

JMEXSUSS EXS-S-0600

JMEXSUSS 168FT 600 LED Warm White Christmas Lights Instruction Manual

1. INTRODUCTION

This manual provides essential information for the safe and effective use of your JMEXSUSS 168FT 600 LED Warm White Christmas Lights. Please read these instructions thoroughly before installation and operation, and retain them for future reference.

These versatile string lights are designed for both indoor and outdoor applications, featuring 600 warm white LEDs on a clear wire, a 10ft lead wire, and a total length of 168ft. They include a remote control for various lighting modes and dimming options.

2. SAFETY INFORMATION

- **Power Source:** Use only with the provided UL-certified adapter. Ensure the voltage matches your local power supply.
- **Waterproof Rating:** The string lights are IPX7 waterproof for outdoor use. However, the transformer (plug) is NOT waterproof and must be placed in a dry location, protected from rain and moisture.
- **Installation:** Do not secure the wiring with staples or nails that could damage the insulation. Avoid placing the lights near heat sources or flammable materials.
- **Handling:** Do not twist or pull the wires excessively. Avoid stepping on the lights or placing heavy objects on them.
- **Maintenance:** Disconnect from power before cleaning or performing any maintenance. Do not attempt to repair damaged lights or wires; contact customer service.
- **Children and Pets:** Keep lights and electrical components out of reach of children and pets to prevent choking hazards or electrical shock.

3. PACKAGE CONTENTS

- 1x 168FT 600 LED Warm White String Lights (on a reel)

- 1x Remote Control
- 1x UL Plug (Transformer)

Clear String Lights on a Reel

UL Adapter

Multi-function Remote Control

4. SETUP INSTRUCTIONS

1. **Unpack the Lights:** Carefully unroll the string lights from the reel. Ensure the wires are not tangled or damaged during this process.
2. **Placement:** Determine your desired installation area. For outdoor use, ensure the transformer is protected from moisture. For indoor use, avoid placing lights where they can be easily snagged or damaged.
3. **Secure the Lights:** Use appropriate fasteners (e.g., light clips, zip ties) to secure the lights. Avoid using metal staples or nails that could pierce the wire insulation.
4. **Connect to Power:** Plug the UL adapter into a standard electrical outlet.
5. **Test Functionality:** Once plugged in, the lights should illuminate. Use the remote control or the button on the adapter to test different modes and brightness levels.

Product components: 600 LED string lights on a reel, remote control, and UL plug.

5. OPERATING INSTRUCTIONS

Your JMEXSUSS Christmas lights can be operated using the included remote control or the button on the UL adapter.

Using the Remote Control:

- **ON/OFF:** Press the 'ON' button to turn the lights on, and 'OFF' to turn them off.
- **Lighting Modes:** The remote features 8 different lighting modes. Press buttons '1' through '8' to cycle through these modes (Combination, In Waves, Sequential, Slow Glow, Chasing, Slow Fade, Twinkle, Steady On).
- **Dimming:** Use the 'DIM+' and 'DIM-' buttons to adjust the brightness. There are 4 adjustable brightness levels.
- **Timer Function:** Press the 'TIMER' button to activate the built-in timer. The lights will automatically turn on for 6 hours and then off for 18 hours, repeating daily.

Using the Adapter Button:

- Press the button on the UL adapter to cycle through the 8 lighting modes.
- Hold the button down to turn the lights off.

Adjust brightness with 4 levels using the remote control.

Select from 8 distinct lighting modes for various effects.

Automatic timer function: 6 hours on, 18 hours off.

6. FEATURES

- **Super Long & Bright:** 168ft length with 600 warm white LEDs, suitable for decorating large areas like a 7.5ft Christmas tree.
- **Versatile Use:** Ideal for Christmas trees, bedrooms, patios, walls, gardens, weddings, parties, and holiday decorations.
- **Storage Reel Design:** Comes with a convenient reel for easy setup, takedown, and storage, preventing tangles.
- **Waterproof Design:** Lights are waterproof (IPX7) for outdoor use, but the adapter must be kept dry.
- **Remote Control:** Includes a wireless remote with 8 lighting modes, 4 dimming levels, and a timer function.

Total Length	168 Feet
Number of LEDs	600
Lead Wire Length	10 Feet
Power Source	Corded Electric
Voltage	30 Volts
Wattage	5 Watts
Ingress Protection (IP) Rating	IPX7 (Lights), Not Waterproof (Transformer)
Control Method	Remote Control, Button Control
Number of Lighting Modes	8
Dimmable	Yes (4 levels)
Material	Polyvinyl Chloride

8. MAINTENANCE

- **Cleaning:** Ensure the lights are unplugged before cleaning. Wipe gently with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, carefully wind the lights back onto the provided reel to prevent tangling. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the lights and wiring for any signs of damage, such as frayed wires, cracked bulbs, or loose connections. Discontinue use if damage is found.

9. TROUBLESHOOTING

- **Lights not turning on:**
 - Ensure the power adapter is securely plugged into a working outlet.
 - Check if the 'ON' button on the remote or adapter has been pressed.
 - Verify that the power outlet is functional by plugging in another device.
- **Remote control not working:**
 - Ensure there are no obstructions between the remote and the adapter.
 - Point the remote directly at the adapter.
 - Check and replace the remote control battery if necessary.
- **Lights flickering or dimming unexpectedly:**
 - Check for loose connections in the wiring.
 - Ensure the power supply is stable.
 - If using the timer function, ensure it is set correctly.
