KZ ZSN Pro In-Ear Headphones User Manual

Model: purp-ZSNpro no mic

INTRODUCTION

Thank you for choosing the KZ ZSN Pro In-Ear Headphones. These high-performance earphones are designed to deliver exceptional audio quality for both gaming and music, featuring a hybrid balanced armature and dynamic driver system. This manual provides essential information on setup, operation, maintenance, and troubleshooting to ensure you get the best experience from your new earphones.

WHAT'S IN THE BOX

Your KZ ZSN Pro package includes the following components:

- 1 pair of KZ ZSN Pro Headsets
- 1 Earphones Cable
- 3 pairs of Ear Cushions (S/M/L)
- 1 User Manual (this document)

SETUP

1. Connecting the Detachable Cable

The KZ ZSN Pro features an upgraded detachable 2-pin cable with a slot protection design. This

design effectively protects the pins from breakage and extends the product's lifespan. To connect the cable:

1. Identify the left (L) and right (R) earpieces and cable connectors.
2. Align the 2-pin connector on the cable with the corresponding port on each earbud.
3. Gently push the connector into the earbud until it clicks securely into place. Do not force the connection.

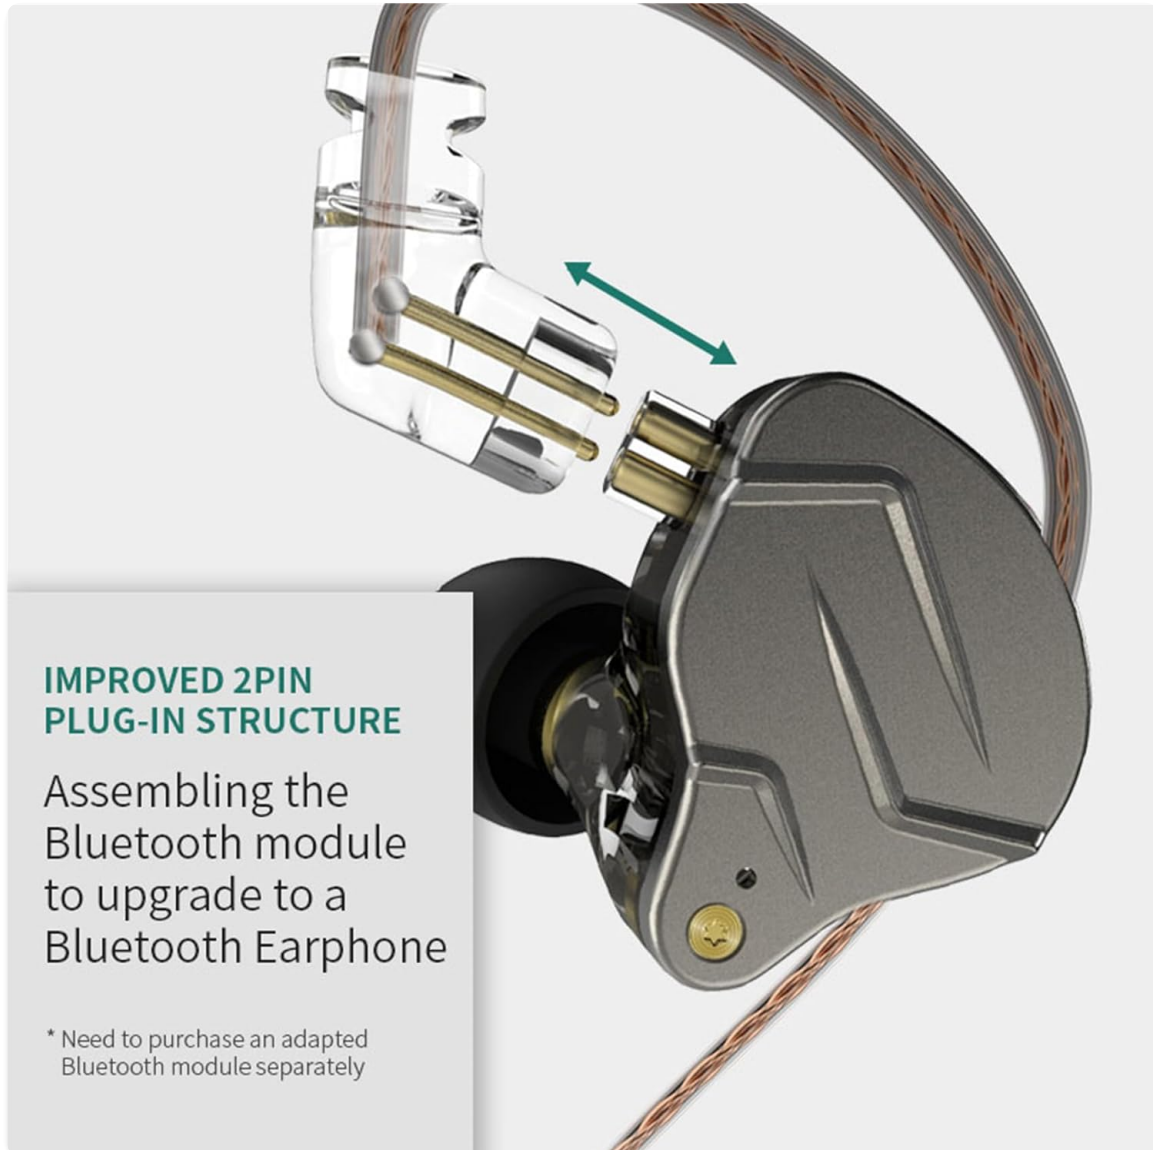

