

FEELSO 21651

FEELSO Shower Head and 15-Stage Filter Combo: User Manual and Installation Guide

Model: 21651

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your FEELSO Shower Head and 15-Stage Filter Combo. Please read this guide thoroughly before installation and use to ensure proper function and longevity of the product.

2. PRODUCT OVERVIEW

The FEELSO Shower Head and 15-Stage Filter Combo is designed to enhance your showering experience by providing filtered water and multiple spray settings. It features a high-pressure shower head and a multi-stage filter system to reduce impurities.

2.1 Key Features

- **15-Stage Filtration System:** Designed to remove chlorine, heavy metals (lead, mercury, nickel, chromium), and other harmful substances from water.
- **High-Pressure Shower Head:** Delivers a powerful spray even with low water flow and pressure.
- **5 Spray Modes:** Offers Rain, Massage, Mist, Rain & Mist, and Rain & Massage modes for a customizable shower experience.
- **Adjustable Swivel Ball Joint:** Allows for easy adjustment of the shower head angle.
- **Easy Installation:** Designed for quick, tool-free setup.

2.2 Components

The package includes:

- FEELSO 5-Setting Fixed Shower Head
- FEELSO 15-Stage Shower Filter

- Additional Teflon Tape
- Installation Instructions (this manual)

3. INSTALLATION GUIDE

The FEELSO Shower Head and Filter Combo is designed for easy, tool-free installation. Follow these steps:

1. **Prepare the Shower Arm:** Unscrew your existing shower head from the shower arm. Clean any residue from the shower arm threads.
2. **Apply Teflon Tape:** Wrap the included Teflon tape clockwise around the threads of your shower arm 3-5 times to ensure a watertight seal.
3. **Attach the Filter:** Screw the 15-stage shower filter onto the shower arm. Hand-tighten until snug. Do not overtighten.
4. **Attach the Shower Head:** Screw the FEELSO shower head onto the bottom of the filter. Hand-tighten until snug.
5. **Flush the System:** Before first use, turn on the water and let it run through the filter and shower head for 5-10 minutes. This flushes out any carbon dust from the filter. It is normal for the water to appear black initially.

Note: The shower head and filter are designed to fit any standard 1/2-inch shower arm connection.

4. OPERATING INSTRUCTIONS

Your FEELSO Shower Head offers 5 distinct spray modes and an adjustable angle for a personalized shower experience.

4.1 Adjusting Spray Modes

To change the spray mode, simply rotate the dial on the face of the shower head. The available modes are:

- **Rain Mode:** A gentle, full-coverage spray.
- **Massage Mode:** A focused, pulsating spray for muscle relaxation.
- **Mist Mode:** A fine, soft mist.
- **Rain & Mist Mode:** A combination of rain and mist for a soothing experience.
- **Rain & Massage Mode:** Combines the full rain spray with a massaging pulse.

5 SPRAY PATTERNS

Choose you favorite spray pattern by rotating the small handle.

