Anker PowerPort Strip 3 User Manual

Model: A9131

INTRODUCTION

This manual provides essential information for the safe and efficient use of your Anker PowerPort Strip 3. Please read these instructions carefully before using the product and retain them for future reference.

Image: The Anker PowerPort Strip 3, a white power strip featuring three standard AC outlets and three blue USB-A ports, with its 5-foot extension cord and flat plug.

PRODUCT OVERVIEW

The Anker PowerPort Strip 3 is designed to expand your power options, offering multiple outlets and USB charging ports in a compact form factor. It includes:

- 3 AC Outlets (1250W at 125V / 10A)
- 3 PowerIQ USB-A Charging Ports (18W total max output, 12W max per port)
- 5-foot long extension cord with a flat plug
- Integrated safety features including surge and overload protection

Video: A brief product overview demonstrating the features and compact design of the Anker PowerPort Strip 3.

SETUP

1. **Placement:** Position the power strip on a flat, stable surface or mount it securely if desired. Ensure it is away from water, heat sources, and flammable materials.

2. **Connect to Wall Outlet:** Plug the power strip's flat plug into a standard 125V AC wall outlet. The flat design minimizes obstruction, allowing furniture to be placed closer to the wall.

3. **Power On:** Press the power switch located on the side of the power strip to turn it on. A blue indicator light will

illuminate to confirm power is active.

OPERATING INSTRUCTIONS

Using AC Outlets

Plug your devices directly into the three AC outlets. The outlets are spaced to accommodate larger power adapters without blocking adjacent ports.

Image: A close-up of the Anker PowerPort Strip 3 demonstrating its spacious outlet layout, allowing multiple large power adapters to be plugged in simultaneously.

Using USB Charging Ports

Connect your USB-powered devices (e.g., smartphones, tablets, smartwatches) to the three PowerIQ USB-A ports. PowerIQ technology automatically detects your device and delivers an optimized, high-speed charge. Note that this power strip does not support Qualcomm Quick Charge.

SAFETY FEATURES

Your Anker PowerPort Strip 3 is equipped with a 7-point safety system to protect your devices and ensure safe operation:

- **Surge Protection:** Guards against sudden power spikes.
- **Overload Protection:** Prevents damage from excessive current draw.
- **Fire-Retardant Casing:** Constructed with materials designed to resist fire.
- **Child-Friendly Safety Shutters:** Prevents foreign objects from being inserted into AC outlets.
- **Over-Temperature Protection:** Monitors and regulates internal temperature.
- **Grounded Protection:** Ensures a safe electrical path.

- **Safety Switch:** Manual control for power on/off.

COMPATIBILITY

The PowerPort Strip 3 is compatible with a wide range of devices, including but not limited to:

- iPhone XS / XS Max / XR / X / 8 / 8 Plus / 7 / 7 Plus / 6S / 6S Plus / 6 / 5S / 5
- iPad Pro / Air series / mini series
- Samsung Galaxy S10+ / S10 / S10e / S9+ / S9 / S8+ / S8 / S7 edge / S7 / S6+ / S6 / S5
- AirPods, Apple Watch, GoPro, other smartwatches, USB speakers, and more.

Specifications

|	
Product Dimensions	9.06 x 2.17 x 1.18 inches
Item Weight	14.4 ounces
Item Model Number	A9131
Brand	Anker
Total Power Outlets	3 AC Outlets, 3 USB-A Ports
AC Power Output	1250W at 125V / 10A
USB-A Power Output	18W total for 3 USB-A ports (max 12W per port)
Cord Length	5 feet
Voltage	100-240V (international support)
Special Feature	Power strip with USB, Spacious Design for all Plug Types

Troubleshooting

- **No Power:** Ensure the power strip is securely plugged into a functioning wall outlet and the power switch is in the "on" position. Check if the wall outlet itself is receiving power.

- **Devices Not Charging via USB:** Verify that the USB cables are properly connected to both the device and the power strip. Ensure the device is compatible with USB charging. Note that total USB output is 18W, and individual ports have a 12W max.

- **Surge Protection Indicator Off:** If the surge protection indicator light is off, it may mean the surge protection has been compromised after a significant power surge. The power strip may still function as an extension cord, but its surge protection capabilities are no longer active. Consider replacing the unit.

- **Overload:** If too many high-power devices are connected, the overload protection may trip, cutting power. Unplug some devices and reset the power strip by cycling the power switch.
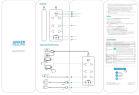

Warranty and Support

This Anker PowerPort Strip 3 comes with a worry-free 18-month warranty. Additionally, it includes a lifetime* $50,000 connected equipment warranty. For technical support or warranty claims, please contact Anker customer service.

*For the purpose of this connected equipment warranty, "lifetime" is defined as the lifetime of the product.