Image: Diagram illustrating the secure 2-pin detachable cable connection.

2. Choosing and Attaching Eartips

For optimal sound quality and comfort, select the eartip size that best fits your ears. Your earphones come with three different sizes (S/M/L). A proper seal is crucial for effective noise isolation and bass response.

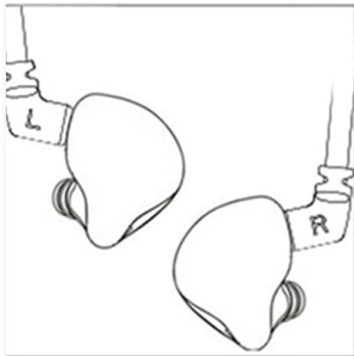

1. Gently remove the pre-installed eartips (if any) by pulling them off.
2. Select the desired eartip size.
3. Push the eartip onto the nozzle of the earbud until it is fully seated.

3. Ergonomic Wearing

The KZ ZSN Pro earphones are designed for comfortable and stable wearing, especially with their ear hook design. Proper wearing also contributes to noise reduction, isolating up to 26dB of noise

when no music is playing.

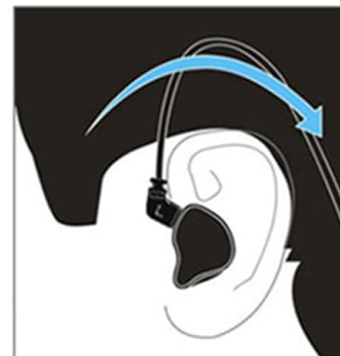

Schematic Diagram Of Headset Wearing

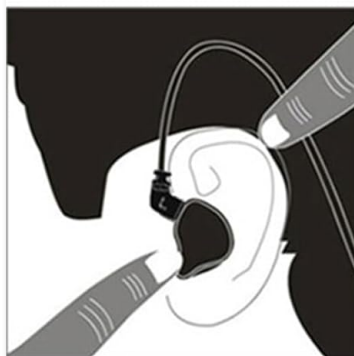

Correctly distinguish right and left headphones, " L " for left, " R " for right.

Straight headphones inserted into the ear, correct wear, comfortable wear, good sound insulation performance.

Fix the headset wire behind the ear.

Press and hold the headset panel to adjust the seal.