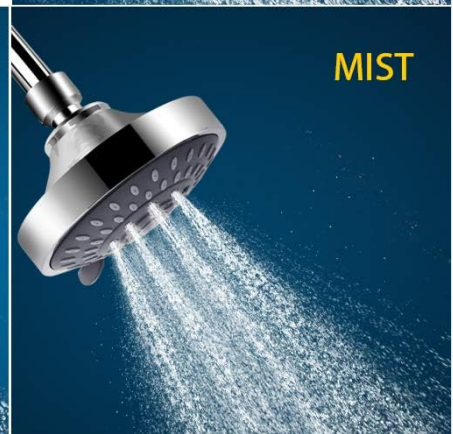

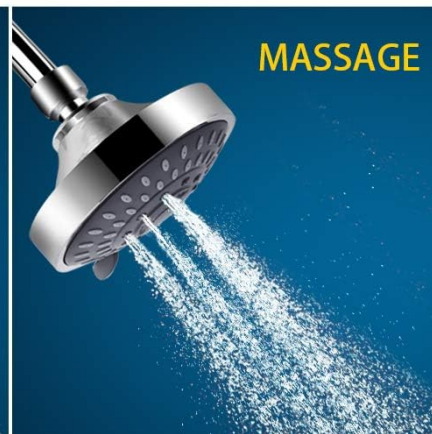

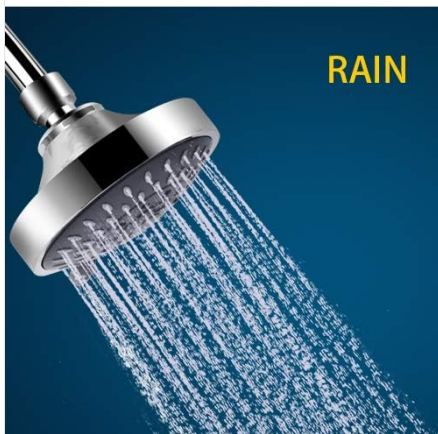

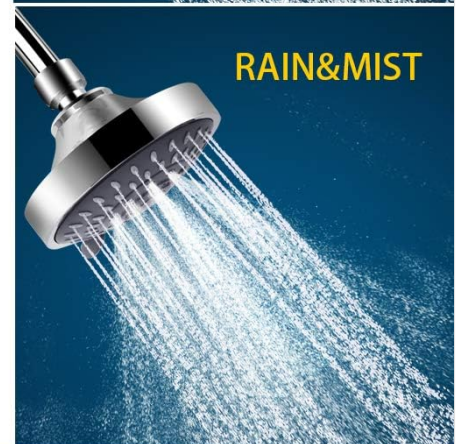

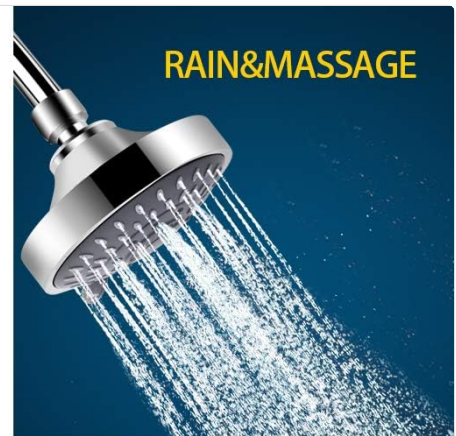

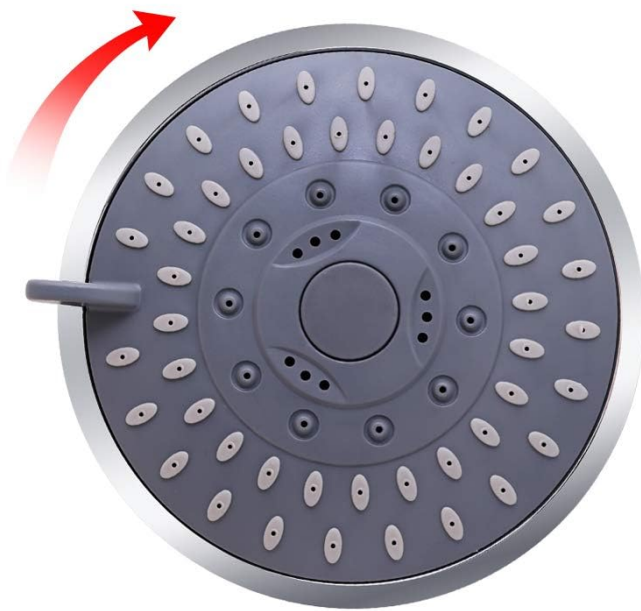

Figure 3: The 5 selectable spray patterns and how to rotate the dial to choose them.

4.2 Adjusting Shower Head Angle

The shower head features an adjustable swivel ball joint. Gently tilt the shower head to direct the water spray to your desired angle.

Figure 4: The adjustable swivel ball joint allowing 360-degree rotation of the shower head.

5. MAINTENANCE

5.1 Filter Replacement

The 15-stage filter cartridge has a finite lifespan. For optimal performance and continued water purification, it is recommended to replace the filter every 4-6 months. The replacement frequency may vary depending on your local water quality and usage.

1. Unscrew the shower head from the bottom of the filter.

2. Unscrew the filter housing to access the old filter cartridge.
3. Remove the old cartridge and insert a new FEELSO 15-stage replacement filter.
4. Reassemble the filter housing and shower head, hand-tightening all connections.
5. Flush the new filter by running water for 5-10 minutes before use.

5.2 Cleaning the Shower Head

To prevent mineral buildup and maintain spray performance, periodically clean the silicone nozzles of the shower head. Gently rub the nozzles with your finger or a soft brush to dislodge any deposits. For more stubborn buildup, a mild descaling solution can be used, followed by thorough rinsing.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Low water pressure	Clogged filter cartridge Mineral buildup in shower head nozzles Insufficient water supply pressure	Replace the filter cartridge (see Section 5.1). Clean the shower head nozzles (see Section 5.2). Check household water pressure.
Water leakage at connections	Connections not tight enough Insufficient Teflon tape Damaged O-rings/washers	Ensure all connections are hand-tight. Reapply Teflon tape to threads. Check O-rings/washers for damage and replace if necessary.
Water appears discolored (black/brown) initially	Carbon dust from new filter cartridge	This is normal. Let water run for 5-10 minutes to flush out carbon dust (see Section 3, Step 5).
Reduced effectiveness of filtration	Filter cartridge has reached end of its lifespan	Replace the filter cartridge (see Section 5.1).

7. SPECIFICATIONS

Brand	FEELSO
Model Number	21651
Product Dimensions	7.8"L x 4.1"W
Item Weight	15.9 ounces
Flow Rate	1.8 Gallons Per Minute (GPM)
Number of Spray Settings	5
Material	Silicone (nozzles), ABS (housing)
Finish Type	Chrome
Installation Type	Screw-In, Wall Mounted
Accessory Connection Type	1/2-inch
