Giecy G300

Giecy G300 Portable Voice Amplifier

USER MANUAL

Model: G300 | Brand: Giecy

Introduction

The Giecy G300 Portable Voice Amplifier is designed to provide clear and powerful sound amplification for various settings, including classrooms, meetings, outdoor events, and guided tours. Featuring a 30W output, Bluetooth connectivity, and a long-lasting rechargeable battery, this device ensures your voice is heard clearly by audiences of 100 or more members. It also supports music playback via TF card or USB and includes an FM radio function.

Package Contents

Please check the box for the following items:

Recording function

A summary of each meeting can be recorded.

Image: Detailed view of the Giecy G300's top and side panels, highlighting the ON/OFF (Volume Up/Down) knob, Mode button, Next/Previous Track buttons, Pause/Play button, Reverb Up/Down knob, Microphone input, USB Disk Interface, TF Card Interface, and DC 9V Charging Port.

Controls and Ports:

- **ON/OFF (Volume Up/Down) Knob:** Rotate to power on/off and adjust volume.
- **Mode Button:** Press to switch between Speaker, Bluetooth, and FM Radio modes.
- **Next/Previous Track Buttons:** Navigate through audio tracks.
- **Pause/Play Button:** Control audio playback.
- **Reverb Up/Down Knob:** Adjust the reverb effect for the microphone.
- **MIC Input:** 3.5mm jack for connecting the microphone headset.
- **USB Disk Interface:** For connecting USB flash drives for music playback.
- **TF Card Interface:** For inserting Micro SD (TF) cards for music playback.
- **DC 9V Charging Port:** For connecting the AC-DC charger.

Setup

1. Charging the Amplifier:

Before first use, fully charge the amplifier. Connect the AC-DC charger to the DC 9V charging port on the

amplifier and plug it into a power outlet. The built-in 2800mAh lithium battery typically takes 3-5 hours to fully charge. A full charge provides approximately 12-15 hours of amplification time or up to 8 hours of music playback.

100%

fully charged in: 3-5h

Image: Visual representation of the Giecy G300's 2800mAh battery, indicating 3-5 hours for a full charge and 10-16 hours of MIC mode usage.

2. Connecting the Microphone Headset:

Insert the 3.5mm jack of the wired microphone headset into the "MIC" input port on the amplifier. Position the microphone near your mouth for optimal voice pickup.

3. Wearing the Amplifier:

Attach the adjustable strap or waist band to the amplifier. You can wear it around your waist, over your shoulder, or clip it to your belt using the integrated clip on the back of the unit. Ensure the amplifier is positioned to project sound effectively towards your audience.

Operating Instructions

1. Power On/Off and Volume Control:

Rotate the ON/OFF (Volume Up/Down) knob clockwise to power on the amplifier. Continue rotating to increase the volume. Rotate counter-clockwise to decrease volume and power off the device.

2. Mode Selection:

Press the "Mode" button to cycle through available modes:

- **Speaker Mode:** Default mode for voice amplification.
- **Bluetooth Mode:** For wireless audio streaming from compatible devices. The display will show

"BLUE" or similar.

- **FM Radio Mode:** For listening to FM radio stations. The display will show the frequency.

Small & Portable Super Powerful Voice Amplifier / Speaker

Image: The Giecy G300 Voice Amplifier highlighting its Bluetooth 4.2 connectivity, allowing wireless audio streaming from laptops and mobile phones.

3. Music Playback (TF Card/USB):

Insert a TF (Micro SD) card or a USB flash drive into the respective slots. The amplifier will automatically detect and begin playing compatible audio files (MP3/WAV). Use the Next/Previous Track buttons to skip songs and the Pause/Play button to control playback.

Image: The Giecy G300 Voice Amplifier demonstrating support for TF Card and USB Disk playback (up to 32GB and 16GB respectively) for MP3/WAV audio formats, along with a recording function for meetings.

4. Recording Function:

The amplifier supports recording. Ensure a TF card or USB drive is inserted. Refer to the Quick Start Guide for specific instructions on initiating and managing recordings.

5. Feedback Prevention:

To prevent audio feedback (a high-pitched squeal), ensure the microphone is not placed directly in front of or too close to the amplifier. Maintain a distance of 30-50cm (11.8-19.6 inches) between the microphone and the amplifier.

PREFERRED GIFTS FOR PEOPLE WHO NEED VOICE AMPLIFIED SOUND

Image: A visual guide illustrating the correct distance (30-50cm) between the microphone and the amplifier to prevent feedback, contrasting with an incorrect close placement.

Video: "Giecy Portable 30W Voice Amplifiers" - This video provides an overview of the amplifier's features, accessories, and basic operation, including how to switch modes and connect the microphone.

Maintenance

- Cleaning:** Use a soft, dry cloth to clean the amplifier. Do not use abrasive cleaners or solvents.
- Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

Troubleshooting

Problem	Possible Cause	Solution
No sound from amplifier	Device is off; low battery; microphone not connected properly; volume too low.	Turn on the device; charge the battery; ensure microphone is securely plugged in; increase volume.
Audio feedback (squealing)	Microphone too close to amplifier; volume too high; microphone pointing at amplifier.	Increase distance between microphone and amplifier (30-50cm); lower volume; adjust microphone direction.
Bluetooth connection issues	Device not in Bluetooth mode; device not discoverable; interference.	Switch to Bluetooth mode; ensure amplifier is discoverable; move closer to the amplifier; reduce interference.
Cannot play from TF card/USB	Incorrect file format; card/drive not inserted correctly; corrupted media.	Ensure files are MP3/WAV; reinsert card/drive; try different media.

Specifications

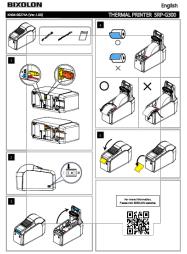

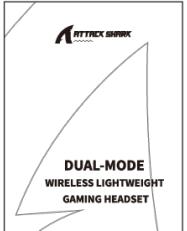

Feature	Detail
Model	G300
Output Wattage	30 Watts
Battery Capacity	2800mAh Lithium Battery
Charging Time	3-5 hours
Amplification Time	12-15 hours
