# Belkin BOOST↑UP Wireless Charging Stand 10W (Model F7U083ttBLK) - Instruction Manual

Your guide to setting up and using your Belkin Wireless Charging Stand.

## 1. INTRODUCTION

The Belkin BOOST↑UP Wireless Charging Stand 10W provides convenient wireless charging for Qi-enabled devices. This stand is optimized to deliver fast wireless charging speeds to compatible Apple and Samsung devices, and standard 5W charging to other Qi-enabled devices. Its design allows for charging in both portrait and landscape orientations, and it can charge through lightweight plastic cases up to 3mm thick.

## 2. PACKAGE CONTENTS

---

Verify that all items are present in your package:

- Belkin BOOST↑UP Wireless Charging Stand
- AC Adaptor
- Quick Start Guide

## 3. SETUP INSTRUCTIONS

---

1. **Connect the AC Adaptor:** Plug the AC adaptor into the port located at the back of the wireless charging stand.
2. **Connect to Power:** Plug the other end of the AC adaptor into a wall outlet.
3. **Placement:** Place the charging stand on a flat, stable surface. Ensure there is adequate ventilation around the stand.

## FEATURES & DIMENSIONS

4-ft AC Adapter

10W  
Transmitter Coil

LED  
Indicator

Qi-Certified

## 4. OPERATING INSTRUCTIONS

### 4.1 Charging Your Device

1. **Place Device on Stand:** Position your Qi-enabled smartphone on the charging pad of the stand. The phone can be placed in either portrait or landscape orientation.
2. **Confirm Charging:** An LED indicator on the stand will illuminate to confirm that your device is properly aligned and charging.
3. **Case Compatibility:** The stand is designed to charge through most lightweight plastic cases up to 3mm thick. Remove any metal attachments or unusually thick cases that may interfere with charging.

# CHARGE LANDSCAPE OR PORTRAIT

Enjoy access to calls, texts, apps and video while charging.

# CHARGE THROUGH YOUR CASE

No need to remove your case – charges through most plastic, non-metal cases up to 3mm.

Image 4.2: A close-up view of a smartphone charging on the Belkin BOOST↑UP Wireless Charging Stand, illustrating its ability to charge through a plastic case up to 3mm thick.

## 4.2 Fast Charging Compatibility

- **iPhone:** Delivers up to 7.5W fast wireless charging for compatible iPhone models (e.g., iPhone 8, X, XR, XS, 11, 12, 13 series).
- **Samsung:** Delivers up to 9W fast wireless charging for compatible Samsung Galaxy devices (e.g., S9, S10, Note9, Note10 series).
- **Other Qi-Enabled Devices:** Provides a standard 5W wireless charging speed.

## 4.3 Intelligent Design Features

- **Foreign Object Detection:** Prevents charging when foreign metal objects are detected on the charging surface.
- **Overheating Protection:** Built-in safeguards to prevent the charger and your device from overheating.
- **Precise Power Output:** Ensures optimal and safe power delivery to your device.

- **Non-Slip Surface:** The stand features a non-slip surface to keep your device securely in place during charging.

## 5. MAINTENANCE

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to wipe the surface of the charging stand. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the charging stand in a cool, dry place when not in use for extended periods.
- **Avoid Obstructions:** Ensure no foreign objects are placed between your device and the charging surface during operation.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Device not Qi-enabled. Improper alignment. Thick or metallic phone case. Foreign object on charging surface. Power adapter not connected.	Verify device is Qi-compatible. Re-position device on the center of the stand. Remove phone case or any metal attachments. Remove any objects from the charging surface. Ensure AC adapter is securely plugged into the stand and wall outlet.
Slow charging.	Device not optimized for fast charging. Background apps consuming power.	Confirm device supports 7.5W (iPhone) or 9W (Samsung) wireless charging. Close unnecessary applications on your device.

Problem	Possible Cause	Solution
LED indicator blinking.	Foreign object detected. Device overheating.	Remove any foreign objects from the charging surface. Remove the device, allow it and the stand to cool down, then try again.

## 7. SPECIFICATIONS

- **Model Number:** F7U083ttBLK
- **Brand:** Belkin
- **Color:** Black
- **Dimensions (L x W x H):** 3.9 x 3.9 x 4.3 inches
- **Weight:** 9.9 ounces
- **Connectivity:** Wireless (Qi-certified)
- **Input Voltage:** 100-240 Volts (AC)
- **Amperage:** 3 Amps
- **Output Power:** Up to 10W (7.5W for iPhone, 9W for Samsung, 5W for other Qi-enabled devices)
- **Case Compatibility:** Charges through lightweight plastic cases up to 3mm
- **Included Components:** Wireless Charging Stand, AC Adaptor, Quick Start Guide
- **Special Features:** Lightweight Design, Foreign Object Detection, Overheating Protection, Precise Power Output, Non-Slip Surface