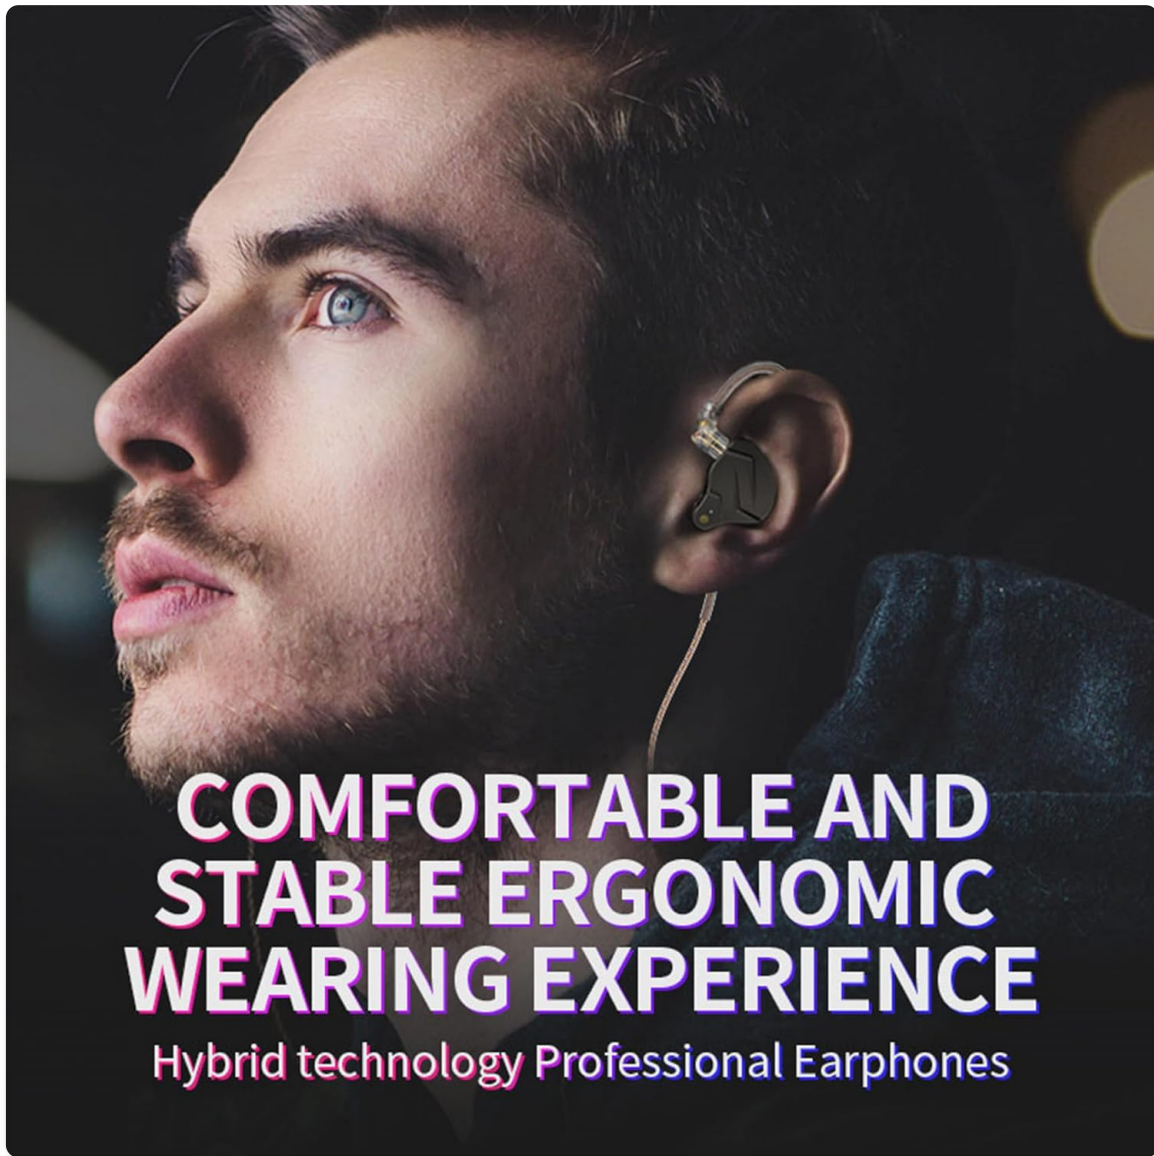

Adjust earphone wire and fix earphone.

Plug the headset plugs into the play-back device and use the device to adjust the volume before the headset is plugged into the device.

OPERATING INSTRUCTIONS

The KZ ZSN Pro earphones feature media control functionality. The specific control method may vary slightly depending on whether your model includes a microphone and the connected device's operating system.

Image: Visual guide to media control functions on the earphone cable.

- **Short Press:** Answer/End Call, Play/Pause Music.
- **Press Twice:** Next Song.
- **Press Three Times:** Previous Song.
- **Long Press:** Reject Call.

Connect the 3.5mm audio plug to your compatible device (cellphones, laptops, desktops, music production equipment, tablets, smart speakers, television, car audio systems).

MAINTENANCE

To ensure the longevity and optimal performance of your KZ ZSN Pro earphones, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the eartips and earbud nozzles to prevent wax buildup, which can affect sound quality. Use a soft, dry cloth for the earbud bodies and a slightly damp cloth for the eartips. Ensure all parts are dry before reassembly.
- **Storage:** When not in use, store your earphones in the provided carrying case to protect them from dust, dirt, and physical damage. Avoid extreme temperatures and humidity.
- **Cable Care:** Handle the detachable cable gently. Avoid sharp bends or excessive pulling, which can damage the internal wires or connectors.

If you encounter any issues with your KZ ZSN Pro earphones, please refer to the following common troubleshooting steps:

- **No Sound:**

- Ensure the 3.5mm audio plug is fully inserted into your device's audio jack.
- Check that the detachable 2-pin connectors are securely attached to the earbuds.
- Verify that the volume on your connected device is turned up and not muted.
- Test the earphones with a different audio source or device to rule out device-specific issues.

- **Poor Sound Quality (Muffled, Low Bass, or Tinny Sound):**

- Ensure the eartips are properly seated on the earbud nozzles and that you have a good seal in your ear. Try different eartip sizes to find the best fit.
- Clean any debris or earwax from the eartips and earbud nozzles.
- Check the audio source for quality issues.

- **Intermittent Sound or Static:**

- Inspect the cable for any visible damage or kinks.
- Ensure the 3.5mm plug and 2-pin connectors are clean and free of dust.
- Try rotating the 3.5mm plug slightly in the audio jack.

If these steps do not resolve the issue, please contact customer support for further assistance.

SPECIFICATIONS
