## 2. SETUP AND ASSEMBLY

---

Assembly is required for the LACK IKEA Shelving Unit. Please ensure all components are present before beginning assembly.

### 2.1 Wall Anchoring

For safety, this furniture must be securely fastened to the wall using the included wall anchoring device. Screws for wall mounting are not supplied, as different wall materials require specific types of fixing devices.

- Identify the type of wall material in your home (e.g., drywall, concrete, wood studs).
- Select appropriate fixing devices for your wall type. If unsure, consult a local hardware store for guidance.
- Follow the instructions provided with the wall anchoring device to securely attach the shelving unit to the wall.

## 3. OPERATING AND USAGE GUIDELINES

---

The LACK IKEA Shelving Unit offers flexibility in orientation and load capacity.

### 3.1 Orientation and Load Capacity

- **Horizontal Position:** When the unit is mounted horizontally, the total maximum load capacity is 55 lbs (25 kg).
- **Vertical Position:** When the unit is mounted vertically, the maximum load per individual shelf is 6 lbs (3 kg).

Always distribute weight evenly across the shelves to maintain stability and prevent damage.

## 4. MAINTENANCE

---

To ensure the longevity and appearance of your LACK IKEA Shelving Unit, follow these simple care instructions:

- Wipe clean using a damp cloth and a mild cleaner.
- Immediately wipe dry with a clean, soft cloth to prevent moisture damage.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
