Childcraft F99038.04

Child Craft Avery SafeAccess Compact Portable Crib Instruction Manual

Model: F99038.04 | Brand: Childcraft

INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your Child Craft Avery SafeAccess Compact Portable Crib. Designed for safety and convenience, this crib features a full-length SafeAccess front and Clearview end panels for easy infant viewing. The innovative design minimizes caregiver strain and ensures infant safety. Please read all instructions carefully before assembly and use.

SETUP AND ASSEMBLY

Your Child Craft Avery crib requires assembly. All necessary hardware and detailed instructions are included in the packaging. For optimal safety and ease of assembly, it is recommended that two adults perform the setup.

Before You Begin:

- Unpack all components and verify that all parts and hardware are present according to the parts list in the included instruction booklet.
- Clear a spacious area for assembly to prevent damage to the crib or other items.
- Keep small parts away from children during assembly.

Assembly Steps:

1. Follow the step-by-step diagrams and instructions provided in the separate assembly guide.
2. Ensure all fasteners are securely tightened. Do not overtighten.
3. Attach the 2-inch commercial casters to the crib legs. Ensure the two locking wheels are positioned as indicated in the assembly guide.
4. Install the 3-inch ultradurable mattress into the crib. The mattress board has two adjustable positions.

OPERATING INSTRUCTIONS

SafeAccess Gate Operation:

The SafeAccess gate is designed for easy and safe infant access, minimizing back strain for caregivers. The innovative hinging and latching system prevents pinch points.

- To open the gate: Locate the latch mechanism on the side of the gate. Follow the specific instructions in your assembly guide to disengage the latch and lower the gate.
- To close the gate: Lift the gate until the latch mechanism securely engages. Always ensure the gate is fully latched before leaving the infant unattended.

Mattress Height Adjustment:

The mattress board can be adjusted to two different height positions to accommodate the infant's growth and caregiver accessibility.

- Refer to the assembly guide for detailed instructions on how to safely adjust the mattress board height.
- Always use the higher position for infants who cannot push up on their hands and knees, or who are less than 5 months old.
- Use the lower position for older infants who can push up on their hands and knees or stand.

Smooth Transportation with Locking Wheels:

The crib is equipped with non-marking 2-inch commercial casters for easy movement between rooms. Two of these wheels are locking to ensure the crib remains stationary when needed.

- To move the crib: Ensure both locking wheels are in the unlocked position.

- To secure the crib: Push down on the locking mechanism on the two designated wheels until they click into place. Always lock the wheels when the crib is in use or unattended.

MAINTENANCE AND CARE

Cleaning:

To clean the crib, wipe surfaces with a damp cloth. Avoid using abrasive cleaners or strong chemicals, as these can damage the wood finish.

Regular Checks:

- Periodically check all screws and fasteners to ensure they are tight. Do not overtighten.
- Inspect the crib for any signs of damage, loose parts, or wear and tear. Discontinue use if any damage is found.
- Ensure the SafeAccess gate mechanism operates smoothly and latches securely.

TROUBLESHOOTING

This section addresses common issues you might encounter with your crib.

Issue: Difficulty with SafeAccess Gate

- **Solution:** Ensure all assembly screws related to the gate mechanism are properly tightened. Check for any obstructions in the hinge or latch area. Refer to the assembly guide for correct gate installation.

Issue: Crib is unstable or wobbly

- **Solution:** Verify that all bolts and screws are securely tightened. Ensure the crib is placed on a flat, level surface. Check that the casters are properly installed and not damaged.

Issue: Wheels not locking or rolling smoothly

- **Solution:** For locking issues, ensure the locking mechanism is fully engaged or disengaged. For smooth rolling, check for debris caught in the wheels. Clean the casters if necessary.

SPECIFICATIONS

Feature	Detail
Model Number	F99038.04
Brand	Childcraft
Material	Wood
Product Dimensions (L x W x H)	55.4" x 31" x 40"
Item Weight	56 Pounds
Mattress Included	Yes, 3" ultradurable mattress (24" x 38" sleeping surface)
Mattress Positions	2 adjustable positions
Casters	2" non-marking commercial casters, 2 locking
Maximum Weight Recommendation	50 Pounds
