TITIROBA MY-09

TITIROBA Sunrise Alarm Clock MY-09 User Manual

Model: MY-09

INTRODUCTION

The TITIROBA Sunrise Alarm Clock MY-09 is designed to enhance your waking and sleeping experience through light and sound. It features a sunrise simulation to gently wake you, a sunset simulation to aid sleep, dual alarms, FM radio, natural sounds, and a USB charging port. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal use of your device.

PRODUCT OVERVIEW

Key Features

- **Sunrise Simulation Alarm Clock:** Gradually brightens with 20 levels of light, 7 natural sounds or FM radio, and adjustable sunrise duration (10-60 minutes).
- **Sunset Simulation Sleep Aid:** Fades light to create a restful atmosphere, with options for 3 natural sounds or FM radio.
- **FM Radio & Natural Sounds:** Wake up or fall asleep to 7 natural sounds or your favorite FM station.
- **Dual Alarms & Snooze:** Two independent alarms for weekdays/weekends, with a 9-minute snooze function (up to 5 times).
- **USB Port & Backup Battery:** Includes a 5V/2A USB charging port and a CR2032 backup battery (not included, required for settings retention during power outage).
- **7 Color Lights:** Functions as a bedside lamp with multiple color options for atmosphere.

Package Contents

- Sunrise Alarm Clock x 1
- Charging Cable x 1
- Adapter x 1
- User Manual x 1

Package List

Wake Up Light * 1
Adapter * 1

Charging Cable * 1
User Manual * 1

Image: The TITIROBA Sunrise Alarm Clock, charging cable, adapter, and user manual included in the package.

SETUP

1. Power Connection

Connect the provided charging cable to the DC 5V port on the back of the alarm clock and plug the adapter into a power outlet. The display will light up, indicating the device is powered on.

2. Backup Battery Installation (Optional but Recommended)

To retain time and alarm settings during a power outage, install a CR2032 battery (not included) into the battery compartment on the bottom of the unit. Ensure correct polarity.

3. Initial Time Setting

Upon first power-up or after a battery replacement, the time display may flash. Press the 'Time Settings' button (often indicated by a clock icon) to enter time setting mode. Use the '+' and '-' buttons to adjust hours and minutes. Press the 'Time Settings' button again to confirm.

OPERATING INSTRUCTIONS

Button Functions Overview

Your browser does not support the video tag.

Video: This video demonstrates the various button functions and features of the TITIROBA Sunrise Alarm Clock MY-09, including time settings, sleep aid, radio, snooze, light, and alarm settings.

The buttons are located on the top edge of the device. Refer to the video above for visual guidance on button identification and usage.

1. Sunrise Simulation Alarm

- **Setting the Alarm:** Press the 'Alarm Settings' button (often indicated by an alarm clock icon) to select Alarm 1 or Alarm 2. Use '+' and '-' to set the desired wake-up time.
- **Sunrise Duration:** In alarm setting mode, you can typically adjust the sunrise duration (e.g., 10-60 minutes) before the alarm time. The light will gradually increase from a dim red to bright white.
- **Alarm Sound:** Select from 7 natural sounds or FM radio as your alarm sound. Adjust the volume using the volume buttons.
- **Activating:** Ensure the alarm is enabled (indicated by an alarm icon on the display).

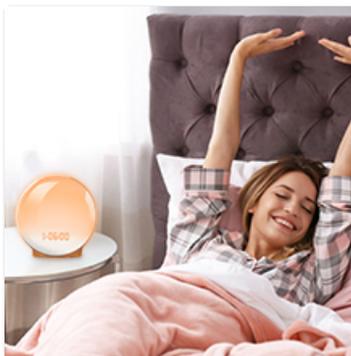

Image: A woman stretching in bed, waking up naturally with the gradual brightening of the alarm clock's light.

2. Sunset Simulation Sleep Aid

- **Activating Sleep Aid:** Press the 'Sleep Aid' button (often indicated by a moon or sleep icon).
- **Duration:** Set the desired duration for the sunset simulation. The light will gradually dim over this period.
- **Sound Options:** Choose from 3 natural sounds or FM radio to play as the light dims.

