Strivy 9A-1.5A-5525BK

Strivy 9V Charger for Hurricane Spin Scrubber Brush

Model: 9A-1.5A-5525BK

INTRODUCTION

This user manual provides essential information for the safe and effective use of your Strivy 9V Charger. This charger is specifically designed to power and recharge compatible Hurricane Spin Scrubber Brush models, including HSS1, HSSI, and JF-DY085030. Please read this manual thoroughly before using the product to ensure proper operation and longevity.

PRODUCT OVERVIEW

Figure 1: The Strivy 9V Charger unit, featuring a compact design with an integrated power cable and

Figure 2: Detail of the 5.5x2.1mm barrel connector, indicating positive polarity. The cable length is approximately 5.5 feet (1.5 meters).

The Strivy 9V Charger is a reliable power adapter designed for specific Hurricane Spin Scrubber Brush models. It features a standard US plug, a durable cable, and a barrel connector for secure attachment to your device. The charger is built with multiple safety protections to ensure safe and efficient charging.

Figure 3: The charger incorporates multiple safety features including Over-Voltage Protection (OVP), Over-Current Protection (OCP), Over-Temperature Protection (OTP), and Short-Circuit Protection (SCP).

1. **Verify Compatibility:** Ensure your Hurricane Spin Scrubber Brush requires a 9V charger. This charger is *incompatible* with models requiring a 5V charging voltage. Compatible models include HSS1, HSSI, JF-DY085030, and JFDY085030.
2. **Connect to Device:** Insert the barrel connector of the Strivy 9V Charger firmly into the charging port of your Hurricane Spin Scrubber Brush.
3. **Connect to Power Outlet:** Plug the charger's AC prongs into a standard 100-240V wall outlet or power strip.

Figure 4: The Strivy 9V Charger connected to a Hurricane Spin Scrubber Brush, illustrating the proper connection for charging.

Figure 5: The charger plugged into a power strip, demonstrating how it can be used with various power sources.

OPERATING INSTRUCTIONS

- Once connected, the Hurricane Spin Scrubber Brush should indicate that it is charging (e.g., via an indicator light).

- Allow sufficient time for the device to fully charge. Charging times may vary depending on the battery level of your scrubber.
- The charger is designed with built-in protections against over-voltage, over-load, over-current, and short circuits, ensuring safe charging.
- Disconnect the charger from the device and the power outlet once charging is complete or when the device is not in use.

MAINTENANCE

- Keep the charger and its cable clean and dry. Avoid exposure to moisture or extreme temperatures.
- Do not bend or crimp the cable excessively, as this can damage the internal wires.
- Store the charger in a cool, dry place when not in use.
- Regularly inspect the charger and cable for any signs of damage, such as frayed wires or cracked casing. Discontinue use if damage is observed.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Device not charging	• Ensure the charger is securely plugged into both the device and a working power outlet. • Verify that your Hurricane Spin Scrubber Brush model is compatible with a 9V charger. This charger is not compatible with 5V models. • Check the charger cable and connector for any visible damage. • Try plugging the charger into a different power outlet to rule out an issue with the outlet.
Charger feels hot during use	• It is normal for chargers to become slightly warm during operation. • If the charger becomes excessively hot or emits a burning smell, immediately unplug it and discontinue use. Contact support.

SUPPORT

For any questions, concerns, or technical assistance regarding your Strivy 9V Charger, please contact the seller directly through your order platform. Providing your order details will help expedite the support process.
