Aipsun GWA065

Aipsun 32.6-inch Modern LED Vanity Light

MODEL: GWA065

Introduction

Thank you for choosing the Aipsun 32.6-inch Modern LED Vanity Light. This fixture is designed to provide efficient and stylish illumination for your bathroom, bedroom, or living space. Featuring a sleek black finish and warm LED lighting, it offers both aesthetic appeal and practical functionality. This manual provides essential information for safe installation, operation, and maintenance of your new light fixture.

This modern vanity light provides up and down light output, creating a soft and uniform light diffusion. Its energy-efficient SMD2835 LED technology ensures a long lifespan and significant electricity savings compared to traditional lighting.

Safety Information

- **WARNING:** Risk of electric shock. Disconnect power at the fuse box or circuit breaker before installation or servicing.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Consult a qualified electrician if you are unfamiliar with proper electrical wiring installations.
- Do not install this fixture in wet locations. It is designed for indoor use only.
- Ensure the mounting surface can support the weight of the fixture.
- Do not attempt to modify the fixture. Any modifications may void the warranty and create a safety hazard.
- Handle the fixture with care to avoid damage to the LED components.

Package Contents

Verify that all components are present before beginning installation:

- Aipsun 32.6-inch Modern LED Vanity Light Fixture
- Instruction Manual
- Mounting Hardware (screws, wire nuts, mounting bracket)

Specifications

Setup (Installation)

This fixture is designed for hardwired installation and is suitable for standard US junction boxes. No switch or cord is present on the fixture itself; it is intended to be controlled by a wall switch.

1. **Turn off Power:** Before starting, ensure the power supply to the circuit is turned off at the main circuit breaker or fuse box.
2. **Prepare Mounting Surface:** Attach the mounting bracket to the junction box using the provided screws. Ensure the bracket is securely fastened.
3. **Wire Connections:** Connect the fixture's wires to your household electrical wires. Typically, connect the black wire from the fixture to the black (live) wire from the wall, the white wire from the fixture to the white (neutral) wire from the wall, and the ground wire from the fixture to the bare copper or green ground wire from the wall. Secure connections with wire nuts.
4. **Mount Fixture:** Carefully align the fixture with the mounting bracket and secure it using the provided screws. Ensure

no wires are pinched during this step.

5. **Restore Power:** Once the fixture is securely installed, restore power at the circuit breaker.

Operating Instructions

The Aipsun Modern LED Vanity Light is designed for simple operation via a standard wall switch. Once installed and wired correctly, the light will turn on and off with your existing wall switch.

- **Power On/Off:** Use your room's wall switch to turn the light fixture on or off.
- **Light Output:** The fixture provides a warm white light (3000K) with both upward and downward illumination, creating a balanced and inviting ambiance.

- **Energy Efficiency:** The integrated LED technology ensures consistent light output while consuming minimal energy.

Maintenance

To ensure the longevity and appearance of your Aipsun vanity light, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the surface of the fixture. Avoid abrasive cleaners, solvents, or polishes, as these can damage the finish and acrylic diffuser.
- **Inspection:** Periodically check for any loose connections or signs of wear. If any issues are found, disconnect power and consult a qualified electrician.
- **LED Care:** The integrated LED components are designed for long-term use and do not require replacement. Do not attempt to disassemble the LED module.

Troubleshooting

If you encounter issues with your light fixture, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture. Loose wire connections. Faulty wall switch.	Check circuit breaker/fuse. Ensure all wire connections are secure (with power off). Test the wall switch.
Light flickers.	Loose wire connections. Incompatible dimmer switch (this model is not dimmable).	Check wire connections (with power off). Ensure no dimmer switch is used with this non-dimmable fixture.
Light is dim.	Incorrect wiring. Power supply issue.	Verify wiring connections. Consult an electrician to check power supply.

If these steps do not resolve the issue, please contact Aipsun customer support.

Warranty and Support

This Aipsun light fixture comes with a**2-year manufacturer's limited warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use.

The warranty does not cover damage caused by improper installation, misuse, abuse, accidents, or unauthorized modifications. For warranty claims or technical assistance, please contact Aipsun customer support through the retailer where the product was purchased or visit the official Aipsun store page.
