

Targus U660

Targus U660 USB Optical Mouse User Manual

Model: U660 | Brand: Targus

INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your Targus U660 USB Optical Mouse. The Targus U660 is designed for smooth and precise cursor control, featuring a 1000 DPI optical sensor and a comfortable ambidextrous design.

PACKAGE CONTENTS

- Targus U660 USB Optical Mouse
- User Manual (this document)

PRODUCT OVERVIEW

The Targus U660 USB Optical Mouse features a standard three-button layout with a scroll wheel, designed for ease of use and compatibility with various operating systems.

Figure 1: Top-down view of the Targus U660 USB Optical Mouse, showing the left and right click buttons, and the scroll wheel in the center. The Targus logo is visible on the palm rest.

Figure 2: Front view of the Targus U660 USB Optical Mouse, highlighting the USB cable connection point and the scroll wheel.

SETUP

1. **Connect the Mouse:** Locate an available USB port on your computer (desktop, laptop, or compatible device). Insert the USB connector of the Targus U660 mouse into the USB port.

Figure 3: The Targus U660 USB Optical Mouse connected to a laptop via its USB cable.

2. **Driver Installation:** The Targus U660 is a plug-and-play device. Your operating system (Windows or macOS) will automatically detect and install the necessary drivers. No manual driver installation is typically required.
3. **Ready for Use:** Once the drivers are installed, the mouse is ready for immediate use.

OPERATING INSTRUCTIONS

The Targus U660 USB Optical Mouse operates like a standard computer mouse.

- **Left Click:** Press the left button to select items, open applications, or activate functions.
- **Right Click:** Press the right button to open context menus or access additional options.
- **Scroll Wheel:** Roll the scroll wheel up or down to navigate through documents and web pages. The scroll wheel can also be pressed as a middle button for specific functions depending on the application.
- **Movement:** Move the mouse across a flat surface to control the cursor on your screen. The 1000 DPI optical sensor provides precise tracking.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your mouse.

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the mouse. For stubborn dirt, a slightly damp cloth can be used, ensuring no moisture enters the device. Avoid harsh chemicals or abrasive cleaners.
- **Optical Sensor:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to ensure accurate tracking.

3D Optical Mouse

Rating: 5V — 100mA

FC Tested to comply CE
with FCC standards

FOR HOME OR OFFICE USE

MADE IN CHINA

- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	USB cable not properly connected. Faulty USB port. Driver issue.	Ensure the USB cable is securely plugged into the computer. Try plugging the mouse into a different USB port. Restart your computer to allow the operating system to re-detect the device.
Erratic cursor movement	Dirty optical sensor. Unsuitable surface.	Clean the optical sensor on the underside of the mouse. Use the mouse on a clean, non-reflective, opaque surface or a mouse pad.
Buttons or scroll wheel not working	Software conflict. Hardware malfunction.	Test the mouse on another computer to rule out software issues. If the issue persists on another computer, the mouse may require replacement.

SPECIFICATIONS

- **Model Name:** U660
- **Part Number:** AMU660AP
- **Connectivity:** USB (Wired)
- **Sensor Technology:** Optical
- **DPI:** 1000 DPI
- **Number of Buttons:** 3 (Left, Right, Scroll Wheel Click)
- **Hand Orientation:** Ambidextrous
- **Cable Length:** 4.9 ft (1.5 m)