Image: A woman reading in bed with the alarm clock providing soft light and playing calming sounds, illustrating the sleep aid function.

3. Dual Alarms

- The device supports two separate alarms, typically labeled Alarm 1 and Alarm 2. This allows for different wake-up times for weekdays and weekends, or for multiple users.
- To set each alarm, follow the steps for 'Sunrise Simulation Alarm' for both Alarm 1 and Alarm 2 independently.

Image: The alarm clock display showing options for Alarm 1 (weekdays) and Alarm 2 (weekends), demonstrating the dual alarm feature.

4. Snooze Function

- When the alarm sounds, press the 'Snooze' button (often a large button on top or indicated by a 'Zz' icon) to temporarily pause the alarm.
- The alarm will sound again after 9 minutes. This can typically be repeated up to 5 times.

5. FM Radio & Natural Sounds

- **FM Radio:** Press the 'Radio' button to turn on the FM radio. Use the '+' and '-' buttons to scan for stations or manually tune.
- **Natural Sounds:** When setting an alarm or sleep aid, you can select from 7 built-in natural sounds (e.g., birds, ocean waves, wind chimes) instead of the FM radio.

6. Light Settings

- **Brightness Adjustment:** Press the 'Light' button (often a sun icon) to turn on the light. Use the '+' and '-' buttons to cycle through 20 brightness levels.
- **Color Options:** The light also offers 7 different color modes for ambient lighting. Press the 'Light' button repeatedly to cycle through these colors.

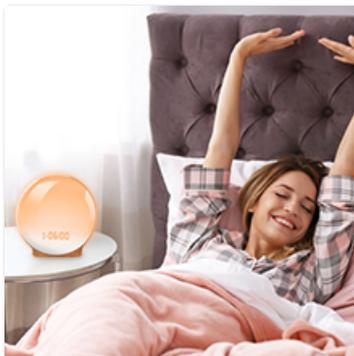

Image: The alarm clock showcasing its ability to display multiple light colors and gradual dimming, offering personalized ambient lighting.

7. USB Charging Port

The 5V/2A USB output port on the back of the device can be used to charge small electronic devices like smartphones. Connect your device's charging cable to this port.

MAINTENANCE

To ensure the longevity and proper functioning of your TITIROBA Sunrise Alarm Clock, follow these maintenance guidelines:

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the surface.
- **Water Exposure:** This device is not waterproof. Avoid exposing it to water or high humidity.
- **Placement:** Place the alarm clock on a stable, flat surface away from direct sunlight, heat sources, and excessive dust.
- **Battery Replacement:** If using the backup battery, replace it periodically (e.g., annually) to ensure settings are retained during power interruptions.

TROUBLESHOOTING GUIDE

If you encounter issues with your alarm clock, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on.	Power cable not connected properly or power outlet issue.	Ensure the power cable is securely plugged into both the device and a working power outlet. Try a different outlet.
Alarm does not sound or light up.	Alarm not activated, volume too low, or incorrect time set.	Verify that the alarm is enabled (alarm icon visible). Check alarm time and ensure volume is set appropriately.
Time/settings reset after power outage.	No backup battery installed or battery is depleted.	Install a fresh CR2032 backup battery.
FM radio reception is poor.	Antenna not extended or interference.	Fully extend the FM antenna wire. Reposition the device to reduce interference.

Problem	Possible Cause	Solution
USB charging port not working.	Device not powered, or cable/device being charged is faulty.	Ensure the alarm clock is powered on. Try a different USB cable or a different device to charge.

PRODUCT SPECIFICATIONS

Feature	Specification
Model Name	MY-09
Product Dimensions	3.15"D x 3.15"W x 7.09"H
Item Weight	1.1 Pounds
Power Source	Corded Electric
Light Source Type	LED
Brightness Levels	20
Color Options	7
Natural Sounds	7
Snooze Duration	9 minutes (up to 5 times)
USB Output	5V/2A
Backup Battery	1 CR2032 (not included)
Material	Acrylonitrile Butadiene Styrene (ABS)
Control Method	Touch / Push Button
