## SMARTLINER SB2128

# SMARTLINER Car Floor Mats Instruction Manual

Model: SB2128

## INTRODUCTION

---

Thank you for choosing SMARTLINER Car Floor Mats. This manual provides essential information for the proper installation, usage, maintenance, and care of your new floor mats. Designed for superior protection and durability, SMARTLINER floor mats offer a custom fit to safeguard your vehicle's interior.

## PRODUCT OVERVIEW

---

The SMARTLINER SB2128 Car Floor Mats are engineered to provide comprehensive protection for your vehicle's carpeted floor. Key features include:

- **All-Weather Protection:** Designed to withstand various conditions, offering stain-resistant and 100% odorless protection.
- **Custom Fit Precision:** Each mat is precisely molded to the contours of your vehicle, ensuring maximum coverage and preventing spills from reaching the carpet.
- **Raised Lip Design:** Features a raised and strengthened lip around the edges to contain liquids and debris.
- **Skid-Resistant Surface:** The textured surface helps prevent items from sliding and provides a secure footing.
- **Easy to Clean:** The durable material allows for simple cleaning with water or mild soap.

## INSTALLATION GUIDE

---

Follow these steps for proper installation of your SMARTLINER floor mats:

1. **Prepare the Vehicle:** Ensure the vehicle's original floor carpet is clean and dry before installing the new mats. Remove any existing floor mats.
2. **Identify Mat Placement:** Each mat is custom-designed for a specific position (driver's side, passenger's side, rear). Match the mat to its corresponding area in the vehicle.
3. **Position the Mat:** Carefully place the mat into the footwell, aligning it with the vehicle's floor contours. Ensure it fits snugly against all edges.
4. **Secure the Mat (if applicable):** If your vehicle has floor retention hooks or posts, align the mat's grommets or openings with these posts and press down firmly to secure the mat in place. This prevents the mat from shifting during driving.
5. **Check for Obstructions:** Verify that the installed mat does not interfere with the operation of the accelerator, brake, or clutch pedals. Ensure full and free movement of all pedals.
6. **Repeat for All Mats:** Install all remaining mats (passenger and rear) following the same procedure.

## USAGE AND PROTECTION

Your SMARTLINER floor mats are designed for everyday use to protect your vehicle's interior from dirt, spills, and wear. The raised edges and durable material effectively contain messes, keeping your original carpet clean.

**Important Safety Note:** Always ensure floor mats are properly secured and do not obstruct pedal operation. Never stack floor mats on top of each other, as this can impede pedal movement and create a safety hazard.

Image: The floor mat effectively contains dirt from a muddy soccer ball, showcasing its protective function.

## CARE AND MAINTENANCE

---

Maintaining your SMARTLINER floor mats is simple, ensuring they continue to protect your vehicle for years to come.

- **Routine Cleaning:** For light dirt and dust, simply wipe the mats clean with a damp cloth.
- **Deep Cleaning:** For tougher messes, remove the mats from the vehicle. You can hose them off with water or use a mild soap solution and a brush.
- **Drying:** After cleaning, allow the mats to air dry completely before reinstalling them in your vehicle. Do not use harsh chemicals or abrasive cleaners, as these may damage the mat material.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Mat does not fit properly.	Incorrect mat for the vehicle model/year; mat not aligned correctly.	Verify the mat is designed for your specific vehicle model and year. Reposition the mat, ensuring it aligns with all contours and retention points.
Mat slides or shifts.	Mat not secured to floor retention hooks; original carpet is dirty or slippery.	Ensure the mat's grommets are firmly attached to the vehicle's floor hooks. Clean the vehicle's carpet underneath the mat.

Problem	Possible Cause	Solution
Stains are difficult to remove.	Stubborn stains; improper cleaning method.	Use a mild soap solution and a soft brush. For very stubborn stains, a specialized automotive interior cleaner designed for rubber/plastic surfaces may be used, following product instructions.

## SPECIFICATIONS

---

**Brand:** SMARTLINER

**Model:** SB2128

**Material:** Plastic

**Color:** Grey

**Product Dimensions:** 25.4 x 12.7 x 91.44 cm (approximate)

**Item Weight:** 4.26 kg

**Position:** Rear (for this specific model, though front mats are also available in the product line)
