## 6. Troubleshooting

Most common issues with towels can be resolved with proper care. If you experience any of the following:

- **Excessive Linting:** Ensure you are washing with like colors and avoiding fabric softeners, which can break down

fibers. Multiple washes may be required for new towels to shed initial loose fibers.

- **Reduced Absorbency:** Avoid fabric softeners, as they can leave a residue that repels water. Use the recommended mild detergent.
- **Fading Colors:** Always wash in cold water with like colors to help maintain color vibrancy. Avoid harsh detergents or bleach.
