## Lionel 1927700

# Lionel Blue Comet Electric O Gauge Coach Car Instruction Manual

Model: 1927700

## INTRODUCTION

This manual provides instructions for the setup, operation, and maintenance of your Lionel Blue Comet Electric O Gauge Coach Car, Model 1927700. Please read these instructions carefully before using your model train car to ensure proper function and longevity.

## WHAT'S IN THE BOX

- One (1) Lionel Blue Comet Electric O Gauge Coach Car (Model 1927700)

## SETUP

1. **Unpacking:** Carefully remove the coach car from its packaging. Retain all packaging materials for future storage or transport.
2. **Track Placement:** Gently place the coach car onto your O Gauge track. Ensure all wheels are properly seated on the rails.
3. **Coupling:** Connect the coach car to your locomotive or other train cars using the operating couplers. Ensure the couplers are securely engaged to prevent accidental uncoupling during operation.
4. **Power Connection:** For interior illumination, ensure your track system is powered and the coach car is properly connected to the electrical current through the track.

Image 1: The Lionel Blue Comet O Gauge Coach Car, Model 1927700, shown on model train tracks. The car is blue with cream-colored windows featuring silhouettes of passengers. "THE BLUE COMET" is written on the side.

## OPERATING INSTRUCTIONS

- **Movement:** Once properly coupled and on a powered track, the coach car will move with the locomotive. Ensure the track is clear of obstructions.
- **Interior Illumination:** The coach car features interior illumination. This will activate automatically when the car is on a powered track.
- **Operating Couplers:** The die-cast metal trucks and operating couplers allow for easy connection and disconnection from other O Gauge rolling stock. Refer to your locomotive's manual for specific coupling and uncoupling procedures if using remote control.
- **Silhouettes in Windows:** The car features silhouettes in the windows, enhancing the realistic appearance of passengers inside.

## MAINTENANCE

- **Cleaning:** To clean the coach car, gently wipe surfaces with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, which can damage the finish.
- **Wheel and Axle Inspection:** Periodically inspect the die-cast metal trucks and wheels for any debris or wear. Keep wheels clean for optimal electrical contact and smooth operation.
- **Storage:** When not in use, store the coach car in its original packaging or a protective case in a dry, cool environment away from direct sunlight.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No interior illumination	Track not powered. Poor electrical contact between wheels and track. Bulb failure (less common).	Ensure power is supplied to the track. Clean wheels and track. Check for loose connections. Consult Lionel service if bulb replacement is suspected.
Car derails frequently	Improper track alignment. Debris on track or wheels. Damaged trucks or wheels.	Inspect track for proper alignment and secure connections. Clean track and wheels thoroughly. Inspect trucks and wheels for damage; contact Lionel service if damage is found.
Difficulty coupling/uncoupling	Couplers misaligned or obstructed. Damaged coupler.	Ensure couplers are clean and free of debris. Gently adjust coupler alignment. If damaged, contact Lionel service for replacement parts.

## SPECIFICATIONS

- **Product Dimensions:** 18 x 2.5 x 3 inches
- **Item Weight:** 1.6 pounds
- **Item Model Number:** 1927700
- **ASIN:** B07QC92S93

- **Manufacturer Recommended Age:** 14 years and up
- **Release Date:** October 30, 2019
- **Manufacturer:** Lionel
- **Features:** Die-cast metal trucks, operating couplers, interior illumination, silhouettes in windows.
