## 3. SETUP AND INSTALLATION

---

Installing your Mailink replacement toothbrush head is a straightforward process:

1. Hold your electric toothbrush handle firmly in one hand.
2. Align the replacement brush head with the metal shaft on the toothbrush handle.
3. Firmly press the brush head down onto the shaft until it clicks securely into place. Due to the tightened design, a firm press may be required during installation.
4. To remove, simply pull the brush head off the handle.

## Compatible with Oral B Snap-On Toothbrush Handles

### 4. OPERATING INSTRUCTIONS

---

For optimal oral hygiene, follow these general operating guidelines:

1. Attach the toothbrush head to a compatible Oral-B handle.
2. Wet the brush head and apply a small amount of toothpaste.
3. Place the brush head against your teeth at a slight angle towards the gum line.
4. Turn on the electric toothbrush and guide the brush head slowly from tooth to tooth, allowing the brush to clean each tooth surface for a few seconds.
5. Do not scrub aggressively; let the electric toothbrush do the work.
6. Brush all surfaces of your teeth (outer, inner, and chewing surfaces) and your tongue.
7. Rinse your mouth and the brush head thoroughly after use.

## 5. MAINTENANCE

---

To maintain optimal cleaning performance and hygiene, it is crucial to replace your toothbrush head regularly.

- **Replacement Frequency:** Replace the toothbrush head every 3 months, or sooner if the bristles become frayed or worn. The indicator bristles on the brush head will fade over time, signaling when a replacement is needed.
- **Cleaning:** After each use, rinse the brush head thoroughly under running water to remove any toothpaste residue and debris. Allow it to air dry.

Image: Reminder bristles indicating when to replace the brush head.

For multi-user households, the brush heads come with multi-colored rings for easy identification, ensuring each user uses their designated brush head.

# Multi-color ring distinction

## It's not wrong for a multiplayer to use it
