2.2 Arrangement Guidelines

These bones are designed for flexible arrangement to create various spooky scenes.

- **Graveyard Scene:** Scatter the bones around tombstones or artificial dirt mounds to simulate unearthed remains.
- **Haunted House:** Place individual bones or small groupings in corners, on shelves, or emerging from props.
- **Tabletop Decor:** Arrange the skull and select bones as a centerpiece for Halloween parties.

3. USAGE GUIDELINES

The XONOR Skeleton Bones and Skull set is suitable for both indoor and outdoor use.

- **Indoor Use:** Ideal for decorating living spaces, entryways, or party areas. Ensure placement does not create a tripping hazard.
- **Outdoor Use:** The plastic material is water resistant, making it suitable for lawns, gardens, and patios. For best longevity, avoid prolonged exposure to extreme weather conditions such as strong winds or direct, intense sunlight which could cause fading over many seasons.
- **Safety:** This product is for decorative purposes only and is not a toy. Keep out of reach of small children and pets to prevent choking hazards from small pieces.

4. MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your skeleton bone set.

- **Cleaning:** To clean the bones, simply wipe them with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the plastic finish.
- **Storage:** After use, clean the bones and store them in a dry, cool place away from direct sunlight. The original mesh bag can be used for convenient storage.

5. TROUBLESHOOTING

This product is simple in design and operation, but here are some common considerations:

Issue	Possible Cause	Solution
Bones appear dirty or dusty.	Exposure to outdoor elements or indoor dust.	Wipe clean with a damp cloth.
Bones are fading or discolored.	Prolonged exposure to direct sunlight.	Store indoors or in shaded areas when not in use. This is normal wear over extended periods.
Bones are broken.	Excessive force or impact.	Handle with care. Plastic can break under stress. Individual pieces may be replaced if available, or the set can be used with fewer pieces.
