Aeitto cold press juicer

Aeitto Slow Masticating Juicer Machine User Manual

Model: cold press juicer | Brand: Aeitto

1. INTRODUCTION

The Aeitto Slow Masticating Juicer is designed to extract nutrient-rich juice from a variety of fruits and vegetables. Utilizing a slow-speed (60 RPM) cold press technology, it minimizes heat build-up and oxidation, preserving essential vitamins, enzymes, and minerals. Its wide and dual feed chute accommodates larger produce, reducing preparation time, while the powerful masticating technology ensures high juice yield and efficient separation of pulp.

HEALTHY JUICE HEALTHY LIFE

2. IMPORTANT SAFETY INSTRUCTIONS

To ensure safe operation and prevent damage to the appliance, please read and follow all safety instructions carefully.

- Always unplug the juicer from the power outlet before assembling, disassembling, or cleaning.
- Do not immerse the motor base in water or any other liquid. Wipe clean with a damp cloth.
- Keep hands and utensils out of the feed chute during operation to prevent injury. Always use the food pusher provided.
- Ensure all parts are correctly assembled and locked into place before operating the juicer.
- Do not operate the juicer if the power cord or plug is damaged, or if the appliance malfunctions or has been dropped.

- This appliance is for household use only. Do not use outdoors.
- Keep the appliance out of reach of children.

3. PARTS LIST

Familiarize yourself with the components of your Aeitto Slow Masticating Juicer:

- **Motor Base:** Contains the motor and control panel.
- **Juicing Body:** The main assembly where juicing occurs, including the feed chute and pulp/juice outlets.
- **Auger:** The spiral component that crushes and presses produce.
- **Filter:** Separates juice from pulp.
- **Juice Cup:** Collects the extracted juice.
- **Pulp Cup:** Collects the discarded pulp.
- **Food Pusher:** Used to guide produce into the feed chute.
- **Cleaning Brush:** For easy cleaning of the filter and other components.

4. SETUP AND ASSEMBLY

Follow these steps to assemble your juicer before first use:

1. Place the motor base on a stable, flat surface.
2. Align the juicing body with the motor base and rotate it clockwise until it locks securely into place.
3. Insert the auger into the juicing body, ensuring it sits firmly.
4. Place the filter over the auger, aligning it properly within the juicing body.
5. Attach the top cover with the feed chute, rotating it until it clicks into the locked position. Ensure the safety lock lever is engaged.
6. Position the juice cup under the juice outlet and the pulp cup under the pulp outlet.
7. Plug the power cord into a grounded electrical outlet.

5. OPERATING INSTRUCTIONS

Prepare your ingredients and begin juicing:

1. Wash all fruits and vegetables thoroughly.

2. Cut produce into pieces that fit comfortably into the feed chute. The 3.3-inch wide chute can handle larger pieces, while the smaller chute is ideal for strip-shaped ingredients like celery.
3. Press the **ON/OFF** button to turn on the juicer.
4. For most fruits and soft vegetables, press the **FWD** (Forward) button. For harder produce like carrots or apples, the juicer's powerful masticating technology will process them efficiently.
5. Slowly feed the prepared ingredients into the chute. Use the food pusher only when necessary to gently guide ingredients. Do not force ingredients.
6. The juicer will automatically separate the juice into the juice cup and the pulp into the pulp cup.
7. If clogging occurs, press the **REV** (Reverse) button to clear the obstruction. Release the button to return to normal operation.
8. Once juicing is complete, press the **ON/OFF** button to turn off the appliance and unplug it from the power outlet.

7 Stage Upgraded Spiral Auger

Image: A visual representation of the 7-stage spiral auger, detailing the cutting, breaking, squeezing, milling, separating, grinding, and extracting process for maximum juice yield.

Magic Plug Locking Nutritions

Turn off the plug to prevent from oxidation and mix different juice.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and longevity of your juicer. Clean immediately after each use.

1. Unplug the juicer from the power outlet.
2. Disassemble all removable parts (top cover, filter, auger, juicing body, juice cup, pulp cup).
3. Rinse all removable parts under running water. Use the included cleaning brush to remove any pulp residue from the filter and other components.
4. All removable parts are dishwasher safe for convenience.
5. Wipe the motor base with a damp cloth. Do not submerge the motor base in water.
6. Allow all parts to dry completely before reassembling or storing.

Residue & Juice Separation

Maintain the Original Flavor

Taste better

Less sediment

Less oxidation

Less nutrient loss

Image: Demonstrates the efficient separation of juice and dry pulp, indicating effective extraction and easier cleanup.

7. TROUBLESHOOTING

If you encounter any issues with your juicer, refer to the following common problems and solutions:

- **Juicer does not turn on:**

- Ensure the power cord is securely plugged into a working outlet.
- Check that all parts are correctly assembled and the safety lock is engaged. The juicer will not operate if not properly assembled.

- **Juicer stops during operation or clogs:**

- Press the **REV** (Reverse) button to clear any jammed ingredients.
- Ensure ingredients are cut into appropriate sizes and not overfilling the chute.

- If the motor overheats, the juicer may automatically shut off. Unplug and let it cool down for 30 minutes before resuming use.

- **Low juice yield or wet pulp:**

- Ensure the filter is clean and free of clogs.
- Make sure ingredients are fresh and suitable for juicing.
- Process ingredients slowly and do not overload the juicer.

8. SPECIFICATIONS

Feature	Detail
Brand	Aeitto
Model Name	masticating juicer
Color	Carbon Black
Product Dimensions	8.86"D x 6.22"W x 19.53"H
Item Weight	14.27 pounds
Capacity	900 Milliliters
Maximum Power	200 Watts
Voltage	120 Volts
Number of Speeds	2
Blade Material	Stainless Steel
Is Dishwasher Safe	Yes

9. WARRANTY AND SUPPORT

Aeitto stands behind the quality of its products. Your Slow Masticating Juicer comes with a comprehensive warranty and dedicated customer support:

- **Return Policy:** Enjoy a 30-Days return policy from the date of purchase.
- **Repair and Replacement Service:** We provide 24 months Repair and Replacement Service (after activation). Please refer to the product packaging or official website for activation details.
- **Customer Service:** Our customer service team is available 7 days a week, 24 hours a day, to assist you with any questions or concerns. Please reach out to us anytime.
