4. Operating (How to Play)

The objective of the game is to be the first player to complete four Mission cards. Players take turns drawing and arranging Tile cards to match the patterns on their secret Mission cards.

Gameplay Steps:

1. **Draw a Tile Card:** On your turn, draw one Connect 4 Tile card from the draw pile.
2. **Arrange Tile Cards:** Place the drawn Tile card with your existing Tile cards to form patterns that match your secret Mission cards. You can arrange your Tile cards in any way you choose on your playing surface.
3. **Complete Missions:** If your arrangement of Tile cards matches a pattern on one of your Mission cards (e.g., four red tokens in a row, a square of green tokens, an 'L' shape of yellow tokens), declare the mission complete. Reveal the Mission card and set it aside.
4. **Power-Up Symbols:** Some Tile cards feature Power-Up symbols. If you draw a Tile card with a Power-Up symbol, you may perform a one-time action as indicated by the symbol. These actions can introduce unexpected twists to the game.
5. **Winning the Game:** The first player to successfully complete and reveal four Mission cards wins the game.
