SETUP INSTRUCTIONS

Follow these steps to set up your Slime'Licious Slime Station:

- 1. Unpack Components:** Carefully remove all items from the packaging and ensure all listed components are present.
- 2. Assemble Station:** Place the main Slime Station unit on a clean, flat, and stable surface.
- 3. Prepare Slime Powder:** Open a packet of slime powder and pour it into the designated "Slime Powder" dispenser on the station.
- 4. Fill Water Dispenser:** Fill the "Water" dispenser with clean tap water.
- 5. Arrange Colorants and Decorations:** Place the scented colorant bottles into their holders. Organize the various decoration packs into the topping compartments.

OPERATING THE SLIME STATION

Creating your scented slime is a simple four-step process:

- 1. Dispense Slime Powder:** Place one of the reusable mini slime shaker cups under the "Slime Powder" dispenser. Turn the knob to dispense the desired amount of powder into the cup.
- 2. Add Scented Colorant:** Select your preferred scented colorant. Hold the shaker cup under the colorant dispenser and add a few drops.

TROUBLESHOOTING

Problem	Solution
Slime is too sticky or runny.	Ensure you have added the correct amount of water as per instructions. If too sticky, try adding a very small amount of additional slime powder. If too runny, try shaking for a longer duration.
Colorant is leaking from bottles.	Ensure the caps on the colorant bottles are securely tightened when not in use. Store bottles upright.
Slime powder is not dispensing smoothly.	Gently tap the dispenser to loosen the powder. Ensure the knob is turned fully to allow powder to flow.
