement foil head assembly click into place.
5. **Test Shaver:** Turn on the shaver to ensure it is working properly and the new components are securely attached.

BabyLissPRO**TÊTE DE RASAGE DE RECHANGE
CABEZAL DE AFEITADO DE RESPUESTO****REPLACING FOIL HEAD AND CUTTER**

- Step 1:** Turn shaver to the OFF position. Press the foil head release button on the side of the shaver. The foil head should easily pull away from the body of the shaver.
- Step 2:** Remove the used foil cutter. Hold the foil shaver with one hand; with your other hand hold the old cutter by the two ends and lightly pull up and away from the foil body. Cutter should be easily removable.
- Step 3:** Remove new foil cutter from the package. Line up the cutter guide with the drive shaft and press down lightly until you hear it click into place.
- Step 4:** Remove the new foil head from the package. Place new replacement foil head assembly directly onto the foil body. Lightly press down until you hear the new replacement foil head assembly click into place. Turn on foil shaver and make sure it is working properly.

REPLACEMENT DE LA TÊTE DE RASAGE ET DES LAMES INTERNES

- Étape 1 :** Éteindre ("OFF") le rasoir. Appuyer sur le bouton de libération de la tête de rasage situé sur le côté du rasoir. Tirer sur tête de rasage pour la retirer du boîtier (elle devrait sortir facilement).
- Étape 2 :** Retirer le jeu de lames internes usé du boîtier. Tenir le rasoir dans une main et, de l'autre main, saisir le jeu de lames internes usé par les deux bouts et tirer légèrement vers le haut pour le retirer du boîtier (il devrait sortir facilement).
- Étape 3 :** Retirer le nouveau jeu de lames internes de l'emballage. Aligner le guide du nouveau jeu de lames internes avec l'arbre d'entraînement et appuyer légèrement jusqu'à ce que le jeu de lames internes s'enclenche (vous devriez entendre un clic).
- Étape 4 :** Retirer la nouvelle tête de rasage de l'emballage. Aligner la tête de rasage avec le boîtier. Appuyer légèrement jusqu'à ce que la tête de rasage s'enclenche (vous devriez entendre un clic). Allumer le rasoir et s'assurer qu'il fonctionne correctement.

REEMPLAZO DEL CABEZAL DE AFEITADO Y DE LAS CUCHILLAS INTERNAS

- Paso 1:** Apague ("OFF") la afeitadora. Oprima el botón de liberación del cabezal de afeitado ubicado en el costado de la unidad. Jale el cabezal de afeitado hacia arriba para sacarlo de la carcasa (debería salir fácilmente).
- Paso 2:** Saque el juego de cuchillas internas gastado. Sostenga la afeitadora en una mano y, con la otra mano, agarre el juego de cuchillas internas gastado por los extremos y jale suavemente hacia arriba para sacarlo de la carcasa (debería salir fácilmente).
- Paso 3:** Saque el nuevo juego de cuchillas internas del paquete. Haga coincidir el guía del nuevo juego de cuchillas internas con el eje de accionamiento y presione suavemente hasta que el juego de cuchillas internas encaje (debería escuchar un clic).
- Paso 4:** Saque el nuevo cabezal de afeitado del paquete. Haga coincidir el nuevo cabezal de afeitado con la carcasa. Presione suavemente hacia abajo hasta que el cabezal de afeitado encaje (debería escuchar un clic). Encienda la afeitadora y compruebe que está funcionando correctamente.

MAINTENANCE AND CLEANING

Regular cleaning of your foil head and cutter is crucial for maintaining optimal shaving performance and extending the lifespan of your shaver.

- **After Each Use:** Turn off the shaver. Remove the foil head by pressing the release button.
- **Clean Debris:** Gently brush away any accumulated hair debris from the foil and the internal cutter using a small cleaning brush (often included with the original shaver, not this replacement part).
- **Avoid Water:** Do not rinse the foil head or cutter under water unless your specific BaBylissPRO shaver model is designed for wet use and its original instructions explicitly permit it. Water can damage internal components not designed for moisture.
- **Reattach:** Once clean, reattach the foil head securely to the shaver body.

Note: For detailed cleaning instructions specific to your BaBylissPRO shaver model (FXFS1), refer to its original instruction manual.

TROUBLESHOOTING

- **Shaver not cutting effectively:** Ensure the new foil head and cutter are correctly installed and not damaged. If performance is still poor, the shaver's motor or other internal components may require servicing.
- **Skin irritation after shaving:** New foil heads can sometimes cause slight irritation initially. Ensure proper shaving technique (shaving against the grain, not pressing too hard). If irritation persists, ensure the foil is not damaged and consider if your skin is sensitive to new blades.
- **Foil head detaches easily:** Verify that the foil head is pressed down firmly until it clicks into place. If it still detaches, inspect the locking mechanism on both the foil head and the shaver body for any damage.

If problems persist after following these steps, consult the original shaver manual or contact BaBylissPRO customer support.

SPECIFICATIONS

- **Model Number:** FXRF1
- **Compatibility:** Designed for BaBylissPRO FXFS1 Shavers
- **UPC:** [074108391711](#)
- **Manufacturer:** BaBylissPRO
- **Product Dimensions (Packaging):** 7.37 x 3.25 x 8.38 inches
- **Item Weight:** 0.7 ounces
- **Special Feature:** Replacement Foil & Cutter
