## Anker A2614

# Anker PowerPort Atom III Slim 30W USB-C Wall Charger

Model: A2614

## INTRODUCTION

The Anker PowerPort Atom III Slim is a compact 30W USB-C wall charger designed for efficient and fast charging of various devices. Utilizing Gallium Nitride (GaN) technology, this charger offers a slim profile without compromising power output. It features Anker's PowerIQ 3.0 technology for universal fast-charging compatibility, making it suitable for a wide range of smartphones, tablets, and laptops.

## SAFETY INFORMATION

- Do not expose to liquids, extreme temperatures, or disassemble the charger.
- Avoid dropping the charger.
- Use original or certified charging cables for optimal performance and safety.
- This charger is designed for indoor use only.
- Unplug the charger during lightning storms or when it will be unused for extended periods.

## PACKAGE CONTENTS

- Anker PowerPort Atom III Slim Wall Charger
- Welcome Guide
- 18-Month Warranty Card
- Customer Service Information

*Note: Charging cables are not included and must be purchased separately.*

## SETUP

1. **Unpack the Charger:** Carefully remove the PowerPort Atom III Slim from its packaging.
2. **Locate a Power Outlet:** Choose a standard wall outlet. The charger's slim design allows it to fit in tight spaces, such as behind furniture.

3. **Plug In the Charger:** Extend the foldable prongs and insert the charger firmly into the wall outlet.
4. **Connect a USB-C Cable:** Insert one end of a compatible USB-C charging cable (not included) into the USB-C port on the charger.
5. **Connect to Device:** Connect the other end of the USB-C cable to your device (e.g., smartphone, tablet, laptop).

## OPERATING INSTRUCTIONS

---

The PowerPort Atom III Slim automatically detects and delivers the optimal charging speed for your connected device using Anker's PowerIQ 3.0 technology.

### Charging Your Devices

1. Ensure the charger is securely plugged into a wall outlet.
2. Connect your device to the charger using a suitable USB-C to USB-C cable or a USB-C to Lightning cable for Apple devices.
3. The device will begin charging automatically. A blue LED indicator on the charger will illuminate when a device is connected and charging.

### Compatibility Notes

- For Power Delivery fast charging on iPad models earlier than 2018 and all compatible iPhones, use a USB-C to Lightning cable.
- When connecting to iPhone (8/8 Plus/X/XS Max/XS/XR), fast charging (9V) will initiate automatically.
- This charger is compatible with Samsung Note 10 / Note 10+ / S20 / S20+ / S20 Ultra, but charging speed may be slower than the original 25W charger.
- The charger can fully charge a MacBook 12-inch in approximately 2 hours.
- It can charge compatible iPhones (8/8+/X/XS/XS/Max) up to 50% in just 30 minutes.

# Up to 2.5× Faster

<b>PowerPort Atom III Slim</b> VS	<b>iPhone XS Max</b> Stock Charger	<b>250%</b> Speed
	<b>Samsung S10</b> Stock Charger	<b>100%</b> Speed
	<b>iPad Pro 11"</b> Stock Charger	<b>150%</b> Speed

Data based on internal lab testing charging to 50% capacity.  
Results may vary under different conditions.

## MAINTENANCE

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place when not in use. Avoid storing in areas with high humidity or extreme

temperatures.

- **Cable Care:** Avoid bending or crimping charging cables excessively, as this can damage them and affect charging performance.

## TROUBLESHOOTING

Problem	Possible Solution
Device not charging.	<ul style="list-style-type: none"><li>◦ Ensure the charger is securely plugged into a live wall outlet.</li><li>◦ Verify the charging cable is properly connected to both the charger and your device.</li><li>◦ Try a different charging cable to rule out cable issues.</li><li>◦ Test the charger with a different device to confirm charger functionality.</li></ul>
Slow charging speed.	<ul style="list-style-type: none"><li>◦ Ensure your device supports USB Power Delivery (PD) for optimal fast charging.</li><li>◦ Use a high-quality USB-C to USB-C or USB-C to Lightning cable that supports fast charging.</li><li>◦ Check if your device is running power-intensive applications in the background.</li><li>◦ Some devices, like the Samsung Note 10/S20 series, may charge slower than with their original 25W chargers.</li></ul>
Charger feels warm.	It is normal for the charger to become warm during operation, especially during fast charging. If it becomes excessively hot or emits smoke/odor, immediately unplug it and contact customer support.

## SPECIFICATIONS

Model Number	A2614
Total Wattage	30W
Input	100 - 240V ~ 1.2A 50 - 60Hz
Output	5V 2.4A / 9V 3A / 15V 2A / 20V 1.5A
Dimensions	2.95 x 1.81 x 0.63 inches
Weight	2.88 ounces
Connector Type	USB Type C
Special Features	Slim Fit, Travel, Universal, GaN Technology, PowerIQ 3.0
