User Manual

REPLACEMENT CHARGING DOCK/STAND FOR TIMEX FAMILY CONNECT SENIOR WATCH

Model: USSKGTADB | Brand: Soarking

1. Product Overview

This manual provides instructions for the Soarking Replacement Charging Dock/Stand, designed specifically for the Timex Family Connect Senior Watch. This product offers a convenient and efficient way to charge your watch, featuring a stable stand design and built-in protection circuits.

Figure 1.1: The Soarking Replacement Charging Dock with a Timex Family Connect Senior Watch securely placed for charging. The dock is black and features a stable, upright design.

2. Safety Information

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Use only with compatible devices: This charger is designed exclusively for the Timex Family Connect Senior Watch. Do not attempt to charge other devices.
- Ensure proper power source: Connect the charging dock to a 5V/1A power source, such as a computer USB port or a compatible wall adapter.
- Avoid extreme temperatures: Do not expose the charger to excessively high or low temperatures.
- Keep dry: This product is not waterproof. Avoid contact with water or other liquids.
- Handle with care: Do not drop, disassemble, or attempt to repair the charging dock yourself. Refer to customer support for assistance.

- Normal operation: It is normal for the charger to become warm during charging. If it becomes excessively hot, disconnect it immediately.

Figure 2.1: This diagram highlights the built-in safety features of the charging dock, including overcharge protection, short circuit protection, high temperature protection, electromagnetic field protection, high security, and over power protection, all designed to protect your device.

3. Package Contents

Verify that all items are present in the package:

- 1 x Soaking Sync Up Watch Charging Stand (with integrated 5-foot cable)

Notice:

- The Timex Family Connect Senior Watch and wall adapter are *not* included.

4. Setup

Follow these steps to set up your charging dock:

1. **Unpack the Charging Dock:** Carefully remove the charging dock from its packaging.

2. **Connect to Power:** Plug the USB end of the integrated 5-foot cable into a compatible 5V/1A power source. This can be a USB port on a computer, laptop, a wall adapter, or a power bank.

Figure 4.1: The charging dock's USB cable can be connected to various 5V/1A power sources, including desktop computers, laptops, wall adapters, and portable power banks.

3. **Prepare Your Watch:** Before placing your watch on the dock, ensure the contact pins on both the watch and the charging dock are clean and free of debris.

5. Operating Instructions

To charge your Timex Family Connect Senior Watch:

1. **Place the Watch:** Gently place your Timex Family Connect Senior Watch onto the charging dock. The dock is designed for portrait orientation, allowing you to view the watch screen directly while it charges. The updated magnetic connection will ensure the watch connects well with the charger.

Figure 5.1: The Timex Family Connect Senior Watch positioned on the Soarking charging dock, demonstrating its portrait orientation for easy viewing.

2. **Verify Charging:** Confirm that the watch screen indicates it is charging. The built-in protection circuit ensures safe charging.
3. **Charging Time:** A full charge for the Timex Family Connect Senior Watch typically takes approximately 100 minutes.

Figure 5.2: The charging dock conveniently placed on a nightstand, illustrating its stable design and ease of use for overnight charging.

Figure 5.3: The charging dock in a typical desk environment, showcasing its compact and stable design that prevents it from easily falling off surfaces.

6. Maintenance

To ensure the longevity and optimal performance of your charging dock:

- **Cleaning:** Regularly clean the contact pins on the charging dock and your watch with a soft, dry cloth to ensure a good connection.
- **Storage:** When not in use, store the charging dock in a cool, dry place away from direct sunlight and moisture.
- **Cable Care:** Avoid bending or kinking the integrated cable excessively. Do not pull the cable to disconnect the charger from the power source.

7. Troubleshooting

If you encounter issues with your charging dock, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Watch is not charging.	<ul style="list-style-type: none"> Loose connection. Dirty contact pins. Incompatible power source. Watch not properly seated. 	<ul style="list-style-type: none"> Ensure the USB cable is securely plugged into the power source. Clean the contact pins on both the watch and the dock. Verify the power source is 5V/1A. Re-seat the watch on the dock, ensuring proper alignment with the magnetic contacts.
Charger feels warm.	Normal operation during charging.	This is normal. If it becomes excessively hot, disconnect and contact support.
Watch falls off the dock easily.	Watch not properly aligned or magnetic connection not made.	Ensure the watch is correctly aligned with the magnetic charging points on the dock. The dock is designed to be stable.
